# AR-24™

Seldom will you find a handgun with the quality, beauty, and hand-filling fit of the AR-24. Available in compact and full-sized formats, the AR-24 will satisfy all your needs from family protection to hard Law Enforcement service. Call your dealer today... and settle for nothing less.

"A History of Innovation"

January 1, 2010

## A NOTE FROM THE PRESIDENT...

The urgent market of late 2008/early 2009 has flooded the firearm market with a host of new "manufacturers." Today you're treated to a market absolutely packed with companies assuring you that all ARs are the same and that you'd be just as well off buying theirs.

In their cases, this may be true: you'd be surprised at the companies that buy parts from whomever's delivering this week, have their names stamped on the receivers, and then sell them as their own production.

But it's not true at ArmaLite.

ArmaLite isn't just an assembly shop. We knew many years ago that buying a bunch of parts and somehow making them work wasn't the key to production of perfect rifles. Instead, we began a long-term program to design a wide range of both bolt action and self-loading rifles and training devices. Rifles with the quality to satisfy the most expert customers.

We brought in a fine team of Engineers and more Quality Assurance staffers alone than the staff most of the generic companies have on their entire assembly lines. We designed our own prestige line of rifles to be the best at their tasks, not to be the cheapest. And then we built up a fine core of laboratory equipment and machine tools to design, test, and build our own rifles.

It's what's inside that counts, and ArmaLite takes considerable pains to assure that the details you can't see make a difference in the accuracy, reliability, and durability of the rifles we build. Rifles that we build for ourselves. Rifles that we're proud of. And rifles you can be proud of too.

In these days of political uncertainty you can have confidence that you'll not only be proud to have a Genuine ArmaLite for your own use, but that some day you'll be proud to hand off to another generation of proud and strong shooters.

# AR-50A1™

**\$3,359 50A1B**

50 Minute Rail, Scope, Scope Mount, Bipod Not Included

Rock solid and precise, the new AR-50A1™ provides a shooting experience unlike any other. The unique octagonal receiver and V-block bedding of the stock provide a solid platform for accurate long range shooting. The AR-50A1™ also features a multi-fluted muzzle brake that provides gentle recoil, and a removable buttstock for ease of transport. This rifle is not light, it's not quiet, but it sure is accurate.

Recommended Ammunition 700 - 750 grain

Caliber	Barrel	Receiver	Stock Group	Accuracy	Specs
<b>.50 BMG</b>	<ul style="list-style-type: none"> <li>-30" Chrome Moly</li> <li>-8 Groove</li> <li>-RH 1:15"</li> <li>-Highly Efficient Muzzle Brake</li> </ul>	<ul style="list-style-type: none"> <li>-Modified Octagonal Form</li> <li>-Triple Front Locking Lug Bolt</li> <li>-Spring Loaded Automatic Ejector</li> <li>-Sako Type Extractor</li> </ul>	<ul style="list-style-type: none"> <li>-Metal Stock</li> <li>-Adjustable Cheek Piece and Buttstock</li> <li>-Single Stage Trigger</li> </ul>	7 - 8 Inches @ 1000 Yards	59.5" Long 33.2 lbs.

Each Rifle Includes: 15 Minute Sight Rail, Owner's Manual, Ear Plugs, Limited Lifetime Warranty, and 1 package of Tylenol™ in case you forget your ear plugs

## Gear Package Available!

Includes: Scope Mount, Pro-Shot Cleaning Kit, Starlight Case with foam cut inserts

**\$399.00**

Buttstock and scope must be removed to fit in case

**Additional Accessories Available on Page 46**

## AR-30™

<b>.338 LAPUA</b>	<b>\$1,882</b>	<b>30M338</b>
<b>.300 WIN MAG</b>	<b>\$1,742</b>	<b>30M300</b>
<b>.308 WIN</b>	<b>\$1,742</b>	<b>30M308</b>

Scope Mount and Bipod Not Included

Based on the same revolutionary technology as its big brother the AR-50A1™, the AR-30™ is much smaller but offers the same amazing results. The AR-30's accuracy is undeniable no matter what caliber you choose. The AR-30™ features an octagonal receiver and a V-block bedding that eliminates movement of the action. Each features a rugged single stage trigger and a 5 round detachable magazine for fast reloads during matches.

