Innovative Products for Shooters Since 1878

New Beginnings - Mark 7 is now part of the Lyman family!

During Lyman's long history in the manufacture of quality reloading equipment, the most frequent question we received from our customers was "when is Lyman going to make a progressive press". Well, in 2019 we addressed that question in a big way! To expand our capabilities for serving the worldwide reloading community, Lyman acquired Mark 7 Reloading, a company that we feel offers the most dynamic and innovative line of loading equipment in the world.

Starting in 2014, the Mark 7 story began with the introduction of the Autodrive system for automating the popular series of presses from Dillon Precision, including the 650 and 1050 models. The Mark 7 Autodrive transforms presses from manual to automatic and reloaders can experience the pleasure of watching thousands of loaded rounds filling up their ammo boxes in less than an hour automatically! Not satisfied, the Mark 7 team then added a full line of sensors to make the machines run more efficiently for the user. Soon after introducing the Autodrive, Mark 7 decided to take modern reloading to an even higher level and introduced the Revolution 10-Stage Automated loading platform. This was the first affordable, fully automatic loading machine for the high volume "Prosumer" or commercial loader. The manual Evolution press, which also featured 10 stages and was fully convertible to automatic with an Autodrive, was introduced in 2018.

Since Mark 7 joined us in May of 2019, the Lyman engineering and manufacturing teams have worked diligently to improve the costs of these products while maintaining the highest level of quality. Our goal is to make the Mark 7 products more accessible to the progressive reloader and more competitive to stock and sell for our dealers and distributors. In addition, this spring we will introduce a new line of commercial and consumer Mark 7 products that will bring ammunition production and brass processing to a level unseen in our industry. Please check out our website in January and be ready to be surprised!

In 2020 we have several great new additions to offer our customers. First our new 100% USA Made **AccuSight** tool will be a must for the professional or home gunsmith setting a new standard for pistol sight adjustment. Our new Lyman **Torque Wrench** is also a must for safely attaching scope rings and bases, action screws and other fasteners to firearms. Finally, our new **Borecam Pro** takes barrel inspection to a whole new level with improved 720P resolution and wireless operation allowing sharp clear photos and videos. Apps are available for IOS and Android phones and tablets.

As always, our success lies in the hands of our customers. We are always interested in hearing your ideas and ways to improve our company and our sport. Please stay in touch through our newsletter and share your thoughts with us on Facebook.

Best wishes from all our employees for a great 2020.

Rick Ranzinger, President & CEO

www.p65warnings.ca.gov

Our Evolution reloading press is a commercial grade loading press that has been modified to meet the needs of high volume reloaders. With its 10-die station design, the Evolution gives you more flexibility and options than any of the competition! The precision CNC machined construction and super smooth operation says “quality” every time the handle is cycled. In addition, the press can be upgraded for fully automatic operation with our Autodrive system and digital controls, as well as our wide array of sensors. The Evolution can work with most off-the-shelf reloading dies and supports a variety of accessories. The manual Evolution can produce up to 1200 rounds per hour making it the perfect choice for competitive shooters looking to quickly make large quantities of top-quality ammo.

Designed for automation, and for many optional upgrades, which include the Mark 7 Automatic Primer collator, the Mark 7 Evolution Autodrive and the complete suite of Mark 7 Sensors and parts.

If you own a Mark 7 1050 Pro/X Autodrive, it can be modified for use on an Evolution with the purchase of a conversion kit.

Standard features include:

- A massive, robust 10-station tool head which allows you to “have it all”:
 Station 1: Case feeding
 Station 2: Sizing and decapping
 Station 3: Swage/Case trim
 Station 4: Primer seat with hold down
 Station 5: Resize/neck expansion
 Station 6: Powder drop
 Station 7: Powder check
 Station 8: Bullet Dropper
 Station 9: Seating
 Station 10: Crimping
- Large capacity, fast feeding case collator
- Ergonomically designed operating handle, which can be assembled for right or left-hand use
- 11” Case Feeder with a new and improved case feed system using roller bearings and user-adjustable springs
- Mechanical Powder Measure
- Stacked Priming
- Supports one-pass rifle/pistol processing and loading
- Works with new AND fired brass
- Precision CNC machined aluminum and steel
- Upgradeable with Mark 7 Autodrives and sensors

- Fully supported Mark 7 community and technical help included
- Double Guide Rod support for the tool head creates smoother more in-line function
- Gear-based precision-fit overall operation
- A large assortment of accessories, upgrades and sensors are available.

Upgradeability

The Evolution™ can easily be upgraded with the following options at any point:

- Evolution Autodrive
- Automatic Primer Collator (only with Autodrive)
- Digital Powder Measure (only with Autodrive)
- Digital Sensors (only with Autodrive)
- Machine caliber conversion kits that include all the components required to convert the press from one caliber to another
- Trimmer kit for rifle processing

PLEASE NOTE: Dies are not included with the Evolution and must be purchased separately.

Dimensions

Overall machine dimensions are:
 39” tall x 19.5” wide x 14” deep
 99.1 cm x 49.5cm x 35.6cm
 Machine weight: 65lbs (29.5kg)

Mark 7 Autodrives
Automate Your Press

Tired of pulling on the handle of your press over and over and over? The Mark 7 Autodrive will fully automate your Dillon 650, 750, 1050 and Mark 7 Evolution manual presses for speed, efficiency and performance. The Autodrive is packed with features that make it the most advanced system ever designed. The patented digital drive system is computer operated allowing you to fully control the speed, torque, and dwell of the press with a simple to use high definition tablet. This is a true “plug and play” system that makes it easy to mount and set-up on your press. The included TorqueSense and JamSense sensors protect the press and system if anything gets out of place. The Autodrive controller can also accept additional sensor options for the ultimate level of protection. Autodrives come with their own rugged base and a drilled and tapped press mounting plate. The high torque motor and precision machined components combine for super smooth operation.

All Autodrives include a 10” High Definition Tablet and Mount

JamSense/Torque Sense

Included as a standard item on each machine is our patented digital clutch technology that is adjustable on-the-fly.

