*The kit that started it all,
The Classic Lee Loader*

* Calibers requiring considerable force for sizing.

Classic Lee Loader

More shooters have chosen the famous Lee Loader for their first reloading tool than any other. They realize it is all they need for good, accurate ammunition. In fact, at one time ammunition loaded with a Lee Loader held a world record listed in the Guinness Book of World Records for more than seven years. Millions upon millions of rounds have been reloaded with the famous Lee Loader. It's the perfect tool for those who wish to simply try reloading, because it will pay for itself in just an hour or two. Find out for yourself how much fun it is to reload with the Lee Loader. Everything you need to begin loading one caliber!

RELOADING IS AN ENJOYABLE HOBBY, saves you money — and no manufacturer saves you more than Lee Precision, Inc. **Our mission is simple: produce the best American made value in reloading tools.** Our great prices come from patented, innovative designs. We are thankful to say that Lee Precision products are cast, machined and assembled in the USA.

A reloading press and a set of Lee Dies are all you need to start reloading. Lee Dies come complete with powder dipper, shell holder and instructions, along with comprehensive load data that tells

you how much and what type of powder to use. Dies and presses last a lifetime, so buying what your budget allows makes the most sense. For those with a workbench, consider our Lee Bench Plate for the ultimate convenience in mounting your presses. If you don't have a workbench, consider the Lee Reloading Stand, compact and very sturdy. If you have no loading equipment and are just getting started, you must consider that these basic steps need to be taken below.

Check out our complete line of reloading and casting equipment on our website, then visit your local merchant. If not blessed with a local dealer, one of the many online dealers will quickly and economically fill your order.

Lee Reloading Stand

At last, a reloading stand built just for your reloading needs. The sturdy powder coated steel stand places your press at the perfect counter stool or standing height. Three-leg design assures absolute stability regardless of the floor condition. Rubber tipped legs suitable for any surface.

The thick steel top is fitted with the patented, quick change Lee Bench Plate System with steel base block to fit all Lee metallic presses.

The stand also includes a sturdy steel shelf with two bench plate receivers that will neatly and securely store your extra presses or mountable accessories. Each leg has eight mounting holes that allow you to accessorize your stand with a multitude of bins, shelves or accessory racks.

Dimensions 39" high x 26" wide x 24" deep

90688 160.00

CONCRETE BLOCK NOT INCLUDED

ACCESSORIES

Die Rack

Sturdy steel rack with fasteners designed for the Lee Reloading stand. Conveniently holds your dies at the ready, especially helpful when loading small batches of ammo with frequent die changes. Can also be wall or bench mounted.

90680 13.00

Bin and Bracket

Sturdy steel bracket and parts bin. Includes fasteners to allow direct mounting to the Lee Reloading stand, or workbench. Perfect for holding bullets, cases and loaded rounds.

90687 14.00

Steel Base Block

Rigid, powder coated steel construction. First choice for mounting all current Lee Presses. Works with the Lee Reloading Stand and Bench Plate. Fasteners for mounting one Lee reloading press are included.

90267 15.00

JUST REMOVE

AND REPLACE

Patented design allows instant press change. So sturdy you can resize the monster 50 BMG case, then quickly switch to a smaller press for priming or other operations. Trapezoidal base block slides into perfect register and made immovable with the quick tightening of four bolts.

LEE BENCH PLATE

Includes steel base block with holes to mount any Lee press. Powder coated, thick steel plate mounts quickly and securely to any bench or tabletop. Wide steel plate distributes load, adding rigidity to the lightest bench top.

Lee Bench Plate 90251 30.00

SELECTING THE BEST HANDGUN DIE SET

Lee handgun dies feature a carbide sizing die — simply the best way to resize straight walled handgun cartridges.

Select the **DELUXE PISTOL 4-DIE SET** when using mixed range brass or brass that was fired in others guns. The Deluxe set includes the Carbide Factory crimp die. This die allows you to separate bullet seating from the crimping operation. It makes setup much easier and the die has the added feature of a carbide resizer that does a finishing sizing pass on the completed round. This final sizing guarantees that any case that passes through the die will freely and reliably chamber in any gun.

The **CARBIDE & STEEL THREE DIE SETS** work fine when using a quality controlled source of brass, like cases fired only in your gun. More care is required when adjusting the bullet seat and crimp die, as seating and crimping occur simultaneously. Bullet diameter control is important when not using the factory crimp.

Lee Dies reload cartridges better, easier, more accurately and with fewer problems!

Keep your dies set, and at the ready in the 4-die box.

CARBIDE FACTORY CRIMP DIE

Carbide ring in base resizes any portion of case that exceeds factory new dimensions. Floating crimp ring is finger adjustable to provide the perfect crimp.

HARDENED STEEL SHELLHOLDER

Others charge \$14.50 for this item!

Exclusive feature to Lee **POWDER MEASURE & CHARGE TABLE**

Exclusive feature to Lee **POWDER THROUGH EXPANDING DIE**

Only Lee Dies permit charging the case while expanding the case mouth. Every Lee Pistol Die Set includes this **Powder Through Expanding Die** at no extra cost. The powder funnel adapter can be replaced with a Lee case actuated Powder Measure (pg. 33) for fully automatic powder charging while the case mouth is being expanded.

RELOADING DIES shown with COLOR CODED SPLINE DRIVE BUSHINGS installed.
See page 8

CONTOUR GROUND CARBIDE SIZING DIE

BULLET SEAT & FEED DIE

Carbide Sizer

All Lee straight walled pistol dies have tungsten carbide sizer rings. Carbide is so hard that it can only be ground and polished with diamond wheels.

This hard diamond polished surface eliminates the need for case lubrication—they will never wear out. Exclusive contour grind sizes closer to the rim than any other brand.

The collet held decapper is nearly unbreakable even if you misadjust it or deprime crimped military cases.

The decapper clamp collet accurately centers the decapper in the die. Should you over stress it for any reason, it harmlessly slides up without breaking. Easily reset with no limit to the amount of times it can be reset.

Bullet Seat and Feed Die

Universal free floating seating plug works with nearly any point style bullet. No need to change seater plugs for different nose types. Finger adjustable seating depth eliminates fumbling with pliers, lock nuts and screwdrivers to make simple seating depth adjustment. Die is tapered on end for use with automatic bullet feeders.

LEE
exclusive feature

ONLY LEE DIES COME COMPLETE WITH POWDER MEASURE and CHARGE TABLE

PISTOL DIE SETS

LEE DELUXE PISTOL 4-DIE SET 62.98

INCLUDES CARBIDE FULL LENGTH SIZING DIE, POWDER THROUGH EXPANDING DIE, BULLET SEAT AND CRIMP DIE AND CARBIDE FACTORY CRIMP DIE.

Combines the world's most popular carbide three-die set with the Lee Carbide Factory Crimp Die at a great price. No other die set at any price produces more reliable or accurate ammo.

By separating the seating and crimping operation, you will benefit by greatly simplified adjustment. More importantly, the Carbide Factory Crimp Die post sizes your case, assuring that any round that passes through the die will chamber properly in your gun. This, plus all the other exclusive features — make this the best die set money can buy!

LEE CARBIDE PISTOL 3-DIE SET 42.98

INCLUDES CARBIDE FULL LENGTH SIZING DIE, POWDER THROUGH EXPANDING DIE AND BULLET SEAT AND CRIMP DIE.

We use a solid carbide insert, ground to a special contour that does not leave the objectional belt mark on the case, common to ordinary carbide dies. With a carbide sizer, no case lube is needed, and you don't even have to clean your cases.

NO NEED FOR A TAPER CRIMP DIE; BETTER ACCURACY WITH LEE DIES.

Taper crimp dies are used to correct the problems caused by the improper expanding plug design or adjustment. They distort the bullet shank and reduce accuracy. Because the Lee Expander flares the minimum amount, consistent with easy bullet insertion, all of the flare is removed with the bullet seating die, thus eliminating the need for a taper crimp die.

STORAGE IS EASY

LEE DIES ARE PACKED IN A FITTED BOX THAT ALLOWS DIES TO BE RETURNED TO THE BOX ADJUSTED WITH OR WITHOUT THE LEE BREECH LOCK BUSHING OR SPLINE DRIVE BUSHING INSTALLED

LEE VERY LTD PISTOL 4-DIE SET 48.98

INCLUDES STEEL FULL LENGTH SIZING DIE, POWDER THROUGH EXPANDING DIE, BULLET SEAT & CRIMP DIE, AND TAPER CRIMP DIE.

Same features as our 3-die carbide die sets, except the case must be lubricated. Includes taper crimp die.

LEE STEEL PISTOL 3-DIE SET 41.98

INCLUDES STEEL FULL LENGTH SIZING DIE, POWDER THROUGH EXPANDING DIE, BULLET SEAT AND CRIMP DIE, AND RESIZING LUBRICANT PACKET

Same features as our premium carbide sets, except the case must be lubricated.

LEE CARBIDE DIES are used in commercial loading machines that cycle four to five thousand times per hour. You can't wear them out with personal use. These are the most copied dies ever invented. The competition tries to copy our dies, but come up short. Only Lee puts it all together to make the best pistol dies money can buy. Reloaders buy Lee Dies because they are the best made and have the most features. No other brand can compare!

ULTIMATE LOCK RINGS

90566

9.98

Lee Ultimate Spline drive lock rings. One wouldn't think you could improve on a simple thing like a lock ring but we have. The new split clamp spline drive makes all other lock rings obsolete and clumsy to use.