Caliber	Barrel	Receiver	Stock Group	Accuracy	Specs
<b>.338 LAPUA</b>	<ul style="list-style-type: none"> <li>- 26" Chrome Moly</li> <li>- 6 Groove</li> <li>- RH 1:10"</li> <li>- Multi-Flute Muzzle Brake</li> </ul>	<ul style="list-style-type: none"> <li>- Modified Octagonal Form</li> <li>- Dual Front Locking Lug Bolt</li> </ul>	<ul style="list-style-type: none"> <li>- Metal Stock</li> <li>- Rugged Single Stage Trigger</li> </ul>	1 MOA	48" Long 12 lbs.

Recommended ammunition in .308 is 168-175 grain, .300 is 168-180 grain, .338 is 250-300 grain

### **.300 WIN MAG**

The AR-30™ .300 WIN MAG has the same specifications as the .338 LAPUA.

### **.308 WIN**

The AR-30™ .308 WIN has the same specifications as the .338 LAPUA with the exception of having a 4 groove barrel.

Each Rifle Includes: 10 Minute Sight Rail, 5 Round Magazine, Bi-pod Adapter, Owner's Manual, and a Limited Lifetime Warranty

**Additional Accessories Available on Pages 46**

## AR-10® and M-15™ Standard of Excellence

There are major differences between ArmaLite rifles and those of other rifle manufacturers. The parts ArmaLite offers as standard product are what others charge extra for. ArmaLite stands alone on this: offering extras as standard product. That's the ArmaLite value. The following list shows a few of the standard features ArmaLite gives you at no extra charge. Add them all up and you will find what makes an ArmaLite. What you add to it is what makes it YOUR ArmaLite.

### Standard ArmaLite Equipment

- ☒ Hard Coat Anodized Per Mil Spec for all Aluminum Parts
- ☒ Phosphate Steel Parts Per Mil Spec
- ☒ Forward Assist Upper
- ☒ Dust Cover
- ☒ Shell Deflector
- ☒ Forged Upper and Lower Receiver
- ☒ Upper Receiver with Mil Spec Picatinny Rail
- ☒ M4 feed ramps (all models)
- ☒ Steel Barrel Chambers and Bores Chrome Line Per MIL-C-23422D
- ☒ Steel Barrels are Double Lapped
- ☒ Stainless Steel Barrels are Triple Lapped
- ☒ Steel Barrels Phosphate (Under Gas Block As Well)
- ☒ M-15™ Barrels (CMV) Chrome Moly Vanadium (MIL-B-11595-E)
- ☒ GI Receiver Extension Tubes
- ☒ 2 Stage Trigger
- ☒ Phosphate Steel Bolt Per Mil Spec
- ☒ Phosphate Steel Bolt Carrier Per Mil Spec
- ☒ Bolt Carrier Chrome Lined on the Inside
- ☒ Load Leveled Bolt
- ☒ A2 Flash Suppressor (Birdcage)
- ☒ Bipod/Sling Swivel Installed on (T) Models
- ☒ High Cap A2 Buttstock, Larger Storage Than GI Stock
- ☒ All Rifles Test Fired Before Passing Inspection
- ☒ All Complete Upper Assemblies Test Fired Before Shipping
- ☒ Dry Film Interior Surface of Upper Receiver

## AR-10 National Match™

**\$2,365 10A4BNMF**

In one of the best kept secrets of National Match history, the Army Marksmanship Unit has been shooting AMU-built National Match grade AR-10's for the past two years. Their work has culminated with the acceptance of the ArmaLite AR-10NM™ for use "across the board" in NRA Service Rifle competition.