*Included with all Autodrive units

Dillon 650/750 Pro Autodrive

- Microprocessor controlled
- Includes 10” HD tablet
- Adjustable speed settings from 900 to 1800 rounds/hour (Note speeds over 1400 are for brass processing only)
- Adjustable digital clutch
- Digitally controlled jog and stop functions
- High torque motor with reliable direct drive operation
- Includes DecapSense, TorqueSense and JamSense
- Fits Dillon 650 and 750 presses – press not included

(#101-1017-01-01)\$1,994.95

Dillon RL 1050/Super 1050 Pro Autodrive

- Microprocessor controlled
- Includes 10” HD tablet
- Adjustable speed settings from 900 to 3500 rounds/hour (Note speeds can vary based on machine settings)
- Adjustable digital clutch
- Digitally controlled jog and stop functions
- High torque motor with super smooth belt driven operation
- Includes TorqueSense and JamSense
- Fits Dillon 1050 presses – press not included

(#101-1001-01-01)\$1,994.95

Mark 7 Evolution Autodrive

- Microprocessor controlled
- Includes 10” HD tablet
- Adjustable speed settings from 900 to 3500 rounds/hour (Note speeds can vary based on machine settings)
- Adjustable digital clutch
- Digitally controlled jog and stop functions
- High torque motor with super smooth belt driven operation
- Includes TorqueSense and JamSense
- Fits Mark 7 manual Evolution press – press not included

(#101-1046-01-01)\$1,994.95

Mark 7 Sensors

Digital Sensors for Mark 7 Autodrives

The ability to use a variety of sensors separates the Mark 7 system from the competition. Ammunition MUST be safe and reliable, whether you are a beginning shooter or a top-level competitor. Progressive and automated presses are also a large investment, so it is a wise move to protect them, your firearms and yourself with our proven sensors. Whether it is ensuring that the spent primer is removed, checking for a correct (or no) powder charge, ensuring that a bullet is present and positioned correctly, or that you are low on primers; we have you covered with the right sensor. All Mark 7 sensors are fully integrated with our computer control box; simply attach, plug in and add the sensor with your Mark 7 tablet. All sensors can be turned on and off via the tablet to coincide with your reloading needs.

PowderCheck

Automatically stops the machine if an incorrect powder level is detected inside the case.

Powder Check (#101-1130) \$249.95

BulletSense

The digital bullet orientation sensor stops the machine instantly if a vertical bullet is not present.

For Dillon 1050 (#101-1082) \$349.95
 For Dillon 650 (#101-1083) \$349.95
 Evolution/Revolution(#101-1059) \$349.95

Optical DecapSense

Optical sensor that stops the machine and alerts you when a decapped primer is not present. *Included with all 650/750 Autodrives

For Dillon 1050 Super (#101-1011-01) \$199.99
 For Dillon 1050 RL (#101-1011-02) \$199.99
 For Dillon 650/750* (#101-1011-03) \$199.99
 Evolution/Revolution(#101-1036) \$199.99

SwageSense

The first ever electronic sensor system that can stop the machine when unexpected primer pocket obstructions are sensed. (Not compatible with Dillon 650/750)

For Dillon 1050 (#101-1031) \$249.95
 Evolution/Revolution(#101-1031) \$249.95

Wired Remote Stop Switch

Machine can stop instantly when the red button is pressed.

Remote Stop (#101-1016) \$24.95

Primer Orientation Sensor

Will stop your press in the event of a primer that is missing, upside down, misaligned, or not set deep enough.

Evolution/Revolution Only (#101-1040) \$324.95

PrimerSense

Proprietary digital sensing mechanism that stops the machine when the primer supply is low.

Dillon 650/750/1050 Only (#101-1009) \$29.95

Lyman®

STAINLESS STEEL

Pro Dies

A NEW STANDARD FOR RELOADING DIE PERFORMANCE

Lyman Pro Trim Dies

Lyman Pro Trim Dies are made in the USA to Lyman's highest quality standards. Made from stainless steel for a lifetime of use. Pro Trim Dies are threaded on the bottom in 7/8-14 to fit all Lyman, Mark 7, and all other reloading presses on the market. The top thread is 13/16-20 for use with Lyman's new press mounted trimmer or many of the other popular press mounted trimmers on the market.

Trim Die 223 Rem (#7702100)	\$39.95
Trim Die 300 AAC (#7702101)	\$39.95
Trim Die 308 Win (#7702102)	\$39.95

Lyman Pro Case Flare Dies

Our case flare dies are especially designed for use with progressive and automated reloading presses. The long tapered expanding plug allows you to adjust for just the right amount of case flair to properly position a bullet for seating. Our Case Flare Die is also made of corrosion resistant stainless steel which protects it from rust and keeps it looking like new for a lifetime of use.

9mm (#7701105)	\$39.95
.40 S&W (#7701106)	\$39.95
.45 ACP (#7701107)	\$39.95

Universal Hold-Down Die

The Universal Hold-Down Die is designed for use on Mark 7 and other progressive presses which swage primer pockets. The die is equipped with a sturdy rod which is designed to reach down inside the case and hold the case firmly in position as the swaging operation takes place. This prevents cases from being torn out of the shell plate damaging it and the brass. Two rods are included to cover the full range of rifle and pistol cases. The die body is also made of corrosion resistant stainless steel which protects it from rust and keeps it looking like new for a lifetime of use.

Universal Hold-down Die (#7701101) \$39.95

Universal Spring Loaded Decapping Die

Lyman's Universal Spring Loaded Decap Die is equipped with a spring-loaded decapping rod system that ensures the primer is forcefully ejected from the primer pocket every time. This die works great for processing brass on automated and progressive presses, as well as for prepping brass for cleaning on standard turret and single station presses. Works on all calibers 22 through 45 except for 378 and 460 Weatherby. (Will not remove Berdan primers.)

Univ. Spring Loaded Decap Die (#7701100) . . \$39.95

Stainless Pro Carbide Sizing Dies

Tungsten carbide sizing dies were pioneered by Lyman, now we have made them even better. Our new Pro Carbide die bodies are made of stainless steel which is noted for its toughness and anti-corrosion qualities. No more rusted dies! Our sizing dies are equipped with highly polished carbide rings for the ultimate in wear resistance and reduced sizing force. The carbide rings have a generous radius on the mouth to allow cases to easily align on progressive presses. Rifle dies also include our super slick carbide expander buttons to reduce case stretch. In addition, the sizing dies are equipped with a spring-loaded decapping rod system to ensure that the primer is forcefully ejected from the primer pocket every time.