We started with custom extrusion of high strength aluminum with a splined exterior surface. We split the ring and added a cross bolt that when even lightly tightened applies a vice like grip on your dies. No tiny set screws that easily strip or damage your die threads. Then we added the famous Lee "O" ring because, no matter how securely you have the lock ring clamped to the die it will loosen in the press during operation without the friction of the "O" ring. The "O" ring allows you to finger tighten into your press and it will never loosen during operation. Perfect for old school presses that require you to thread dies, in and out. Kit includes a wrench for easy die removal.

LOCK RING WRENCH

90093

2.00

A handy, compact wrench makes the new lock rings a delight to use. The lock ring wrench is now standard equipment on all Lee dies. Update older Lee Dies or competitor's dies.

LOCK RING (3-PACK)

90534

3.98

Lee Spline Drive Aluminum Lock-Rings are easy to adjust — just finger tighten — holds the adjustment rock solid. Package of 3. Will not loosen or move while reloading. Now standard on all Lee Dies. Update your older Lee Dies or competitor's dies.

WORKS ON TIGHT TOOLHEADS

Lee Die Boxes

Perfect storage for dies. Made from tough, durable plastic.

ROUND DIE BOX 90535 5.50

FLAT 3-DIE BOX 90791 4.98

FLAT 4-DIE BOX 90422 5.98

Holds dies with Breech Lock Quick Change insert installed.

Round Die Box

lets you store dies installed in a 3-hole turret.

FOR HANDGUN AMMUNITION THAT MUST WORK

Lee Carbide Factory Crimp Die

A CARBIDE SIZER SIZES THE cartridge while being crimped, so every round will positively chamber freely with factory like dependability. The adjusting screw quickly and easily sets the desired amount of crimp. It is impossible to buckle the case as with a conventional bullet seating die. Trim length is not critical so this extra operation takes less time than it would if cases were trimmed and chamfered.

Revolvers dies roll crimp with no limit as to the amount. A perfect taper crimp is applied to auto-loader rounds. The crimper cannot be misadjusted to make a case mouth too small to properly head-space. A firm crimp is essential for dependable and accurate ammunition—it eliminates the problems of poor ignition of slow burning magnum powders.

Short Bottle Neck Collet Style Factory Crimp Die

Incorporates a collet to apply a rifle type crimp to the case. Makes these very difficult to crimp cartridges a delight to reload. Bullets do not need a crimp groove, as the collet is so powerful it will form one.

BOTTLE NECK PISTOL
FACTORY CRIMP DIE 25.00

Lee Collet Style Factory Crimp Die

Popular with cast bullet shooters that wish to use oversize bullets, also very popular when reloading for heavy recoiling revolvers. No other crimping system can apply as secure a crimp as the Lee collet style Factory Crimp. No crimping groove required in jacketed or cast bullets, the die is so powerful it will form a crimp groove if one is not present.

COLLET STYLE CRIMP DIE 15.98

Taper Crimp Die

The Lee Taper Crimp Die is hardened steel, designed to overcome crimp problems caused by poor die design. These dies offer little or no advantage when used with 1986 or newer Lee Dies. Jacketed bullets must have a crimp groove. TAPER CRIMP DIE 13.98

Lee Collet Necksizing Dies

For best accuracy, longest case life and no resizing lubricant. Only the neck of the case is resized. The body is untouched—retains perfect fit to your gun's chamber. Cases should have been fired in your firearm only. Benchrest crowd first choice, there is no other die that can produce a more accurate cartridge.

IF YOU INTEND TO RELOAD CASES FIRED IN OTHER GUNS
OR YOU ARE RELOADING FOR MORE THAN ONE GUN,
SELECT THE

Lee Ultimate Rifle Die Set

The Ultimate Set includes a full length resizing die that allows you to restore any case to factory original dimensions so that you can fire form in your gun and then reload using the superior Collet neck sizing die. Ultimate Rifle Die Sets include the LEE FACTORY CRIMP DIE.

ULTIMATE RIFLE
DIE SET
see page 13

FACTORY CRIMP DIE

THE LEE FACTORY CRIMP DIE is the only effective way to crimp bottleneck rifle cartridges. Our Factory Crimp Die should be used on all loads used for hunting. Applying a factory crimp will always improve the utility of the cartridge, and in most cases, will also improve the accuracy.

The Lee Factory Crimp die crimps the bullet in place more firmly than any other tool. It is impossible to buckle the case as with regular roll crimp dies. Trim length is not critical. Tests demonstrate that even bullets which have no cannelure will shoot more accurately if crimped in place with the Lee Factory Crimp Die.

Factory ammunition is often more accurate and better able to withstand rough handling because the bullet is firmly crimped in place. A firm crimp improves accuracy because pressure must build to a higher level before the bullet begins to move. This higher start pressure insures a more uniform pressure curve and less velocity variation. Even powder selection is less critical. Until now, handloaders seated the bullet to touch the rifling to achieve similar results. This is not always possible nor desirable. The Lee Factory Crimp Die is included at no extra charge with Lee PaceSetter 3-Die Sets and Ultimate Rifle Die Sets. It's just another added value that only Lee Dies offer.

BEST

INTERNAL FINISH IN THE INDUSTRY

ALL LEE DIES ARE MACHINE HONED TO THE SMOOTHEST POSSIBLE FINISH

Don't confuse this with the surface polish that's used by most manufacturers. A polish simply makes a shiny surface. It's like trying to sand wood without backing under the sandpaper. The surface in Lee dies is progressively honed to a fine finish with no waves or ripples.

LOAD DATA & INSTRUCTIONS

INCLUDES THE EXCLUSIVE LEE FACTORY CRIMP DIE

Lee PaceSetter™ 3-Die Set

THESE DIES ARE YOUR BEST BUY! Lee PaceSetter 3-Die sets include the exclusive Lee Factory Crimp™ Die to produce factory-like ammunition with improved utility and accuracy. The die set also includes an easy adjust dead length bullet seater, shell holder, powder dipper, load data—and all are packed in the nicest storage box ever designed.

The extras represent a \$32.00 value. Most are unavailable at any price from other suppliers.

These are the most copied dies in the world. Each and every die comes with a written lifetime warranty, 2-year guarantee and *guarantee of accuracy or your money back!*

LEE PACESETTER 3-DIE SET 41.98

Lee PaceSetter™ 2-Die Set

The same features as our PaceSetter 3-die set, just very limited Production. Does not include Factory crimp die, rather, a bullet seat and crimp die

LEE PACESETTER 2-DIE SET 41.98

Lee Resizing Lubricant

ANOTHER FIRST BY LEE. We purchased the finest automotive deep draw lubricant and had it custom packaged exclusively for us. Lee lube is pleasant to handle and you can thin it with water. Non-sticky, nonallergenic. Very little is needed; it goes a long way. Eliminates stuck and dented cases and makes sizing less work.

2 oz. tube 90006 3.98

**REALLY
GREAT
BUY!**

RGB Dies

Compare to other brands costing twice as much and you'll recognize what a fantastic bargain they are. We offer these only to show that when you buy Lee Dies — without all of the extras Lee customers have come to expect—the price is significantly lower, yet the quality is the best. Our tolerance is 50% less than the advertised amount of a popular and expensive brand. We guarantee these dies to be better than any other brand. If for any reason you're not 100% satisfied—just return them to the factory with your sales slip and pay the difference of what you paid and the manufacturer's catalog list price of the dies you want. We will ship them to you with our thanks for trying ours.

These dies are a **Really Great Buy**. They cost less, because like other die makers, we left out \$32.00 worth of extras which are included in our PaceSetter™ dies. Do yourself a favor and check our PaceSetter dies.

RGB Series Dies only 26.98

GUARANTEED TO LOAD THE MOST ACCURATE AMMUNITION OR YOUR MONEY BACK

- NO LUBRICATION REQUIRED
- GUARANTEED ACCURACY
- EXTENDS CASE LIFE 10X
- FASTEST TO USE
- NO CLEANING OR LUBING REQUIRED

Lee Collet Dies

There is no loading system that will load more accurate ammunition than Lee Collet Dies. We guarantee it in writing with every set. No one but Lee has ever dared make a guarantee like this — ***Smallest group size or your money back.*** A collet squeezes the case neck against a precision mandrel for a perfect bullet fit with minimum run-out. No case lube is needed. Cases

last ten times longer, so the savings on only 35 cases will pay for the dies.

Maximum accuracy is usually achieved by seating the bullet out far enough to touch or almost touch the rifling. This provides the shot start pressure normally supplied by the crimp. That's why a dead length bullet seater is included to complete the most accurate

reloading system ever made. These dies size only the neck to preserve the perfect fit of fire forming. Only reload cases that have been fired in your gun. Not recommended for autoloaders, slide or lever action guns. See list of sizes on pages 14-15.

Lee Collet Die for neck sizing **40.98**

DIE SETS INCLUDE: COLLET NECK SIZING DIE, DEAD LENGTH BULLET SEATING DIE, SHELL HOLDER, POWDER DIPPER, CHARGE TABLE AND STORAGE BOX. MOST CALIBERS NOT LISTED CAN BE CUSTOM MADE FOR \$70.00 PLUS SHIPPING AND HANDLING. SEND PAYMENT, TWO (2) FIRED CASES AND A BULLET.