The result is the new ArmaLite AR-10NM™ rifle. Superbly accurate, this rifle is ready for long distance match domination. Equipped with ArmaLite's National Match Two Stage Trigger, matched receivers, extended elevation NM sights installed into ArmaLite detachable sight bases, and ArmaLite's exclusive stainless steel match barrel mated to ArmaLite's MIL STD 1913 Rail Handguard, the AR-10NM™ will be ready for its debut for 2010 matches.

ArmaLite recommends 150 - 175 grain bullets for all AR-10® .308 rifles with 163 grain being ideal

**Additional Accessories Available on Pages 36-47**

Year after year more national level shooters have chosen ArmaLite National Match rifles over other brands. With our history of support to the National Matches, it's no surprise. When National Match shooters intend to win, they look to ArmaLite.

This isn't by accident. ArmaLite's President is a veteran competitor, wearing the President's 100 tab for both the Distinguished Rifle and Distinguished Pistol Shot Badges, and the German Meisternadel in Gold for Pistol. He was also one of the early developers of the National Match M16.

Developed for the National Match shooter, the ArmaLite M-15A4 National Match SPR® allows versatility in sighting for other applications while conforming to match regulations by including the detachable NM carry handle.

M-15™ National Match

11

ArmaLite's Special Purpose Rifle comes from the factory ready to perform.

The M-15A4 SPR® is an efficient platform on which to build multiple sighting options. Light recoiling and dead accurate, the SPR line accepts detachable front and rear sights, carry handle or a host of scope mounts or devices conforming to the MIL STD 1913 (Picatinny) rail.

The M-15A4™ Carbine is designed with the mid-length handguard and gas tube technology. It provides an optimal gas pulse to power the 16" system so reliability is never an issue, all the while providing a comfortable grip.

## M-15A2™

**\$1,150 15A2**

Also Available in Black 15A2B

The design that has stood the test of time. The M-15A2™ is ArmaLite's semi-automatic civilian version of the famed M16A2 Service Rifle.

Originated by the desire for a rifle that was durable, reliable, weather resistant, long lasting and dead on accurate; the A2 is an outstanding tactical rifle design! It is excellent for law enforcement, entry level service rifle training, hunting or collecting. The double-lapped chrome lined barrel is the basis of ArmaLite's superb accuracy.

The M-15A2™ Carbine is a close quarters combat rifle. Its 16 inch barrel, mid-length gas system and handguard provide reliability, accuracy and comfortable grip.

Additional Accessories Available on Pages 36-47

The M-15A4CBA2K - A combination carbine. The perfect platform for many tactical applications. We have combined the sighting options from the A2 and A4 carbines for flexibility. The mid-length handguard and gas tube technologies assure perfectly tuned gas flow for reliability and superior look and feel.

Utilized by agencies all over the country and now available to all tactical shooting enthusiasts, the ArmaLite LEC15A4CBK features the M203 step down barrel for Law Enforcement accessories. The A2 front sight combined with our flattop upper receiver and Picatinny rail accepts multiple sighting platforms.

15A4CB-7.62X39

Built on the same platform as the tactical M-15A4 Carbine, ArmaLite offers two new calibers. They are built with the mid-length handguard and gas system to provide the best in form and function.

You now have more caliber options with the release of these two rifles. Both give you heavy bullet advantages in a compact, M-15™ package.

The 6.8 SPC II provides a heavier bullet for customers preferring it to 5.56MM bullets.

The 7.62X39 is widely used and well respected around the world. Availability and price of this round should not be an issue.

ArmaLite recommends a 110-115 grain for the 6.8 and 123 grain for the 7.62X39

M-15™ (7.62x39, M16 and 6.8 SPC)

**15**

ArmaLite has a long history of providing the latest and greatest rifles in the world and it wasn't until recently that a pistol was discovered that could qualify as a worthy addition to the product line. The AR-24 incorporates traditional lines, innovative design and state-of-the-art factory production. The slide, frame and barrel are fully machined from ordnance steel forgings which strengthens and results in the best possible slide to frame fit on the market.