9mm (#7704230)	\$99.95
38 Super (#7704232)	\$99.95

6.5 Creedmoor (#7704246)	\$189.95
308 (#7704242)	\$189.95

Lyman Pro Series Micrometer Taper Crimp Dies

Our Micrometer Taper Crimp Die gives you exact the amount of crimp that you want. The Taper Crimp Die has a micrometer adjustable head for precise positioning of the floating crimp sleeve. If you want to change your bullet crimp a few thousandths of an inch, simply turn the micrometer head to the required setting. The floating crimp sleeve centers the cartridge and applies a perfect taper crimp. Our Micrometer Taper Crimp Die is also made of corrosion resistant stainless steel which protects it from rust and keeps it looking like new for a lifetime of use.

9mm (#7704554)	\$99.95
38 Super (#7704580)	\$99.95

308 (#7704620)	\$99.95

Lyman Pro Micrometer Seating Dies

Our Micrometer Seating Die gives you exact bullet seating length and minimal run-out. The seating die has a micrometer adjustable seating head for precision bullet seating length. If you want to change your bullet seating depth a few thousandths of an inch, simply turn the micrometer head to the required setting. Its floating bullet seating punch centers the bullet on the case and eliminates excessive run-out. Our Micrometer Seating die is also made of corrosion resistant stainless steel which protects it from rust and keeps it looking like new for a lifetime of use.

Lyman Pro Die Packs

Lyman Pro dies will set a new standard for reloading die performance! Designed for the tremendous volume of our Mark 7 presses, every aspect of these precision dies was carefully engineered for top performance. Of course, they work great in regular progressive presses as well as turret and single station presses. Our first consideration was the material of the dies. Our size, seat and crimp dies are all made of stainless steel which was chosen for its toughness and anti-corrosion qualities. No more rusted dies! Our sizing dies are equipped with highly polished carbide rings for the ultimate in wear resistance and reduced sizing force. In addition, the sizing dies are equipped with a spring-loaded decapping rod system to ensure that the primer is forcefully ejected from the primer pocket. Our rifle sets get our famous M die neck expander, with its famous two step expander plug for just the right amount of neck tension and case mouth flare. The pistol sets include our flare die which are designed to allow bullets to properly sit on the case mouth prior to seating.

Next is our Micrometer Seating die. This seating die has a micrometer adjustable seating head for precision bullet seating length. Its floating bullet seating punch centers the bullet on the case and eliminates excessive run-out. Finally, each set is equipped with a taper crimp die to fully remove any case mouth flare and to provide improved bullet retention. Lyman Pro dies offer more features at a better price than any competitive dies available!

9mm (#7701000)	\$249.95
38 Super (#7707004)	\$249.95

9mm 100 Hole Ammo Checker Block

High volume reloaders and competition shooters know the significance of quality reloaded ammunition, and importance of dimensionally correct reloads. Lyman now offers a 100-hole 9mm Ammo Checker. This gauge is made to SAAMI minimum chamber specifications, meaning if your reloaded ammunition drops in the gauge it will chamber in your firearm. With the large 100-hole block it is now faster and easier for the high volume reloader and competition shooter to ensure their reloaded ammunition is dimensionally correct and will function flawlessly in their firearms.

9mm 100 Hole Ammo Checker (#7833036) . \$119.95

Mechanical Powder Measure

The new Lyman reloading press mounted mechanical powder measure, will give you all the performance and quality you've come to know and trust from Lyman Products.

For 2020 Lyman Products is proud to introduce our new press mounted mechanical powder measure. When using a press mounted powder measure there is no need to have a separate powder measure mounted to your bench saving space and time. The powder measure can be mounted to a wide variety of presses, from single stage to turret to progressive and everything in between.

Superior engineering means our powder measure is fully loaded with features. Accuracy within plus or minus a tenth of a grain (± 0.1 gr). Powder hopper capacity of 5,000 grains, and integrated powder screen to help keep out any unwanted debris. Powder baffle to ensure consistent and repeatable powder drops. Case actuated operation, with built in compliance to work with varying case lengths. No trimming is required. The rotating barrel is built using deep groove ball bearings, and oil impregnated bronze bushings on all sliding surfaces to insure smooth operation and extended life. All stainless-steel internals for years of worry-free use with minimal wear. Simple disassembly for cleaning and converting from pistol to rifle and rifle to pistol.

Please see our website for more accessories.

Pistol Powder Measure (#7767705)	\$259.95
Rifle Powder Measure (#7767710)	\$259.95

Brass Smith Ideal Press

Lyman's Brass Smith Ideal Press is the perfect starting point for beginners or as a precision companion press for experienced reloaders. The compact design of the Ideal Press requires minimal bench space, but it is not some flimsy lightweight! The rugged press frame is made of cast iron, while other components are all steel. The press features compound linkage for optimum leverage, a 1" diameter ram, and a 3 7/8" press opening which can handle all pistol calibers and rifle cartridges with a loaded length of up to 3.700". The press has a central handle position for easy ambidextrous use and a ball handle for comfortable operation. The Ideal Press accepts all 7/8x14 thread dies and standard shell holders. The press will provide accuracy and precision for beginners or experts, and is the perfect auxiliary press for those wishing to perform a specific operation separate from their main press.