Lee Ultimate Rifle Die Set

Choose this die set for maximum versatility. The set features a full length-resizing die to return brass to factory new dimensions, perfect for reloading brass fired in other guns. The Collet Necksizing die is used on your fire formed brass giving you best possible accuracy. No case lube required and cases last almost forever. The Easy Adjust Dead Length Bullet seating die foolproofs the bullet seating adjustment, and assures perfect seating depth every time. The Factory Crimp Die provides a secure crimp on bullets with or without a crimp groove. In most cases, it helps accuracy by providing a uniform higher start pressure and gives the finished cartridge factory-like accuracy and dependability.

The set is complete with shell holder, powder measure and famous Lee load data featuring all common brands of powder organized in an easy to read logical format.

In addition to best accuracy, you get these benefits

- NO CASE LUBRICATION REQUIRED WITH COLLET DIE
- REDUCED OR ELIMINATES CASE TRIMMING
- TEN TIMES INCREASED CASE LIFE
- UNMATCHED SPEED AND CONVENIENCE
- MINIMUM BULLET RUNOUT
- MOST UNIFORM NECK TENSION

LEE ULTIMATE RIFLE DIE SET 65.00

INCLUDES COMPLETE COLLET DIE SET PLUS FACTORY CRIMP DIE, FULL LENGTH RESIZING DIE & RESIZING LUBRICANT SAMPLE.

LEE COLLET DIES ACCURACY CONTRIBUTES TO WORLD RECORD

While competing in a regularly sanctioned 1000 Yard Match on July 25th, 1993, Robert Frey established a new 1000 yard world record. We're honored he used the Lee Collet Die to load his record setting ammunition.

World record breaker Robert Frey commented: "The Lee Collet Neck Sizing Die enables me to get top accuracy from my rifles (match and hunting). The design principle of sizing the case neck to a mandrel is unmatched for accuracy potential by any other dies. It is one of the best ways to make all of my rifles shoot their tightest groups."

FREE SHELLHOLDER INCLUDED WHERE SHOWN

The price of Lee Dies include a FREE shell holder of the proper size. Some manufacturers charge \$14.50 extra for this necessary part.

LEE RIFLE DIES FEATURE

THE LEE EasyX EXPANDER

COLLET TYPE DECAPPER CLAMP HOLDS EASY X EXPANDER PERFECTLY CENTERED IN THE DIE. ALLOWS DECAPPER TO SLIDE HARMLESSLY UP PREVENTING DECAPPER BREAKAGE IF AN OBSTRUCTION IS ENCOUNTERED

STURDY SHANK SO STRONG YOU CAN DRIVE OUT A STUCK CASE WITHOUT DAMAGE

LONG GUIDED NECK EXPANSION AREA LOCATED TO BEGIN EXPANDING AS SOON AS THE NECK LEAVES THE DIE NEAR THE PRESSES' MAXIMUM MECHANICAL ADVANTAGE

TAPERED AREA EXPANDS SUB CALIBERS WHEN CASE FORMING. QUICKLY AND EFFORTLESSLY REFORMS DENTED OR SQUASHED NECKS

SUPER STRONG INTEGRAL DECAPPER IS ALMOST UNBREAKABLE

SPLINE DRIVE LOCK RINGS NOW STANDARD ON LEE DIES

Finger tighten—set and forget

Handy wrench available for easy removal and installation.

The first choice of lock ring for removeable turrets, tool heads or quick change bushings.

COLOR CODED FOR QUICK,
POSITIVE DIE SELECTION

RELOADING PRESSES LAST A LIFETIME, so buying on what your budget allows makes the most sense. You'll never regret buying a value priced press — you'll always have a need for a simple press for miscellaneous jobs.

All Lee Presses feature compound toggle linkages. This permits full length sizing the largest magnum

SINGLE STATION PRESS OPTIONS

Recommended for new reloaders or those who prefer to batch load

Single Station Presses will load nearly any cartridge. Cartridges are loaded in a batch process—for example, 20 cases are de-primed and sized, charged, then bullets seated. This die changing process is sped up by the Lee Breech Lock Quick-Change System. Rifle case reloading is best accomplished on a single station press. For a beginner, a single station press in a kit is the best value.

PROGRESSIVE PRESS OPTIONS

NEW

RECOMMENDED
FOR ADVANCED
HIGH VOLUME
USERS

TURRET PRESS

TURRET PRESSES offer single station simplicity with near progressive speed. No need to unscrew dies; the turret advances to the next station automatically. Four pulls of the lever and you have a completed round. Perfect for moderate production of handgun ammunition. Deactivate the Auto-Index feature and you can batch reload the longest rifle cartridges. Twist and exchange the turret, snap in a new shell holder, and you're ready to load your next cartridge.

Compatible cartridges	Rounds per hour
All cartridges up to 460 Weatherby Mag	250
Classic Turret Press # 90064 pg 21 MSRP \$ 165.00	
Value Turret Press # 90932 pg. 22 MSRP \$ 125.00	

PRO 4000

NEW! PRO 4000 Designed with the perfect balance of speed and simplicity. This press is so easy to set up and operate: if you have reloaded before, you likely won't even need to look at the instructions. Cartridge changeover can be completed in seconds. Breech Lock quick change feature in all four positions.

You're also going to enjoy using this press for simple case processing like depriming and sizing a batch of cases for tumble cleaning or case trimming. With the auto index deactivated, you can use it as the handiest single station press ever made.

Compatible cartridges	Rounds per hour
32 S&W Long to 30/06	500+
Pro 4000 Kit Full description pg 25 MSRP \$ 310.00	
Auto Breech Lock Pro Press only # 90900 pg 25 MSRP \$ 165.00	360

PRO 1000

DESIGNED FOR VERY HIGH PRODUCTION of handgun cartridges. Add a bullet and pull the lever; other operations are automatic. Select these presses only if you are shooting more than 500 rounds per week.

If loading limited quantities of many different cartridges, a Turret Press or Pro 4000 is your best choice. Changeover from cartridge to cartridge can become involved on the progressive presses.

Compatible cartridges	Rounds per hour

Order #90251

Lee Breech Lock Reloader Press

INCLUDES THE BREECH LOCK SYSTEM

An outstanding value. Exclusive balanced lever that can't drop down to pinch your fingers. Unlimited hand clearance that only a "C" frame can offer. Works equally well with the right or left hand. Even if you already own a press, an extra press is always useful for decapping, bullet seating or bullet sizing.

90045 57.98

Change dies instantly with a twist of the wrist

Color coded for quick, positive die selection

Breech Lock Challenger Press

The "O" frame press by design is the strongest and the most popular style press by far. Large opening and long stroke handles the largest belted magnums with ease. The primer catcher is positive and routes the spent primers directly to the trash can. Priming is a dream with the Lee Lever Prime System. Best of all, it includes the Breech Lock Quick Change Die System. Change dies instantly with a twist of the wrist; you'll never have to re-adjust your die.

Other features include all steel linkage with adjustable length lever. This same press will cost you more than twice as much from other manufacturers, and that's without all of the Challenger's features.

90588 99.00

LARGE & SMALL SAFETY PRIME
90997 30.00

DESCRIPTION PAGE 22

BIG GUN INSPIRED BREECH LOCK QUICK CHANGE NOW STANDARD ON ALL LEE SINGLE STATION PRESSES

Switch dies with a $\frac{1}{4}$ of a turn rather than fourteen or more turns. Loading with a breech lock equipped press is as convenient as a Turret Press when loading small quantities of ammunition.

Interrupted three-start thread assures dies will return and lock into the exact same position. If cost is more important than convenience, you can leave the Breech Lock bushing locked in the press and screw dies in and out like a conventional press.

Lee Breech Lock Hand Press

Features the Lee Breech Lock System.

A full size hand held reloading press, yet the tool weighs only 1 $\frac{3}{4}$ pounds and costs so little you will want more than one. No matter how much equipment you have, it's great to have a portable hand press. No time is wasted mounting a tool to a work bench. When you're finished—just pack it away.

90685 55.00

Breech Lock Hand Press Kit

THE PERFECT PORTABLE RELOADING PRESS KIT

Begin reloading at once. No wasted time mounting to a work bench. Pack it all in the box when finished. Great for apartment dwellers or loading at the range. Dies sold separately.

KIT INCLUDES

BREECH LOCK HAND PRESS
RAM PRIME
POWDER FUNNEL
CASE SIZING LUBE

90180 78.00

New, improved Breech Lock Ram Prime

Start priming in seconds, nothing to adjust.

Includes small and large priming assemblies, no tiny parts to fumble with or lose.

Effortless priming in the tightest pockets.

Uses any brand press shell holder.

Safe with all brands of primers.

Works in any Lee Breech Lock press or adapter.

91612 19.98

Lee Ram Prime

Primes on the press up-stroke for a more sensitive feel. Includes easy to change punches for both large and small primers. Fits all brands of presses. Use on old school presses, where you need to thread in dies.

90106 14.98

THIS KIT AND A SET OF LEE DIES IS EVERYTHING YOU NEED TO START RELOADING, AND IT'S ALL THE BEST PRODUCTS, SO YOU'LL NEVER OUTGROW THE KIT.

Perfect kit for someone starting out, but wants more than the basics. We have taken the world's most popular Breech Lock Challenger press and combined it with the best accessories at a price less than what others charge for a "basic kit."

Highlights are the Deluxe Perfect Powder Measure, Auto Bench Prime with shell holder set, Deluxe Quick Trim and a copy of the latest version of *Modern Reloading* featuring over 38,000 loads for over 170 cartridges. Plus, the other case prep tools found in other kits.