## AR-10® Magazines

**AR-10®  
Magazines**

### **AR-10® Magazines** **(7.62MM NATO and .338 Federal)**

ArmaLite AR-10 Mags are proprietary magazines. Previously ArmaLite AR-10's used a converted M-14 magazine (1st generation). Today's AR-10 magazines (Generation II) come in many sizes. Each mag will accommodate the other calibers the AR-10 is chambered in, such as .338 Federal and .243 Winchester.

25 Round Magazine	10607003	\$53.00
20 Round Magazine	10607002	\$44.95
15 Round Magazine	10607009	\$44.95
10 Round Magazine	10607001	\$44.95
5 Round Magazine	10607000	\$44.95
20 Round 1st Generation	EX0515	\$39.00 (not shown)

**M-14 Magazine**

### **M-14 Magazine**

M-14 20 Round Magazine	EX0511C	\$25.00
------------------------	---------	---------

### **AR-10® Generation II Magazine Conversion Kit**

Includes converted mag body, follower, and floor plate. For converting USGI magazines ONLY with no commercial imitation springs. Please check your State Laws pertaining to magazine capacities.

Generation II Mags	EA5085	\$30.00 (not shown)
--------------------	--------	---------------------

### **EMA Tactical Picatinny .223 Magazine Holder**

Mag pouch for .223 magazine. Fits on  
EMA Collapsible Stock/Picatinny rail  
EX6605 \$19.99

### **EMA TACTICAL .223 Magazine Coupler**

Polymer mag coupler expands ammunition  
capacity and saves reload time.  
EX6625 \$13.99

## M-15™ Magazines

### M-15™ Magazines (5.56 MM NATO)

ArmaLite's M-15™ magazines come in a variety of sizes and materials as well as different calibers for the alternate calibers in the ArmaLite line-up. Starting at the top in the .223/5.56mm the 5 and 10 round magazine are steel blocked 20 round magazines unless specified. The 20 and 30 round magazines are aluminum.

30 Round Magazine	EX0068	\$19.00
20 Round Magazine	EX0070	\$18.50
10 Round Magazine (steel)	EX0072	\$17.00
5 Round Magazine (steel)	EX0099	\$18.00 (not shown)
5 Round Magazine (steel)	EX0075	\$19.50 (not shown)
Blocked 10 round magazine		

### MAGPUL P-MAG

MAGPUL P-MAGS are polymer for .223/5.56mm rounds.

MAGPUL 30 Round	MAG211-BLK	\$14.20
MAGPUL 20 Round	MAG217-BLK	\$13.25

**MAGPUL**  
**20**

The M-15™ alternate calibers have magazines designed for that specific round. The 7.62X39 Russian round magazine comes in a 10 and 30 round aluminum magazine. The 6.8 SPC magazine comes in 10 and 25 round aluminum magazines in waffle design.

--------	---------

### ArmaLite™ Scope Mounts

ArmaLite's scope mounts provide outstanding, repeatable engagement with all Mil-Std Picatinny rails. Finely machined for high quality, our one piece scope mounts work with up to 50mm scope objectives.

30mm Scope Mount	EX0022	\$89.00
1" Scope Mount	EX0027	\$89.00

## M-15™ and AR-10® Accessories

### Tru Glow Detachable Front Sight

Brightest M-15™ sight in the industry. Includes optional, push button light for use in complete darkness. Designed for front gas blocks for M-15™ extra long, super bright, protected green fiber. Click elevation adjustment. Includes sight-adjustment tool.

**TG115     \$61.99**

### Trijicon Bright and Tough™ Night Sights

Trijicon Bright & Tough™ Night Sights are three-dot iron sights that increase night-fire shooting accuracy by as much as five times over conventional sights. Equally impressive, they do so with the same speed as instinctive shooting and without the need for batteries.