- Rugged cast iron frame
- Ambidextrous design
- Handles all pistol calibers and rifle cartridges up to 3.700 in length
- Accepts all standard 7/8"x14 dies and standard shell holders
- Durable powder coat finish
- Compound linkage and 1" diameter ram
- Weight 12.6 pounds

Brass Smith Ideal Press (#7726500) \$109.95

The large frame opening makes even the largest magnum calibers easy to load

Compound linkage and 1" diameter ram

For added safety, the primer feed comes with a heavy steel shield which surrounds the primer tubes

Brass Smith Victory Press

The Lyman Brass Smith Victory Press is the workhorse of our line. You cannot find a more sturdy, rugged, and rigid single station press available. We started with a heavy duty cast iron "O" frame, and added a 1" diameter ram, and compound linkage. Work the press handle and you will feel the tight, precision fit and smooth operation. Unlike many competitive presses, the Victory Press comes with a newly designed straight line primer feed. The straight line primer feed is completely reliable and simple to use. Simply push the priming arm forward at the bottom of the ram travel to position it beneath the shell holder. For added safety, the primer feed comes with a heavy steel shield which surrounds the primer tubes. The large 5" frame opening makes even the largest magnum calibers easy to load. The Victory Press is equipped with a comfortable ball handle which can be positioned for either right or left hand use. The Victory Press is designed for use with any standard 7/8"x14 thread dies and accepts standard shell holders.

- Heavy duty cast iron "O" frame
- 1" diameter ram
- Comes with straight line primer feed with large and small primer tubes
- Precision fit and smooth operation
- Large 5" frame opening, works with the largest cases
- For added safety, the primer feed comes with a heavy steel shield which surrounds the primer tubes.
- Right or left hand operation
- Durable powder coat finish
- Weight 18.1 pounds

Brass Smith Victory Press (#7726350) \$219.95

Ambidextrous design for right or left hand operation

Holds two complete 4 die sets or up to four 2 die sets
WARNING: Cancer and Reproductive Harm

Brass Smith All-American 8 Turret Press

The eight station Brass Smith All-American 8 Press is the most feature-packed, rugged turret press on the market! Starting at the top, the extra-large 8 station turret is machined out of heavy duty cast iron. It is equipped with an easily removed turret bolt which makes swapping turrets simple. The 8 die station turret is the largest available and will hold two complete 4 die sets or up to four 2 die sets. Below the turret is a rigid cast iron frame, housing a 1" diameter ram and compound linkage. The frame is large enough to work with even the longest rifle cartridges. Work the press handle and you will feel the tight, precision fit and smooth operation. Unlike many competitive presses, the Brass Smith All-American 8 Press comes with a newly designed straight line primer feed. The straight line primer feed is completely reliable and simple to use. Simply push the priming arm forward at the bottom of the ram travel to position it beneath the shell holder. For added safety, the primer feed comes with a heavy steel shield which surrounds the primer tubes. The Brass Smith All-American 8 Press is equipped with a comfortable ball handle which can be positioned for either right or left hand use. The Brass Smith All-American 8 Press is designed for use with any standard 7/8"x14 thread dies and accepts standard shell holders.

- Heavy duty cast iron frame and turret
- Extra-large 8 station turret is easily removed to make swapping turrets simple.
- Holds two complete 4 die sets or up to four 2 die sets
- 1" diameter ram
- Comes with straight line primer feed with large and small primer tubes
- Precision fit and smooth operation
- Large press opening, works with the largest cases
- For added safety, the primer feed comes with a heavy steel shield which surrounds the primer tubes.
- Right or left hand operation
- Durable powder coat finish
- Weight 23 pounds

Press Dust Cover

Protect your investment in top quality Lyman Presses with a Lyman Press Dust Cover. This simple cover will protect your presses from dust and dirt, maintaining their "like new" condition for years to come! Plus the good looking cover will make your reloading bench appear neat and organized.

Press Dust Cover (#7726740) \$19.99

Lyman Universal Press Stand

The Lyman Universal Press Stand is the only press stand on the market that will accept most current single station, turret, and progressive presses of all brands. This heavy duty steel stand comes with two mounting plates pre-drilled for your favorite single station, turret, or progressive press. If by chance you have a press that does not match up with any of the numerous patterns, there is also a blank area where you can drill your own mounting holes. The stand will raise your press 9 1/4" above your bench surface, which will lessen fatigue from having to bend over to cycle your press and provides a clear view of all reloading operations. All hardware needed to mount your press is included. The Universal Press Stand is drilled to allow it to be bolted to your bench, or it can be C-clamped to provide quick removal if desired.

- All steel, heavy duty construction
- Accepts most single station, turret, and progressive presses
- Blank area allows custom drilling
- Raises your press 9 1/4" for a clear view of reloading operations
- Reduces fatigue
- Press mounting hardware is included
- Fits the following presses and more:
 Lyman - Crusher, T-Mag, Ideal C-Frame, Victory, All-American 8 Turret,
 RCBS - Rock Chucker, Rock Chucker Supreme, RCBS Turret, Pro 2000,
 Hornady - AP, Iron, Lock-N-Load Classic,
 Redding - T7, Lee - Load Master, Pro 1000, Classic, Value Turret,
 Dillon - Square Deal, 550, 650

Universal Press Stand (#7726750) \$69.95

BRASS SMITH IDEAL RELOADING KIT

Lyman's Ideal Reloading Kit is the perfect starter kit for the new reloader. It features all the essential tools that you need but will never out grow as your experience increases. The kit includes Lyman's new Ideal Press, equipped with a rugged 1" ram and capable of handling all pistol and rifle cartridges up to 3.700" in length. You also get our new Brass Smith Powder Measure, our popular E-ZEE Prime Hand Priming Tool, the famous 50th Edition Reloading Handbook, the Pocket Touch 1500 digital scale with Funnel Pan and dipper, as well as the Case Prep Multi-Tool, loading block and Quick Slick Case Lube. All for a price that is a large savings over individual purchases!

- Ideal Kit Includes:
- Brass Smith Ideal Press
 - Brass Smith Powder Measure
 - 50th Edition Reloading Handbook
 - Pocket Touch 1500 electronic scale with Funnel Pan and Dipper
 - Loading Block
 - Case Prep Multi-Tool
 - E-ZEE Prime Hand Priming Tool
 - Quick Slick Case Lube

Brass Smith Ideal Kit (#7810350) \$275.00

BRASS SMITH VICTORY RELOADING KIT

Lyman used all 140 years of their reloading experience with the design of the new Brass Smith Victory Press. This workhorse cast iron press is equipped with our completely new Auto Primer Feed and is the most rugged yet precise single stage press available. Perfect for precision rifle shooters, the Brass Smith Victory Reloading Kit gives reloaders all of the expert grade equipment that they need! The kit features the heavy duty Victory Press, our new Brass Smith Powder Measure, the famous 50th Edition Reloading Handbook, 1500 grain capacity Pocket Touch Digital Scale with Funnel Pan and dipper, Case Prep Multi-Tool, our Magnum Bullet Puller as well as a loading block and Case Lube Kit.