Purchased separately, valued over \$354.00

90080 270.00

Shown on optional Bench Plate. Order #90251

BREECH LOCK CHALLENGER KIT

Shown on optional Bench Plate. Order #90251

50TH ANNIVERSARY KIT

Shown on optional Bench Plate. Order #90251

Features the same components as the 50th Anniversary Kit, but we have replaced the Safety Prime with the New Auto-Prime and a set of Auto-Prime shell holders. This kit is for those who prefer to prime off the press. If purchased separately—a \$250.80 value.

90030 199.00

A COMPLETE POWDER HANDLING SYSTEM, with the most convenient and repeatable Perfect Powder Measure, plus the Lee Safety Scale, the most sensitive, safest of all powder scales. Fill your cases with the Powder Funnel. \$169.94 value Case Preparation tools include the Lee Value Trim case trimmer to trim on your reloading press (order cartridge specific trim die separately on pg. 28), and a Cutter & Lock Stud to trim your cases. (Order cartridge specific case length gauge separately on pg. 29). The Lee Chamfer Tool chamfers the inside and outside of the case mouth, and a tube of premium Sizing Lube is also included. A small and large Primer Pocket Cleaning Tool completes the case preparation package. \$31.90 value.

But that's not all! You get the large and small Safety Prime. Prime with push button convenience and is safe with all brands of primers. Never touch the primer from box to the case. \$30.00 value.

Purchased separately \$231.84 value **90050 190.00**

BAKED POWDER FINISH AND ALL STEEL LINKAGE MAKE THE LEE CLASSIC CAST PRESS THE MOST ATTRACTIVE AND DURABLE PRESS MADE

RIGID CAST IRON FRAME, CAST AND MACHINED WITH PRIDE IN THE USA

LEE CLASSIC CAST PRESS
90998 190.00

- ▶ The industry's largest opening, and longest stroke—handle adjusts to provide least travel of any press.
- ▶ Largest ram, 1½" diameter, supported by over 12 square inches of ram bearing surface.
- ▶ Spent primer disposal direct to trash can with attached tube.
- ▶ Powerful compound linkage with positive travel stop prevents press toggle or "cam over."
- ▶ Rigid cast iron construction in a classic "O" design for maximum strength. Baked powder coating is durable and makes a handsome addition to any reloading bench.
- ▶ Large, flat cored base with 3 mounting holes, mounts solid to any bench.
- ▶ Automatic primer arms with bottom of stroke priming for best feel. Includes both large and small priming arms. No more fumbling with tiny guides and springs when changing primer size.

▶ LARGE & SMALL SAFETY PRIME
90997 30.00

▶ CHANGES EASILY FOR LEFT-HANDED USE.

▶ SPENT PRIMERS COLLECTED AND DROPPED INTO FLEXIBLE PLASTIC TUBE FOR EASY EMPTYING.

Shown on optional Reloading Stand. Order #90688

- ▶ Designed to work with both standard 7/8-14 and large series 1¼-12 dies. Included Breech Lock adapter to accept standard 7/8-14 dies. Change dies instantly with a quick twist of the wrist.
- ▶ Two-piece ram allows installation of the mammoth 50 BMG shell holder or the shell holder insert for standard press shell holders. Shell holder insert can be rotated to allow primer installation on the right or left side.

Breech Lock Bushings

Breech lock bushings fit all Lee Breech Lock presses. Allows instant, accurate die changes.

AT LAST, AN AFFORDABLE WAY TO RELOAD THE MONSTER 50BMG

Kit includes everything you need to start reloading the 50

LEE CLASSIC CAST PRESS • SET OF 50 BMG DIES
SHELL HOLDER • RAM PRIME TOOL • AND TUBE OF CASE SIZING LUBE

BREECH LOCK ADAPTER KIT also includes shell holder insert, large & small primer arms and breech lock adapter bushing to accept standard 7/8-14 dies so you can load all your smaller cartridges. All this for less than what others charge for dies alone.

50 CALIBER BMG PRESS KIT
90859 370.00

The sturdy iron base shows its Classic Cast roots. The long stroke allows rifle cases over three inches long to be loaded using the automatic index. Deactivate the Auto-Index and cases over 4 inches can be loaded. The rigid cast iron frame supports the ram with over 12 square inches of area. The industry's largest ram is drilled completely through to dispose primers in an attached clear PVC tube. Every primer is caught — guaranteed.

Instant change turrets are the same as the famous Lee Turret Press. The Classic Turret uses the Lee Lever Prime System · LPS and the optional Lee Safety Prime tool makes priming on the press a delight. If you like to own the best, then treat yourself to the Lee Classic Turret. The finest reloading system made.

LEE CLASSIC TURRET PRESS	90064	165.00
--------------------------	-------	--------

Shown on optional Reloading Stand, Order #90688

Makes priming on the press a delight. Never touch the primers from box to shell. Primer flip tray features a CAD designed flipping surface that instantly rights the primers. Change primer size in seconds. Primers are dispensed with a satisfying click of the primer feed trigger.

A MACHINE
THAT
DOES IT ALL

This press has all the features of the award-winning Turret Press with the quality touches that make this the finest, most convenient press to own. The Classic Turret features the solid steel linkage of the Lee Classic Cast. Your first stroke of the hardwood gripped lever will convince you this is one solid, silky smooth press!

CLASSIC TURRET PRESS KIT

THIS KIT AND A SET OF LEE DIES IS EVERYTHING YOU NEED TO BEGIN RELOADING PISTOL AMMO. The Classic Turret Press is fast and convenient when loading handgun cartridges, with rates in excess of 250 rounds per hour possible.

The kit includes the Auto-DRUM powder measure and powder measure riser, perfect for all handgun and rifle cartridges. Large and Small Safety Prime are included making on press priming a delight! Instant Change Turret makes changing calibers a snap. Deactivate the auto-index and batch load the longest and largest rifle cartridges.

Complementing your press kit are the case conditioning tools to prepare your brass for loading. Includes Cutter, Lock Stud, Chamfer Tool, small and large Primer Pocket Cleaner, and a tube of Lee case sizing lube. Complete it with the cartridge specific Case Length Gauge. Verify your loads with the included Lee Safety powder scale.

Completing the kit is *Modern Reloading Second Edition*, 2019 revision with all new load data covering over 170 cartridges with more than 38,000 loads.

VALUE TURRET PRESS

EQUIPPED WITH THE **LEE LEVER PRIME SYSTEM™**

Proven design with compound leverage. No spring in this turret design. The turret is locked into a solid steel ring with big rifle bolt type lugs. Exclusive design puts the lugs on the circumference so there can be no tipping. The linkage is so powerful that the largest magnum cases are sized with ease. Effort required is so small that the usual heavy bench is not essential. The Lee Turret Press has built-in primer disposal tube and a comfortable roller handle. Even if you do not need all of these features, why pay more for anything less?

Power and strength to spare, plus unequalled convenience. The Lee Turret Press is suitable for loading all rifle and pistol cases, but really shines when loading large quantities of handgun ammunition. This is the most convenient press made. Only a true progressive press is faster. Includes the Lee Lever Prime System with large and small primer arms. Features lift out convenience. Works with the Lee Safety Prime.

Lee Value Turret Press Kit

The Value Turret Press, along with the Auto-Drum Powder Measure, produces top quality pistol ammo in a hurry.

A finished round with a few pulls of the lever. Disconnect the Auto-Index and it's large enough to handle monster belted magnum rifle cases. When it's time to change calibers, simply lock in a new turret and begin reloading in seconds. In addition to the Turret Press and Auto Drum Powder Measure, the kit includes the Lee Safety Scale, unmatched for sensitivity, a primer pocket cleaner, cutter and lock stud to trim the cases and a chamfer tool to deburr cases after trimming. Complete the case conditioning tools with the cartridge specific Case Length Gauge (see page 28).

A set of Lee Dies is all that is required to complete this reloading outfit. And all of this at a price that will allow you to pay for your investment in a matter of hours.

RATES ARE VIRTUALLY IDENTICAL ON OUR PROGRESSIVE PRESSES. ALL OF OUR PRESSES FEATURE AUTOMATIC CASE ADVANCE AND UNIVERSAL CASE FEEDER. ALL ARE SETUP TO LOAD ONE CARTRIDGE. YOU CAN SELECT THE RIGHT PRESS BY THE FEATURES YOU NEED.

KIT SECOND-GENERATION progressive press priced less than many premium single station presses, the lowest priced 4 station progressive available. It is also the easiest to use progressive press ever made. Everything included to begin reloading nothing else to buy.

All the features of the Pro 1000 with an **added fourth station** to allow factory crimping and post sizing. Second generation design features a fixed tool head with quick-change bushings. The Safety Prime is safe with all brands of primers and makes on press priming fast and dependable. The ideal press for loading well used or mixed range brass. So easy to change you're going to enjoy using this press for simple case preparation, like depriming before tumble cleaning. Deactivate the auto index and it is the handiest single station press ever made.

AUTOMATICALLY ADVANCES cases up to 2 5/16." Longer cartridges can be loaded by manually advancing.

AUTOMATIC Universal Case Feeder

MODULAR CONSTRUCTION allows as much or as little automation as the operator desires with no adjustments.

CARRIDGE CHANGEOVER in seconds, including primer size with no adjustments. Color coded spline drive quick change breech lock bushings.

INCLUDES Large and Small Safety Prime and priming arms. Allows safe dispensing of any brand and size primer

INCLUDES HEX WRENCH FOR SHELL PLATE CHANGE AND STORAGE RACK FOR TOOLS. OTHERS CHARGE NEARLY \$30 FOR THIS FEATURE.