Housed in a metal body and cushioned within silicon rubber, Bright & Tough Night Sights feature a unique shock resistant design that is patented by Trijicon. Each lamp is capped with a sapphire jewel to help evenly distribute the light while protecting the lamp from solvents and puncture. Contained within aluminum cylinders for additional protection, the lamps are mounted on silicon rubber cushions to withstand shock and heavy recoil.

**LAW1182     \$85.00**

### Trijicon Front Sight

The Trijicon front sight installs into A2 front sight.

**LAW1180     \$60.00**

### MAGPUL MBUS Front and Rear Flipdown Sights

Mounts to quad rail handguard for the M-15™ and AR-10® firearms.

<b>MAG245-BLK</b>	<b>Front Sight</b>	<b>\$37.95</b>
<b>MAG246-BLK</b>	<b>Rear Sight</b>	<b>\$55.05</b>

# M-15™ and AR-10® Accessories

## Gripwell™

The Gripwell™ gives the operator an advantage in CQB over the "traditional" vertical foregrip. This is accomplished by using a super tight vertical grip which produces a natural tendency to keep the elbow in tight. This in turn keeps the operator from making accidental contact with other entry team members or hitting objects causing an accidental "sweeping" of a team mate.

<b>GW01A-BLK</b>	<b>Black</b>	<b>\$29.99</b>
<b>GW01A-GRN</b>	<b>Green</b>	<b>\$34.99</b>

## Side-Mount Sling Swivel

The Side-Mount Sling Swivel allows slings to be attached to the side of the rifle, attaching to any Mil-Std Picatinny Rail handguard system. The swivel mounts quickly and securely to the rifle using a button head cap screw allowing installation of the tactical slings.

<b>15903015</b>	<b>Quick Detatch Sling Swivel</b>	<b>\$21.99</b>
<b>15903025</b>	<b>Standard Sling Swivel</b>	<b>\$29.99</b>

## EMA Tactical Flashlight Grip Adaptor

1" light mount and vertical grip. Picatinny rail for laser. Light not included.

# ArmaLite Technology

ArmaLite's strength is its ability to manufacture a rifle that is 100% ArmaLite, AR-10®. From that original ArmaLite design we are able to make constant refinements because of our understanding of ordnance principle and through extensive development and testing. Today's AR-10's are the best 7.62MM on the market utilizing innovations that have changed the industry. From its load level bolt to the design of the mid-length gas system the AR-10® mid-length carbine is the most reliable heavy hitting rifle on the market.

## 8" Mid-Length Gas System

The 8" gas system assures optimal transfer of gas from the gas tube to the bolt carrier resulting in consistent cyclic rates

## Load Levelled™ Bolt

Spreads firing loads evenly over bolt lugs for increased strength.

## Picatinny Rail Upper Receiver

Standard on all A4 models. ArmaLite receivers are forged with forward assist and Mil Spec Picatinny rail providing a stable sighting platform.

## A2 Birdcage Flash Suppressor

Threaded 5/8 - 24

## Extractor System

Increase reliability of extraction and ejection.

## M4 Feed Ramps

Standard on all ArmaLite AR-10® and M-15™ models providing consistent feeding.

## Chrome Lined Barrel

Each ArmaLite barrel is custom built to ArmaLite blueprints by a team of Design Engineers and Quality Assurance Engineers dedicated to consistent quality and accuracy.

## Clamping Gas Block

Allows perfect centering of the rear sight.

## Generation 2 Magazines

5, 10, 15, 20, and 25 round magazines:  
New in 2008, redesigned and AR-10® specific.  
Designed for superb feeding and reliability of bolt catch operation.

## ArmaLite 2 Stage Trigger

ArmaLite's newest 2 stage trigger system for consistent pull. Comes standard on all AR-10® and M-15™ models

## G1 Carbine Extension Tube

With a 6 position collapsing stock ArmaLite utilizes G1 extension tubes standard on all carbine models.