- Single Stage Press Kit includes:
- Brass Smith Single Stage Press
 - Brass Smith Powder Measure
 - 50th Edition Reloading Handbook
 - Pocket Touch 1500 electronic scale with Funnel Pan and Dipper
 - Loading Block
 - Case Prep Multi-Tool
 - Magnum Bullet Puller
 - Primer Tray
 - E-ZEE Powder Funnel
 - Case Lube Kit
 - Powder Dribbler

BRASS SMITH ALL-AMERICAN 8 RELOADING KIT

Lyman is proud to be celebrating our 140 years in business; however we are even prouder of our new All-American 8 Press. Our new turret press is the most features packed, rugged press on the market, and is the heart of the All-American 8 Reloading Kit. The heavy duty press is large enough to handle the biggest rifle cartridges, yet offers speed and precision for pistol shooters. Along with the smooth operating 8-station turret capable of holding up to 4 two die sets, the press is equipped with our brand new straight line Auto Primer Feed. To make this the most complete kit that you can find, we have included our new Brass Smith Powder Measure, our Universal Trimmer with 9 of the most popular caliber pilots, our 1500 grain capacity Pocket Touch Digital scale, the famous 50th Edition Reloading Handbook, our Magnum Bullet Puller, Case Prep Multi-Tool, loading block Case Lube Kit and Powder Dribbler.

All-American 8 Reloading Kit includes:

- Brass Smith All-American 8 Press
- Brass Smith Powder Measure
- 50th Edition Reloading Handbook
- Pocket Touch 1500 electronic scale with Funnel Pan and Dipper
- Universal Trimmer with pilot multi-pack
- Case Prep Multi-Tool
- Magnum Bullet Puller
- Case Lube Kit
- Loading Block
- Powder Dribbler
- E-ZEE Powder Funnel
- Primer Tray

All-American 8 Kit (#7810370) . . \$525.00

ULTIMATE RELOADING SYSTEM

The Lyman Ultimate Reloading System is the only kit you'll ever need! Outfit an entire reloading bench with premium products designed to accomplish all steps in the reloading process. No other kit from any competitor can match this untouchable value! The Ultimate Reloading System includes top-of-the-line tools and accessories like our All American 8 turret press, Gen 6 Digital Powder System, Universal® Case Trimmer, Pro 1200 Turbo® Tumbler, and everything else needed to turn out high quality rounds fast! To top off this in-

credible value, get a free die set on us by filling out the enclosed die set rebate. Take your passion to the next level with the Lyman Ultimate Reloading System!

Ultimate Reloading System includes:

- All American 8 turret press
- Gen 6 Powder System
- Universal® Trimmer
- Pro 1200 Turbo® Tumbler
- Free Lyman Die Set Voucher
- 50th Edition Lyman Reloading Handbook

- Universal Loading Block
- Calibration Check weight
- Case Prep Multi Tool
- Bench Wrench
- E-ZEE Prime Hand Priming Tool
- Quick Slick™ Case Lube

Lifetime of Use**

Brass Smith Case Trim Xpress™

Lyman's Case Trim Xpress gives rifle reloaders the speed and accuracy that they have been looking for when trimming cases! The unit has its own power source, and a strong variable speed motor, so there is no need to use power drills or purchase separate motors. By using bushings that contact on the shoulder of bottle neck type cases, the Case Trim Xpress will quickly and cleanly trim your brass by simply pushing the case against the long lasting carbide cutter. The trimmer comes with a set of 10 bushings (in orange type below) designed to fit most popular bottleneck rifle cases. The bushings support and center the case with the cutter. No pilots are needed! The bushings are spring loaded to provide a smooth, effortless cut; and allow the user to trim approximately 15 cases per minute. In addition, the Case Trim Xpress is equipped with an adjustment wheel, which allows case lengths to easily be "dialed in" to .001" increments. Plus it is made with a compact, low profile housing that doesn't eat up all of your bench space.

- Fast and accurate trims – approximately 15 cases per minute
- Variable speed motor and ultra-sharp, long lasting carbide cutter
- Utilizes case shoulders to center & trim (**Not for use on straight wall cases**)
- Comes with 10 bushings fitting most popular bottleneck rifle cartridges
- Smooth spring-loaded operation gives clean, chatter-free trims
- Compact, low profile design uses minimal bench space
- No pilots needed

Brass Smith™ Powder Trickler

The Lyman Brass Smith Powder Trickler was designed with the serious reloader in mind, combining all the features that they are looking for. It starts with a static free die cast aluminum body, which is adjustable for height. The base is machined out of a solid piece of steel, which gives the trickler plenty of weight and stability. The trickler also comes with an aluminum feed tube which can be set-up for a longer reach with the addition of the included feed tube extension. This allows it to be used with electronic scales with wider bodies, as well as mechanical beam scales. The large diameter knob on the feed tube gives you added precision and control when trickling powder out of the generously proportioned powder hopper. And finally, it has an attractive powder coat finish.

Powder Trickler (#7752500) \$22.50

Brass Smith Powder Measure ⚠️

Whether dropping charges for small pistol cases or large rifle cases, this measure gives consistent and accurate performance. The CNC machined steel metering cylinder features a micrometer adjustable thimble with reference lines so resetting the measure is easy. The reservoir is equipped with a powder baffle which maintains a consistent powder level for top accuracy. Includes two drop tubes to cover the full range of calibers.

- Micrometer adjustment
- Ambidextrous metering cylinder/handle
- Multiple handle angle positions for optimum comfort
- CNC machined steel metering cylinder
- Includes powder baffle
- Machined with 7/8" x 14 threads to fit all presses and stands

Brass Smith Powder Measure (#7767700) \$62.50

Brass Smith Precision Funnel Set

Lyman's Precision Funnel Set is the "Perfect" system for the serious reloader. The Brass Smith Precision Funnel Set is made to be completely static free, no more powder clinging to surfaces which can happen with lightweight plastic funnels. The solid construction and quality of the Brass Smith Precision Funnel Set will be apparent in its first use. This is no "one size fits all" funnel, the Brass Smith Precision Funnel Set uses precision machined, caliber specific inserts to properly fit the case neck. The inserts can be quickly and easily installed by simply pushing them into place and then pulling them out when changing calibers. The Brass Smith Precision Funnel Set also comes with a padded storage case that neatly stores extra inserts when not in use.