INCLUDES ERGONOMIC WOOD GRIP ROLLER HANDLE. OTHERS CHARGE NEARLY \$50.00 FOR THIS FEATURE.

INCLUDES BIN & BRACKET TO CATCH LOADED ROUNDS.

Lee's got an APP
for that!

THE APP

AUTOMATIC PROCESSING PRESS

**DEPRIME | PRIMER POCKET SWAGE
BULGE BUST OR SIZE CAST BULLETS
AS FAST AS YOU CAN OPERATE THE LEVER**

**INTRODUCING THE LEE AUTOMATIC PROCESSING PRESS—
THE APP—THE FASTEST AND EASIEST WAY TO PREPARE
CASES AND SIZE CAST BULLETS. IT ALSO FUNCTIONS AS
A VERY CONVENIENT SINGLE STATION RELOADING PRESS**

PATENTED IN LATE 2018, it is the first press of its kind with the ability to mount the die to the top or bottom of the press. This die mounting flexibility allows previously unheard of automation on a single station press. Now you can deprime, primer pocket swage, bulge bust or size cast bullets as fast as you can operate the lever.

HEAVY FOR ITS COMPACT SIZE, the press is manufactured from a variety of materials best suited for the application. The lever or handles are made of steel, topped with a molded grip we call the **POWER GRIP**. The grip is completely symmetrical, making either hand operation a delight. The upper and lower die carriers are aluminum and the low stress items are nylon or acetal copolymer. The upper carrier rides on two centerless ground and roller burnished columns. The upper die carrier is counter balanced by a centrally mounted coil spring. The counter balance prevents the handle from falling and pinching a finger.

THE APP IS A "FRAMELESS" DESIGN with nearly all the forces going directly to the dies through the steel linkages, rather than through the frame. As a single stage reloading press, it has almost unlimited visibility and hand clearance. Mounting is easy on any bench or table, with no underswing.

THE TOP CARRIER & BASE ARE MACHINED to accept LEE BREECH LOCK BUSHINGS, SPLINE DRIVE BREECH LOCK BUSHINGS, so they will accept standard 7/8—14 dies of any manufacture. The APP also uses standard press shell holders from most manufacturers. Includes one Spline drive breech lock bushing and universal type shell holder quick-change adapter.

A little over three inches of stroke allows sizing of the larger, belted magnum cartridges. Priced less than nearly all single station presses makes it a perfect starter press or a perfect companion press to an expensive progressive.

APP Press INCLUDES PRESS, FEED TUBES, TUBE SUPPORTS, RISERS, CASE SLIDER, 22 CAL. BULLET FEED JAWS, BOTTLE ADAPTER. AS AN INTRODUCTORY OFFER, THE THREE MOST POPULAR X-PRESS SHELLHOLDERS 2 · 4 · 19 ARE INCLUDED, WORK WITH OVER 60 CARTRIDGES.

90933

110.00

APP Automation Features

With the feed tubes, tube supports, risers and case slider installed, the APP becomes the world's fastest single stage press. Depprime cases, size cast bullets, swage primer pockets, etc. as fast as you can cycle the lever!

Jaws automatically open and grasp the bullet or case— then rapidly position the case or bullet into the operating position.

Once in position, the jaws instantly open and return for the next case or bullet. It is fascinating just cycling the press empty, watching the jaws open and close as it cycles back and forth.

NEW

APP shown
on optional Reloading Stand #90688
with Bin & Bracket accessory #90687

Dirty, gritty, lead contaminated
spent primers are 100% captured
in a screw top bottle

X-PRESS SHELLHOLDER

The APP gets its speedy operation in part, by the use of a new shell holder. We call it — **X-PRESS SHELL HOLDER** — it allows the case to pass through the shell holder after the operations are performed.

LISTINGS ON NEXT PAGE

BULGE BUSTER KIT

FOR THE NEW LEE APP

Lee APP Bulge Buster Kit with appropriate Lee Factory Crimp Die restores free function of rimless cases that have low base bulges. Low base bulges usually occur from chambers that do not fully support the cartridge or cases resized in carbide dies from manufacturers other than Lee.

APP BULGE BUSTER KIT 91572 19.98

BREECH LOCK BULLET SIZING KIT

FOR THE NEW LEE APP

Breech Lock Bullet Sizing Kit

THE KIT INCLUDES THE MOUNTING BODY INCORPORATING THE LEE QUICK CHANGE BREECH LOCK FEATURE. The body accepts our new low cost bullet sizing die. The new sizing die is high carbon steel and specially tapered to reduce sizing effort. The sizing die is retained in the mounting body with a dual threaded bottle adapter. Bullets are sized nose first; this is the most accurate and causes the least distortion. Best of all no special top punches are required. Will seat and crimp gas checks while sizing.

Great for powder coated or liquid lubricated bullets. All bullets must be lubricated, order LEE LIQUID ALOX or your favorite coating.

PRIMER POCKET SWAGE KIT

DESIGNED EXCLUSIVELY FOR THE LEE APP PRESS

Now you can swage primer pockets as fast as you can operate the press lever

Primer Pocket Swaging is necessary when reloading brass that have crimped primer pockets, most cases used in military or non civilian applications have this crimp. Typical cases that you will encounter primer pocket crimps are 45 ACP, 223 (5.56mm), 30-06, 308 (7.62x51), 9mm Luger and special law enforcement 40 S&W.

The hardened steel swage punch is automatically extracted from the primer pocket by five 400 pound force disc springs. Breech lock die body installs no adjustment required.

Primer pocket swaging is so fast you'll want to swage all range brass. Nothing reduces priming problems on a progressive press more than properly swaged primer pockets. Surplus military and police department brass is a great low cost source of cases.

Complete swaging set includes automatic swage die, small and large swage punches, and small and large push rods.

A universal shell holder adapter allows you to use your press shell holder or X-PRESS shell holder to swage any brass.

APP PRIMER POCKET SWAGE KIT 91582 50.00

4 TUBE CASE FEEDER

90242 35.00
Automates case feeding process. Most handgun and short rifle, like the 223.

DECAPPING DIE

An absolute must for those who clean cases before reloading. No cleaning or lubing needed when using this die. Tough, almost unbreakable decapper easily removes crimped in primers. Fits cases up to .560" in diameter; up to 3.125" long.

90292 14.98

REPLACEMENT DECAPPER
UNGUIDED 90783 2.50
GUIDED 3.50

For smooth operation and less decapper bending or breaking, order caliber specific guided decapper.

QUICKTRIM

Trim brass to the correct length while chamfering the case mouth

Lee Deluxe Quick Trim Case Trimmer

The Deluxe Quick Trim Case Trimmer quickly and precisely trims your brass to the correct length at the same time it chamfers the inside and outside of the case mouth. No calipers, measurement or adjustment required. Simply install the appropriate quick trim die in your press and start trimming. A click adjustable stop allows trim length adjustment in .001 of an inch increments. Allows the user to shorten case to a uniform shorter length than standard, reducing trimming frequency. Includes snap on chip catcher.

90437

► UNLISTED RIFLE QUICK TRIM DIES

can be custom made for \$27.00 plus s&h.

leeprecision.com/custom-rifle-quick-trim-die-body.html

The ultimate in case trimming, speed and convenience

Deluxe Power Quick Trim

Trim and chamfer in a matter of seconds. Hex shank snaps in to cordless screwdriver or drill (sold separately) Includes power Quick-Trim adapter, chip catcher and deluxe cutter assembly. To complete your trimming setup, order cartridge specific pistol or rifle Quick Trim die from list above.

90670 26.00

Power Quick Trim Stud

Motorize your Quick Trim

The Power Quick Trim adapter stud enable you to motorize your Value or Deluxe Quick Trim. Hex shank snaps in to any inexpensive cordless screwdriver (sold separately). This tool also requires a cartridge specific pistol or rifle Quick Trim die.

90740 14.00

Cordless screwdriver pictured is not included.

FOR SAFETY SAKE, TRIM YOUR CASES

The simplest way to check the case and trim to the correct safe length is with a Lee Case Trimmer.

Lee Case Trimmer

After a case has been loaded a few times, it will stretch beyond maximum length and must be trimmed. There is no better system to check and trim cases than with the Lee Case Length Gauge and cutter. You don't need an expensive caliper to set length and never waste even a single case setting up with the cut and try system common to all other brands. The piloted cutter assures the case mouths are absolutely square and true to the case neck. Best of all, the fixed length design assures it will never go out of adjustment.

The Cutter and Lock Stud works for all calibers. You will need only one. The Case Length Gauge (Pilot) and Shell Holder must be ordered as Case Length Gauge and Shell Holder for each caliber — see size listing at right. You can trim cases by hand, use an electric drill or the Lee Zip Trim.

CUTTER and LOCK STUD 90110 6.98
LARGE CUTTER & LOCK STUD 90401 9.98

For .475 and larger cases. Can be used on any case.

THREADED LARGE CUTTER AND LOCK STUD 90468 9.98
 Large cutter with 8-32 thread shank for use on popular powered case preparation centers.

CUTTER only with BALL GRIP 90275 9.98

Chamfer Tool Must be used after Case Trimming. Unique design cuts fast without chatter. One turn does the job. Chamfers and deburrs inside and outside of case necks. Can also be used to remove the crimp from primer pockets of G.I. brass. Works better than tools costing several times as much. 90109 3.98

Primer Pocket Cleaner Double ended design cleans both large and small primer pockets. Primers can be fully seated for better accuracy and safety. Costs so little and works so well, no reloader can afford to be without one. 90101 2.98

Case Conditioning Kit Includes cutter and lock stud, chamfer tool and primer pocket cleaner. 90950 12.98

Decapper & Base Easily removes crimped in primers from military cases. Guaranteed unbreakable.

22 Caliber 90103 **30 Caliber** 90102 7.98

Decapping Die

An absolute must for those who clean cases before reloading. No cleaning or lubing needed when using this die. Tough, almost unbreakable decapper easily removes crimped in primers. Fits cases up to .560" in diameter; up to 3.125" long.

90292 14.98

REPLACEMENT DECAPPER
 UNGUIDED 90783 2.50
 GUIDED 3.50

For smooth operation and less decapper bending or breaking, order caliber specific guided decapper.

91574 17 CAL-204 RUGER
 91576 22 CAL
 91577 6mm-25 CAL
 91578 27 CAL-7mm

91580 30 CAL
 91581 34-35 CAL
 91583 40 CAL
 91584 45 CAL

Zip Trim Power Head

Rotates case like a lathe. Quickly trim, chamfer and polish your case. Hardened steel spindle accepts knurled shell holder or 3 jaw chuck. Features two permanent mounting lugs and socket to accept "C" clamp for portable setup. 90899 26.98

3 Jaw Chuck

Works on 25 ACP up to the largest belted magnums. Three hardened steel jaws gently center case while the spindle locks the case head. Install and remove cases with a fraction of a turn. 90608 19.98

Case Spinner Stud

Optional case spinner spindle with drill shank for use with the 3 Jaw Chuck, turns any electric drill into a high speed case polisher/lathe. Also works great to hold cases for neck turning or trimming. 90607 5.98

POLISHING CASES WITH STEEL WOOL IS SO MUCH FASTER THAN CASE TUMBLING. NO TIME SPENT SEPARATING THE CLEANING MEDIA FROM CASES, SO NO WORRY OF THE MEDIA STICKING INSIDE CASES AND NO DIGGING MEDIA OUT OF FLASH HOLE

* Ackley Improved Cases use standard parent cartridge Case Length Gauge

Lee Bulge Buster Kit

Assure your mixed brass is bulge free with the Bulge Buster Kit and appropriate Lee Carbide Factory Crimp Die. This push through die adapter will quickly remove the annoying bulge rings that shell holder constrained dies simply can't reach. The Bulge Buster Kit includes extension sleeve, push through punch, catch container and complete instructions. And it's fast — you can reprocess your cases as quickly as you can handle them.

AUTO BENCH PRIME

THE EASIEST, MOST CONVENIENT BENCH MOUNTED PRIMING tool ever. Symmetrical design allows effortless right or left hand operation. Comfortable lever with just the right amount of mechanical advantage effortlessly seats even the most difficult primers with just finger pressure. Perfect mechanical advantage to feel the primer seating completely home into the primer pocket.

Includes priming assemblies for large and small primers. Change primer size or shell holder in seconds.

Includes the patented folding tray—go from box to priming in seconds. No need for a heavy bench; fits the Lee Bench Plate or mount to a board for a portable setup.

Tray's built-in flipping surface quickly rights and orients primers—go from box to priming in seconds. Patented elevator pin safely isolates a single primer for priming. Allows most primer brands and types to be safely tray fed.

The convenient hinged cover allows you to individually feed primers if restricted by the primer manufacturer.

PRESS PRIMING

Lee Ergo-Prime

Premium hand held priming tool with all the features of the world's most popular Auto-Prime, with ERGOnomic design. The Ergo Prime's highly sculpted body fits your hand perfectly, along with a long smoothly contoured finger lever that easily installs the tightest primers. Fingertip operation provides unmatched sensitivity and comfort, especially for older hands. Change primer size in an instant—no tools or disassembly required, simply remove shell holder and swap primer assembly. Powder coated metal body and polished chrome plated lever makes the Ergo-Prime not only the most comfortable, but also the best looking tool made. Comes packed in a convenient storage box to keep your tool and shellholders together.

90250 49.00

New Auto-Prime

The original and world's most popular hand-held priming tool. Fast and economical hand held priming with unmatched feel and accuracy. Comes packed in a convenient storage box to keep your tool and shellholders together. 90230 28.98

New, removeable tray PATENTED

Unfold tray and place on top of box of 100 primers.

Flip tray over to deposit the primers.

Shake tray to upright all the primers. Fold and close cover.

Slide the flow control to LOCK.

Save even more! Purchase a kit!

Priming Tool Kit

Includes the New Auto-Prime, and nice molded storage box. Holds everything, including a complete set of shell holders. This kit comes with 8 of the most popular priming tool shell holders, works with over 130 different cartridges. 1, 2, 3, 4, 5, 11, 12, 19. Holds an additional 8 shell holders. This kit is a convenient way to keep your tool and shell holders all in one spot.

90215 38.98

Priming Tool Storage Box

Holds your Ergo-Prime or New Auto Prime tool. With room for 18 priming tool shell holders. 90426 5.98

SHELL HOLDER SET 90198 21.98

with 11 Shellholders for LEE PRIMING TOOLS
AND THESE OTHER FINE TOOLS—K&M, SINCLAIR,
F A PLATINUM, CPS, 21ST CENTURY

INCLUDES THE NEW POWDER MEASURE BOTTLE ADAPTER

DELUXE PERFECT POWDER MEASURE

QUALITY CONSTRUCTION

This powder measure features a high pressure die cast, diamond-machined body. The precision-machined rotor drum is cast from brass, which is naturally anti-static and spark proof.

ELIMINATES CUT POWDER AND JERKY ACTION

A soft elastomer wiper strikes off the metering chamber rather than cut the powder. You'll be surprised at how smoothly the rotor operates. More importantly, you will enjoy the most uniform of charges.

EASY TO SET & READ MICROMETER METERING CHAMBER

Powder charge adjustment is accomplished with a true micrometer adjustable metering chamber. The metering chamber is aluminum with a black anodized finish. Features a crisp, permanent, laser engraved scale. The brass micrometer thimble is engraved with .01cc graduations and has a releasable detent lock. With most rifle powders each click is about a 1/10 of a grain, perfect for working up a load.

CHANGING POWDER IS FAST AND EASY

Features easily removable hopper with an on/off valve so you can quickly return unused powder to its original container or switch to another type. The hopper feeds to a pre-measuring chamber allowing precise charges regardless of the powder level in the hopper, eliminates the need for an extra powder baffle.

QUICK CHANGE DRUMS

One of the nicest features is the ability to use the new Lee standard quick-change drums (product # 90453). These low cost drums can be preset to your favorite charge and swapped out in seconds.

DELUXE PERFECT POWDER MEASURE 90699 75.00

NO POWDER MEASURE, REGARDLESS OF PRICE, HAS ALL THE FEATURES OF THE LEE DELUXE POWDER MEASURE

PERFECT FOR USE WITH THE
DELUXE PERFECT POWDER MEASURE
& AUTO-DRUM

QUICK CHANGE DRUM SET features four precision molded nylon drums. Two small capacity for cases as small as the 25 ACP, adjustable to 223 size rifle cases. Large capacity drums adjustable from 223 case to cases as large as the belted magnums. The large drums include an insert to allow reduced capacity charging like the small drum. All drums are infinitely adjustable within range. No tools required for adjustment. A graduated adjustment key is included with each drum. Each key is marked with .01cc graduations, allowing easy 1/10-grain powder adjustments.

Quick Change Drum Set 90453 20.00

POWDER MEASURE BOTTLE ADAPTER

POWDER MEASURE BOTTLE ADAPTER FITS ALL LEE POWDER MEASURES

Allows dispensing powder directly from the shipping container of most popular powder manufactures. Includes a crystal clear bottle that holds over a half a pound of ball powder. Works on all of these and many more.

(53mm or 43mm thread)

Dispensing powder directly from the bottle assures positive identification of the powder type.

Adapter is manufactured from

Polypropylene—resistant to attack from all

types of powder. Now you can turn off the powder flow and store your powder in its original container with no fear of misidentifying or damage to your hopper from chemical attack. Viewing window allows monitoring powder level in use without removing bottle.

Bottle Adapter 91586 8.00

Powder Measure Stand

Heavy, powder coated steel construction

7/8" mounting hole for all popular measures

Includes 3 no slip feet

Rock solid mount improves measure consistency

Space saving freestanding design is portable and convenient.

Works with other brands of powder measures

Powder Measure Stand 90587 35.00

Lee Safety Scale

Safety and accuracy are the most important features

This is the only scale that can never get out of adjustment. The beam is made from a very tough phenolic, the same type material used on table and counter tops. Phenolic is tough but, like glass, it can't be bent. Even if dropped you can feel confident that if it did not break it is still accurate. Sensitive and readable to 1/20 grain.

90681 39.98

READ THIS if you already have a combination bullet and powder scale

Try this simple test to see how sensitive your scale really is. Cut a piece of regular writing paper or this catalog 5/16 inch square. With scale set on zero — drop the paper on the pan to see if it moves. It should read about .1 grain. Keep adding paper squares until it does move. The total number of squares needed to move your scale is your scale's sensitivity. We have seen digital powder scales that are only sensitive to 1/2 grain (FIVE paper squares!) A Lee Safety Scale will move with the first paper.

Lee Powder Measure Kit

Fifteen uniformly graduated and proportioned powder dippers. Slide card shows the grains of powder each measure will dispense of every type of powder. Powder measures are inherently safe as they cannot get out of adjustment. That's why powder dippers continue to be the first choice of reloaders who load in small quantities.