The funnel comes with inserts for 22, 243/6mm, 25/6.5mm, 270/7mm, 30 and 338 caliber rifle cartridges.

- Static Free aluminum die cast body and turned aluminum components
- Precision fit, CNC turned aluminum inserts for calibers 22 to 338
- Inserts are quick and easy to install and remove
- Convenient handle
- Includes padded storage case
- Inserts are laser marked for caliber identification

Brass Smith Precision Funnel Set (#7752432) \$29.95

Competition Powder Baffle included with Standard 55 & 55 Classic Powder Measure

The 55 Powder Measure's unique 3-slide metering bar can precisely dispense any load from the smallest pistol to the largest rifle with simple adjustments - no need to change slides.

No. 55 Adjustable Powder Measure 

This powder measure dispenses charge after charge of powder with consistent accuracy to a fraction of a grain. The key to unfailing precision is the 55's unique three slide adjustable cavity. Extra fine adjustments of width and depth provide consistent charges with almost any powder. A 2400 grain reservoir resists chemical action and protects your powder from harmful light rays. An attached knocker assures a complete charge every time. Mount the 55 on your bench or any turret press. No funnel is required. Includes a 7/8" x 14 thread adapter for press or stand mounting.

No. 55 Measure (#7767783) \$119.95
 Optional 7000 grain reservoir (#7998299) . . . \$11.00

Competition Powder Baffle

Consistent powder drops from the powder measure requires a uniform powder pressure on the rotor. The powder baffle maintains this consistent powder pressure even when the powder hopper is low. Included with all Lyman 55 Powder Measures.

Baffle (#7767758) \$9.95

Powder Pal™ Universal Funnel Pan

An innovative product for the reloader. The One Piece Combination Powder Pal Funnel Pan. This unique Funnel Pan saves time by saving one step during reloading. It is no longer necessary to put the funnel on the cartridge case and pour the powder in. Just pour it directly from the Funnel Pan into the case. Every reloader with an electronic scale will want to replace the powder pan with a time saving Powder Pal Funnel Pan. More innovations from Lyman. For use with electronic scales only. (US Patent # D568436)

Funnel Pan (#7752433) \$8.25

Brass Smith Powder Measure Stand

Lyman listened to the suggestions of our customers and have redesigned our powder measure stand. The new Brass Smith Powder Measure Stand can be mounted firmly to either a bench top or to a wall. Features standard 7/8"x 14 threads and will raise any measure high enough to easily position cases beneath the powder drop tube. Made of tough die cast aluminum.

Powder Measure Stand (#7767788) \$29.95

The 55's unique rear mounting clamp maximizes mounting versatility.

E. 55 Classic Black Powder Measure 

Redesigned for both smokeless and black powder. The internal metering bars rotate in a non-sparking brass sleeve. A large non-static aluminum powder reservoir holds a pound of black powder. The unique three-slide adjustment bars are the key to consistent accuracy from small pistol charges to the largest rifle charges with accuracy to a fraction of a grain. Handles up to 200 grains. Mounts on the bench or directly on a press or powder measure stand and includes a 7/8 x 14 adapter. 55 Classic with 24" drop tube (#7767775) . . \$199.95

 **WARNING:** Cancer and Reproductive Harm

(Shown Setup for Left-Hand Use)

Brass Smith™ 500 Metal Reloading Scale

The Lyman Brass Smith 500 Metal Reloading Scale offers all of the features that serious reloaders are looking for. The Brass Smith 500 is built upon a sturdy aluminum body which reduces vibrations and ensures accuracy. The beam is double sided and the pan has two handles making it easy for right or left handed reloaders to use. In addition, the beam features black markings with a white background for easy reading throughout its 505 grain capacity. The scale also features magnetic dampening and precision ground knife edges for fast, smooth and accurate operation. Each scale is carefully calibrated at the factory and is accurate to plus or minus 1/10 grain.

500 Reloading Scale (#7752225) \$99.95

Full range of height adjustment handles any reloading scale.

E-ZEE Flo™ Universal Powder Trickler

Now the first powder Trickler that works with any reloading scale. Lyman's E-ZEE Flo accessory powder Trickler features an adjustable base that adapts to even that highest scale platform. Powder Trickler tube has an extension that allows use with electronic scales that have larger platform bases. The combination of the two adjustments allows use with any scale, mechanical or electronic.

Powder Trickler (#7752477) \$27.50

E-ZEE™ Powder Funnel

Redesigned with all of the latest cartridges in mind, the specially designed powder nozzle of this funnel handles everything from the smallest .22 up to the big .50 calibers. Including the Super Short Magnums.

Funnel (#7752431) \$6.25

Gen6™

Compact Powder System

Extra Large, easy-to-read LCD Display

Quick drain to change powders

Gen6™ Compact Touch Screen Powder System

The compact Gen6 design takes a minimum of bench space and offers unrestricted pan and touch screen access for both right- and left-hand users. Accurate to one tenth grain, The Gen6 dispenses all types of smokeless powder at two grains per second. In addition, it features an auto repeat function that drops a precise charge each time the pan is reset.

Based on totally new digital technology that overcomes problems commonly experienced by older designs, the system is packed with additional state of the art improvements like fast, 3-minute warm-up, new anti-static and anti-drift technology and both have electronic shielding to resist interference from other electronic devices like cell phones, etc.