90100 12.98

Powder Funnel

A large, unbreakable funnel that fits all cases from .22 to .45 caliber. Hole in flange permits mounting to the Lee Turret Press, shelf or bench.

90190 3.98

INCLUDES THE NEW POWDER MEASURE BOTTLE ADAPTER

The Original

Perfect Powder Measure

Almost as good as a scale!

Solves problems common to ordinary drum type measures. Gives you the confidence that your charges will be the most uniform possible.

Lee Perfect Powder Measure

Includes many of the features of the Deluxe Perfect Powder Measure, but the body is molded from an engineering grade polymer. Rotating micrometer adjustable metering chamber and elastomer wiper to prevent powder cutting. Works better than other powder measures priced four times as much.

90058 30.98

LEE DIE SETS INCLUDE LOAD DATA

Lee Pro Auto-Disk
Powder Measure

Commercial reloaders or competitive shooters first choice! Elastomer wiper and polytetrafluoroethylene (PTFE) non-stick metal casting make this the smoothest operating measure. Large hopper with integral shut-off valve makes changing powder or disks super convenient. Brass thumbnuts attach the hopper to the body so you can change disks with no tools. Rubber wiper and seal prevents powder shearing and makes it more leak-resistant with fine-grain powders. Increased safety with positive pull-back lever.

The measure is attached to the die with a swivel adapter, allowing easy positioning and quick removal when changing cartridges. Included positive pull back lever reduces the chance of double charge when progressive reloading.

Lee Pro Auto-Disk Powder Measure
INCLUDES ALL FOUR DISKS
90429 54.00

PRO AUTO-DISK POWDER MEASURE

CARTRIDGE RANGE	9 MM TO 45 COLT
USE	IDEAL FOR HANDGUN
SIMPLE SET UP	NOTHING TO ADJUST, NOTHING TO GET OUT OF ADJUSTMENT USE LEE PUBLISHED LOAD DATA
CONSISTENCY	EXTREMELY CONSISTENT INCREMENTAL CHARGES
WIPER TO PREVENT POWDER SHEARING	YES
SWIVEL ADAPTER FOR FAST, EASY TRANSFER	YES
ON/OFF VALVE	YES

The Pro Auto-Disk comes with a complete set of four disks. Each disk has six cavities, so you get 24 cavities in all. The chart included on the rear of the instruction sheet lists the capacity of each cavity with every type of powder. If you reduce your charge 10% you can safely use this data without weighing your charge. Fixed cavities are the safest way to meter powder because they can't be misadjusted or get out of adjustment.

PRO AUTO-DISK
ACCESORIES

Adjustable Charge Bar

Infinitely adjustable between .28 and 1.6 cc. Lifetime nylon with solid brass, zero backlash micrometer. Easy to set.

Adjustable Charge Bar
90792 9.98

Double Disk Kit (not pictured)

This kit raises the hopper so you can stack two disks. Not only doubles the capacity of the disks but it makes very fine adjustments possible. Most powders can be adjusted up or down .1 grain with different combinations of disks. Complete listing of combinations, 4 extra disks, screws and risers are included.

Lee Double Disk Kit
90195 14.98

Lee Rifle
Charging Die Kit

Short and Long Charging Dies are included. These dies work the same as the pistol powder through expanding dies, except they do not expand the case mouth. Rifle case expansion is done in the sizing die. Can be used on 22 caliber, and up to the largest belted magnums.

Charging Die kit
90995 26.00

SHORT CHARGING DIE
22 HORNET TO 223 REM
90668 14.98

LONG CHARGING DIE
223 REM TO 300 WIN MAG
90194 14.98

AUTO DRUM

Automatic case actuated drum powder measure. Accurately and automatically dispense powder in your favorite cartridge. Two infinitely adjustable drums included. Quick Change drums will accurately and reliably drop charges from 1 to 80 grains of powder.

INCLUDES THE NEW POWDER MEASURE BOTTLE ADAPTER

Case actuated; never spill a charge.

Exclusive elastomer wiper prevents powder shearing, works great with difficult metering extruded powders.

Machined body with labyrinth groove mates to precision molded nylon drums providing leak free fit with the finest powders.

Drum is actuated by a steel sector and pinion gear train.

Quick-change hopper has on/off valve Sleek modern design, all gears springs and levers inside the die cast housing.

Same swivel adapter as our famous Pro Auto-Disk powder measure. Makes moving measure fast and convenient.

HANDGUN AND RIFLE DRUMS INCLUDED.

AUTO-DRUM POWDER MEASURE
90811 54.00

AUTO-DRUM POWDER MEASURE

SWIVEL ADAPTER FOR FAST, EASY TRANSFER	YES
ON/OFF VALVE	YES

Powder Measure
Riser

Installs between the Lee Powder through Expanding Die or Rifle Charging Die and Powder Measure. Allows convenient use of other brands of dies that have extended adjusting screws and provides clearance for the Lee Safety Prime.

Powder Measure Riser
90041 9.98

NOTE Pro Auto-Disk and Auto-Drum Powder Measures must be used with the powder through expanding die supplied with all Lee pistol dies, or Lee Rifle Charging Dies (see left). These dies may be purchased individually. Sizes listed on page 8.

Only Lee Dies permit charging the case while expanding the case mouth.

POWDER THROUGH EXPANDING DIE
pg. 8

Lee Pro 4-20

Large diameter high capacity pot, holds approximately 20 pounds of lead. Nearly 4 inches of clearance under the spout accepts all brands of bullet molds and most sinker molds. It also includes an adjustable mold guide to quickly and accurately position any mold for pouring.

This second generation design incorporates the famous Lee patented high-efficiency design and dependable remote sensing thermostat, in a dust tight housing. Long life 700-watt tubular heating element assures quick melting and rapid recovery. Micro adjustable, flow control valve adjusts instantly with a twist of the screwdriver. Front mounted low maintenance replaceable valve spout allows instant reseating with a turn of a screwdriver.

Lee Pro 4-20	90947	110 Volt	108.00
Lee Pro 4-20	90948	220 Volt	109.00

Lee Precision Melter

High speed melter with an infinite heat control for the serious shooter. Easily handles 4-cavity molds. Takes less than 15 minutes to melt 4 pounds of metal. Same infinite heat control as used on the Production Pot. 500 watts AC only. Guaranteed 2 years.

PRECISION MELTER, 110V	90021	57.98
EXPORT MODEL, 220V	90024	59.98

LEE MOLD MALLET

Features ash hardwood construction. Cut the sprue and release the bullets with one handy tool. Ergonomic design makes it convenient and comfortable to use with long casting sessions. Mallet is 10 inches long.

90084 10.00

UNIQUE INFINITE HEAT CONTROL

A highly reliable control, mounted away from the high heat of the pot. Eliminates failures usually associated with thermostatically controlled units. Thermal feed back to the infinite control permits heater to put out full power until metal has melted.

Magnum Melter

Large 4" diameter pot allows easy access for the ladle caster. Same high efficiency design that has made Lee pots the most popular. Melt time is less than 20 minutes with just 700 watts. 20-lb. capacity for the longest casting session.

Magnum Melter	110 Volt	90949	82.00
---------------	----------	-------	-------

LEE MAKES BULLET CASTING EASIER

Lee Production Pot IV

Large, deep pot holds approximately 10 pounds of lead. Melt time is less than 20 minutes. Pour spout up front where it belongs so you can see what you're doing. Infinite heat control. Uses only 500 watts of power during heat-up and a lot less to maintain temperature. Large, stable base for safety. 4" of clearance under the spout is high enough to accept all brands of bullet molds and most sinker molds.

PRODUCTION POT IV	110 VOLT	90009	89.98
EXPORT MODEL	220 VOLT	90008	94.98

LEE INGOT MOLD

Use to cast 1/2 and one pound ingots. Perfect for remelting and alloying. Wood handles stay cool. Aluminum mold is lightweight and rustproof.

90029 16.98

LEE LEAD LADLE

A convenient size ladle for bullet casting. Works equally well for right and left handers. Handy for skimming and stirring metal.

90026 6.98

WARNING Melting lead and casting lead objects will expose you and others in the area to lead, which is known to the State of California to cause reproductive harm and cancer. For more information, www.P65Warnings.ca.gov. See instructions on REDUCING EXPOSURE supplied with product.

Bullets must be lubricated for sizing, order Lee Liquid Alox below, good for thousands of bullets.

Shown on Reloader Press (90045) PG. 18 SOLD SEPARATELY.

Bullet Sizing Kit

Fastest and easiest way to size cast bullets. Standard $\frac{7}{8} \times 14$ threads fit any reloading press. Bullets are pushed through the sizing die nose first, so no special nose punches are needed. Gas checks are automatically seated and crimped in place. Sized bullets captured in the special container. **COMPLETE FOR ONE SIZE 25.98**

Other sizes can be made on a custom basis for \$40.00, plus s&h. leeprecision.com/custom-lube-and-sizing-kit.html

BREECH LOCK BULLET SIZER KIT

FASTEST AND EASIEST WAY TO SIZE CAST BULLETS

KIT INCLUDES the mounting body incorporating the LEE QUICK CHANGE BREECH LOCK FEATURE. The body accepts our new low cost bullet sizing die. The new sizing die is produced of high carbon steel, and specially tapered to reduce sizing effort. The sizing die is retained in the mounting body with a dual threaded bottle adapter.

Bullets are sized nose first; this is the most accurate and causes the least distortion. Best of all no special top punches are required. Will seat and crimp gas checks while sizing.

Great for powder coated or liquid lubricated bullets.

All bullets must be lubricated, order Lee Liquid Alox or your favorite coating.

Breech Lock Bullet Sizing Kit 91532 15.00

Other sizes can be made on a custom basis, for \$20.00, plus s & h. leeprecision.com/custom-breech-lock-bullet-sizer-punch/

INCREDIBLY FAST BULLET SIZING ON THE NEW LEE APP SEE PG. 27

Universal Case Expanding Die

Gently flares the case mouth to accept cast bullets without shaving. Works great to prevent damaging the moly and low friction coatings found on today's high performance jacketed bullets. Includes neck plugs for .22 cal through .45 cal. Works on everything from the 22 Hornet to the largest Ultra Mag. Costs so little and works so well you can't afford to be without one.

90798 16.98

Hardness Testing Kit

Featured product in Chapter 10 "Modern Reloading." No more wasted components shooting too soft or too hard lead. Cast and load with confidence knowing your alloy is up to the job. Quickly and precisely check hardness of your lead alloy. Exclusive conversion chart tells the maximum operating pressure of any lead alloy.

90924 90.00

INCLUDES CALIBRATED HARDENED STEEL BALL INDENTER
V" BLOCK CRADLE SNAPS INTO STANDARD PRESS RAM
20 POWER 4 LENS OPTICAL MEASURING MICROSCOPE

Try this with your bullet lubricant

The bullet melts while the Lee Liquid Alox clings tenaciously to the bullet

Lee Liquid Alox

Enough for thousands of bullets

Lee Liquid Alox gives better accuracy because it eliminates leading. The lube coats the entire bullet like a thin jacket and dries to a soft, varnish-like finish that really clings. The dried coating does not degrade gunpowder. Easy to apply; eliminates the need for sizing of most cast bullets. While it works well with all cast or swaged bullets better than any other lube, it works most economically with micro band bullets, which are designed for tumble lubing.

4 OZ. DISPENSER BOTTLE 90177

6.98

LUBRICATING BULLETS

Traditional bullet lubricating methods of placing lube only in the grooves are inferior to the modern method of coating the entire bullet with Lee Liquid Alox. This places the lube where needed, on the surfaces that rub against the bore.

Gently shake bullets in an orbital motion to coat the bullets. If they do not coat completely, add a little more lube.

Spread bullets onto waxed paper and let dry overnight.

LEE MOLD BLOCKS MADE FROM ALUMINUM BECAUSE OF THE EXCEPTIONAL MOLDING QUALITIES

MOLD CAVITIES CNC-MACHINED FOR UNMATCHED ROUNDNESS AND SIZE CONTROL

MOST BULLETS FROM LEE MOLDS CAN BE USED AS CAST WITHOUT SIZING

DOUBLE CAVITY MOLDS

Handles and sprue plate included.

26.98

HOLLOW BASE MOLDS

These are available in single cavity only. They have self centering automatic core pins for the fastest possible molding. Handles and sprue plate included.

30.98

SIX CAVITY COMMERCIAL QUALITY MOLDS

These are made for heavy duty volume production. The mold blocks have steel bushing and alignment pins for lasting precision. Price includes a cam operated sprue plate to eliminate the pounding common to ordinary molds. The sprue plate is hard anodized and held down with wave washers at each end. No finer mold can be purchased at any price. Handles extra.

57.00

MOLD HANDLES

Precision steel mold handles fit not only the Lee Six Cavity molds and 18 Cavity Buckshot molds, but most other brands of one and two cavity molds. Priced low enough so you can have a set for every pair of blocks.

90005

19.98

TRADITIONAL GROOVE

This type of lubrication groove is designed for old style hard lubricants. Also works well with Lee Liquid Alox.

MICRO BAND GROOVE FOR LIQUID ALOX #90177

The reduced friction of the micro bands allow a higher velocity with the same pressure as conventional lube grooves.

MICRO BANDS USUALLY REQUIRE NO SIZING

The bullet shank has many shallow grooves for maximum liquid lubricant retention. A great way to make bullets in quantity with minimum time, effort and equipment. More accurate than ordinary cast bullets. The reduced friction of the micro bands gives you more velocity with less pressure.

58 cal.	.575-472M	90476
58 cal. oversize	.578-478M	90478

Improved design is easier to cast and load.

Usually more accurate; a wider variety of sizes.

Modern Minie, Target Design

50 Cal.	.500-354M	90471
---------	-----------	-------

The most accurate of all Minies. Makes nice, clean holes in the target. The first choice for highest scores.

Original Style Minie Bullet

58 Caliber	575-500M	90481
------------	----------	-------

An extremely popular, traditional size Minie bullet. Available in 58 caliber only. Certainly a must for authentic muzzle loading shooting.

R·E·A·L BULLET FOR MUZZLE LOADERS

RIFLING · ENGRAVED · AT · LOADING

A solid bullet that loads easily even after many firings because of its unique cleaning action. Will not tumble. A perfect hunting bullet with heavy loads. Easy to cast. Shoots accurately even in greatly oversize barrels.

DOUBLE CAVITY WITH HANDLES 26.98

RIFLING-ENGRAVED-AT-LOADING

The driving bands are large enough to adequately engage the rifling when pushed into the muzzle, and thin enough to easily engrave. They're strong enough to withstand maximum charges without stripping or gas cutting.

UNIQUE CLEANING ACTION You can shoot all day without cleaning your rifle between shots! When inserted into the muzzle, tiny scraping edges are swagged forward on each driving band. These perfect fitting scrapers remove the fouling from the previous shot.

EASIER, FASTER TO LOAD It's easy to load straight and true, easier and faster than a round ball with patch. Easily stabilized with very light

charges, the R-E-A-L bullet also retains accuracy with maximum loads. Each band is generously tapered to the rear with an angle close to that of a lathe center, so as to center the bullet against the rifle bands. When pushed in, the bullet automatically centers in the bore.

MORE ACCURATE The bevel base of the R-E-A-L bullet contributes to greater accuracy. When the bullet exits the bore, the gas escapes equally around the perimeter of the base. The uniform bevel is resistant to nicks that would permit gas to escape prematurely and cause a jet effect on one side of the bullet.

Conical Bullet Mold FOR BLACK POWDER REVOLVERS

A super accurate bullet that is easy to load straight and true. Two lube grooves prevent flash ignition and lead fouling. More energy and far greater accuracy than round balls.

Combo Molds

45 CAL 200RB with Handles

90405 26.98

Double cavity mold casts one 45 Cal. 200 R-E-A-L bullet and one .440 diameter Round Ball.

50 CAL 320RB with Handles

90488 26.98

Double cavity mold casts one 50 Cal. 320 R-E-A-L bullet and one .490 diameter Round Ball.

LOAD SLUGS FOR LESS THAN STANDARD TRAPLOADS

Lee Slug Mold

Load slugs for less than standard trap loads. The Lee DRIVE KEY slug is loaded in standard trap hull with standard wad and conventional folded crimp. Slug loads are produced with any standard shot shell reloading press.

Lee Slug Mold features the exclusive drive key. The drive key positively rotates the slug in rifled shotgun barrels and doubles as a support rib allowing use of a standard trap wad—no need for a support wad or base filler. Sabot wad design outperforms rifled slugs in rifled slug barrels. Velocity and accuracy meet and exceed expensive factory loaded rifled slugs. Molds feature self centering automatic core pins for maximum speed and convenience. Mold is complete with sprue plate, handles and complete instructions with suggested loads.

Shotgun Slug Mold	1 oz.	12 ga.	90281	33.98
Shotgun Slug Mold	7/8 oz.	12 ga.	90282	33.98

EXCLUSIVE DRIVE KEY POSITIVELY ROTATES THE SLUG IN RIFLED BARRELS AND ELIMINATES THE NEED FOR SUPPORT WADS OR BASE FILLERS; ASSURES POSITIVE AND SMOOTH DISCARD OF THE SABOT WAD.

GUARANTEED MORE ACCURATE
than factory slugs or your money back

18 CAVITY BUCKSHOT BULLET MOLDS

Lee 18 Cavity Buckshot Bullet Molds

Precision-machined molds produce 18 linked pellets per cast. Each cast produces enough pellets to load two 12 Gauge shotshells. Easily cast 3,000 pellets per hour. Handles shown not included. Order product No. 90005 on page 36.

LOAD SHOTGUN SHELLS, STEEL OR LEAD SHOT, TO LOOK AND SHOOT LIKE NEW

Lee Load-All II

Lee Load-All II shotgun shells not only look better than those loaded on machines costing hundreds of dollars, but they usually have more uniform velocity and patterns. You can load just as fast as with any other brand of loader costing up to \$200.

Twenty-four shot and powder bushings are included free. The bushings alone can cost several dollars each from other manufacturers— and they're not as accurate as those made by Lee. Only Lee supplies molded bushings.

This is a time proven tool. There are hundreds of thousands in use world wide: in nearly forty years, we have yet to see one worn out. Written two-year unconditional guarantee and a lifetime warranty.

Load-All Options

Conversion To Another Gauge

The Load-All II can be easily and economically converted to another gauge with the conversion kit. The entire die carrier is replaced so no adjustments are needed. The conversion kit includes the die carrier, steel sizer, wad guide, shell holder, load data and instructions.

Lee Adjustable Shot Dipper

Accurately measure lead, bismuth and steel. Telescoping cup adjustable from 7/8 to 1 1/8 oz. Calibrated for lead shot. Works perfect for large pellet sizes. With steel, simply count out the pellets or weigh and set dipper accordingly.