- 1500 Grain Capacity
- New Touch Screen Controls
- New Compact Size - Uses 50% Less Bench Space!
- Auto Repeat Function Drops Charges Each Time Pan Is Reset
- Fast Operation - Dispenses 2 Grains Per Second
- Easy To Use Controls and Powder Pan Access for both Right and Left Hand Users
- New Anti-Static/Anti-Drift Technology
- New Electronic Interference Shield Resists Interference from Cell Phones, etc.
- Quick-Drain Powder System for Easy Powder Changes

Gen6 (#7750550)(115/230V) \$299.95

Pocket Touch™ Digital Scale Set

The Pocket-Touch 1500 offers full size performance in a very compact, portable design. The scale is just 2¼" x 4¼" x ¾" yet provides advanced touch screen controls and a full 1500 grain capacity. The scale comes with our patented Universal Funnel Pan, powder scoop and calibration weight. The unique Funnel Pan allows powder charges to be poured directly from the pan into the case. No need for a separate funnel. The scale has an easy to read, lighted display, is powered by (2)AAA batteries (included) and has an Auto Shut-off.

- Touch Screen Controls – On/Off, Tare, and Mode/Calibration keys
- 1500 grain capacity
- Universal Funnel Pan – combines a pour spout and a funnel end which accepts 20 caliber to 50 caliber cases
- Built-in, hinged dust cover
- Operates in grains or grams
- Handy powder scoop included
- 100 gram calibration weight included
- Easy to read, lighted, digital display

Pocket Touch (#7750725)(115/230V) \$32.95

Which Scale Fits Your Reloading Needs?

Features a Handy Pop-Out Tray for Storage!

Accu-Touch™ 2000 Electronic Reloading Scale

The Accu-Touch 2000 reloading scale from Lyman offers many revolutionary features. It comes with a removable powder trickler that can be mounted on the scale in a right or left-hand position. Unlike most competitive scales, the Accu-Touch 2000 is accurate to within 1/10 of a grain over its full, extra large, 2000 grain capacity. It works in either grain or gram mode. The handy pop-out tray on the back stores all your accessories, and the fold back dust cover keeps the scale protected. Also includes calibration weight, Universal AC Adapter, and cleaning brush. It will also run on a 9V battery (not included).

- New Touch Screen Controls
- 2000 Grain Capacity
- New Anti-Drift Technology Assures Accuracy to 1/10 Grain
- Includes Removable Powder Trickler that Works in Right or Left-Hand Position
- Includes Powder Brush & Universal AC Adapter
- Handy Pop-Out Tray Stores Accessories
- Fold Back Dust Cover to Protect Scale
- Grains or Grams

Lee & Redding
Shellholders

Change primer size instantly
and use any shellholder you
already have.

Ergonomic shape
designed to minimize
hand fatigue.

Comes with large and
small size primer tray/
primer punch
assemblies.

E-ZEE Prime™ Hand Priming Tool

Lyman has introduced a dramatic improvement in hand-held priming systems: The E-ZEE Prime Hand Priming Tool. The system works with any popular brand of shellholder and allows instant changeover between primer sizes. Lyman's E-ZEE Prime Tool includes two primer trays, each of which incorporate their own built-in large or small primer punch assembly. There are no small parts to fuss with or lose. Each tray has a built-in shut-off gate to keep primers in place during change-over. The reloader simply removes the snap-in-place lock collar and installs the correct sized primer tray and his standard shellholder as needed. Then the lock collar is snapped in place and the change-over is complete. The primer trays also function as a primer flipper to properly orient primers for seating.

In addition, the tool has a comfortable ergonomic design that works with the tool's optimized leverage system to reduce hand fatigue.

- Ergonomic shape designed to minimize hand fatigue
- Accepts all popular brands of standard shell holders, including Hornady, RCBS, Redding, and Lee Precision
- Plenty of leverage, yet provides needed "feel" for precision primer seating
- Integral primer tray and primer punch assembly - no small parts to lose
- Comes with large and small size primer tray/primer punch assemblies
- Primer tray has a built-in shut-off gate to prevent spilling primers
- Primer tray doubles as a flipper to orient primers for use

Lyman Stuck Case Remover Kit

The Lyman Stuck Case Remover will safely and easily remove stuck cases from sizing dies. Unlike other sets, all the tools that are needed are included. The set includes a unique dual purpose threaded cap that screws over the end of the die. This cap acts as both a drill guide and a guide for the pulling screw. An extra-long hex wrench is included which provides plenty of leverage when removing stuck cases and also doubles as a handle for the tap wrench.

- Set includes threaded cap, tap drill, ¼-20 tap, hex screw, long hex wrench, and tap wrench.
- Everything needed is included in the set
- Included unique dual purpose threaded cap
- Long hex wrench provides plenty of leverage and doubles as a tap wrench handle
- Packed in an easy to display clam shell with full instructions

Creedmoor Neck Size Dies and Die Sets

The 6.5 Creedmoor cartridge has established itself as one of the top performing long range rounds available. The new 6mm version is also quickly making its mark in precision long range shooting. To go along with our standard 6.5 Creedmoor die set, we are now offering an accuracy enhancing separate neck sizing die in this caliber. We are also introducing both a standard two die set and a neck sizing die for the 6mm Creedmoor.

- Available for 6.5 and 6mm Creedmoor
- Two die sets and separate neck sizing dies
- Top quality, all steel construction
- Neck sizers maintain fired case dimensions for perfect chamber fit and improved accuracy

6mm Creedmoor Neck Size Die Only (#7135128)	\$38.95
6.5 Creedmoor Neck Size Die Only (#7135130)	\$38.95
6mm Creedmoor 2 Die Rifle Set (#7452361)	\$50.05
6.5 Creedmoor Deluxe Rifle 3 Die Set (#7680252)	\$85.95

WARNING: Cancer and Reproductive Harm

Multi-Expand Charge Die System

Designed to save the pistol reloader time. The hollow expanders allow you to expand the case and drop powder at the same time with your powder measure mounted on top. Fits all standard powder measures.

Includes expander body, hollow expanders for .32, 9mm, 38/.357, 10mm/40 S&W, .41, .44 and .45 plus a non-expanding universal powder drop tube.
Multi-Expand (#7767901) \$47.95

Universal Decapping Die

The ideal die for decapping primers prior to case cleaning. **It has a unique one piece hardened steel decapping rod.** Perfect for military crimped in primers. Works on all calibers .22 thru .45 except .378 and .460 Weatherby. (Will not remove Berdan primers)

If you use a vibratory tumbler or sonic cleaner, this die provides the necessary first-step.
Decapping Die (#7631290) \$24.95

The first step before ultrasonic cleaning.

Ram Prime Die System

Designed for sensitive one-at-a-time primer seating on top of a press. Works with all 7/8" x 14 threaded presses. Includes large and small primer punches.
Ram Prime (#7728040) \$26.95

Tungsten Carbide Die

Pioneered by Lyman, these premium dies use a diamond hard, tungsten carbide ring to size straight walled cases. The T-C ring is so hard that clean cases can be smoothly sized without case lube. A real time saver.

Neck Size Die

A Neck Size Die allows the reloader to properly size the case neck for optional bullet tension, while maintaining the fireformed dimension of the case body. Accuracy is increased when the case body closely fits into the chamber. The Neck Size Die includes a decapping rod and steel expander button.

The Two-Step Neck-Expanding (M) Die

Improves accuracy of cast and jacketed bullet reloads. Doesn't stretch cases as does standard expander button. Extends case life. A "Must-Have" die for the cast or flat-base bullet user.

Many reloaders consider Lyman's Neck Expanding (M) Die a valuable tool for improving the accuracy of their reloads. The die's expander plug has two steps. (See illustration)
(See charts pg. 22-23)

1) The first step expands the inside of the case neck to just under bullet diameter for precise case neck tension in the finished reload. (See Illus. A.)

2) The second step expands the case mouth to bullet diameter or slightly over. This allows the jacketed or cast bullet to be started perfectly centered in the case mouth and properly aligned with the axis of the case neck. (See Illus. B.)

NOTE: By adjusting the neck expanding plug slightly deeper, Step 2 also provides a slight flaring of the case mouth for reloaders using cast bullets. (See Illus. C.)

(See Die Charts pages 22-23 for complete listings)

Classic Rifle Calibers

Cowboy shooting and the fine reproduction Sharps and other classic rifles have generated new interest in shooting the "obsolete" rifle calibers. But the custom reloading dies needed for these fine guns have been expensive and hard to find.

Lyman's Classic Rifle Die Sets have eliminated all the problems of costly custom dies. Lyman's die sets are available in the popular Sharps calibers listed below. These standard 7/8" x 14 3-die sets will fit all popular reloading presses and include Lyman's popular "M" 2 Step neck expanding die.

Caliber	Part No.	Caliber	Part No.
40-60	#7460507	45-90	#7460499
40-65	#7460490	45-120-3 1/4	#7460506
45-75	#7460509	56-50 Spencer	#7460497

Price \$75.95

Black Powder Neck Size Dies

Classic rifle shooters rely on Lyman's neck size dies to retain the fireformed case dimensions. By not overworking the brass, these dies produce superior accuracy and extend the life of expensive shells. These neck size dies are available in the following sizes:

40 Cal. (40-65, 40-70 Sharps Straight) . . (#7135055)

45 Cal. Short (45-70, 45-90, 45-100) . . . (#7135057)

45 Cal. Long (45-110, 45-120) (#7135059)

Price. \$38.95

Black Powder Taper Crimp Dies

BP cartridges require compression for proper ignition. This requires firm neck tension to hold the bullet without damage. The Taper Crimp Dies have a minimum taper that allows the reloader to apply the proper neck tension without damaging the bullet for best accuracy.

40 Cal. (40-65, 40-70 Sharps Straight) . . (#7153120)

45 Cal. Short (45-70, 45-90, 45-100) . . . (#7153124)

Price. \$28.95

Deluxe Neck Size Dies with Carbide Expander Button

The Lyman Deluxe Neck Sizing Die features a precision machined and hardened die body along with a super hard and slick carbide expander button. The expander button also free floats on the rod to allow it to self-center in the case neck and the slick button easily passes through the case neck. The result is a die that will reduce case stretching, increase case life and provide enhanced accuracy for the reloader. (see page 21)

Taper Crimp Die

A Taper Crimp dies apply the proper taper crimp to pistol cases. Essential for proper function in auto pistols. Unlike some other die manufacturers, we feel that taper crimping is best done in a single purpose die station. Just add the taper crimp die to your current die set for a complete progressive reloading die set.

Each Taper Crimp die is heat treated to an RC50 minimum surface hardness. The interior is hand polished before and after heat treat to an 8 rms finish. (see pg22)

 **WARNING:** Cancer and Reproductive Harm
www.p65warnings.ca.gov

Two Sets in One!

Lyman gives you both full length and neck sizing in one set!

Deluxe 3-Die Rifle Sets

Lyman's Deluxe 3-Die Rifle Sets give reloaders all the options they need to enhance the accuracy of their reloads and extend the life of their brass. By adding both a premium Carbide Expander Assembly and a Neck Sizing Die, Lyman has created two die sets in one. Neck sizing eliminates over-working the brass, dramatically extending case life.

The set includes:

- **Deluxe Carbide Expander Assembly**, with a free floating carbide sizing button, which smooths neck expansion by moving the button up the decapping rod to better use the press' leverage. It eliminates the need for inside neck lube.
- **Neck Sizing Die** which allows the case to retain the precise chamber dimensions of the individual rifle while avoiding excessive working of the brass.
- **Standard Full Length Sizing Die** for taking brass down to factory Dimensions.
- **Standard Bullet Seating Die**

Deluxe 3-Die Rifle Sets:

Deluxe Carbide Expander/Decap Die Rod Complete

The Lyman Deluxe Carbide expander and decapping rod assembly features a super hard and slick carbide expander button with an adjustable positioning sleeve. The carbide button will offer easier extraction through case necks, which will help prevent case stretching and lessen case trimming. This will provide greater case life. The carbide button also floats free on the rod to allow for self-centering in the case neck. The button can be adjusted into two positions on the rod. This will allow it to be positioned for various cases of given calibers. It will also allow the user to adjust when the button pulls through the case neck so the press linkage can be positioned for better leverage. **Includes adapter for use with RCBS dies (#7126015).**

- Super hard and slick carbide expander button
 - Fits all Lyman rifle sizing dies
 - Carbide button can be adjusted for height
 - Carbide free floats on the rod for self-centering in case necks
 - Replaceable decapping pin

Already have a full length die set? The Deluxe Carbide Neck Size Die is available separately so you can upgrade your current dies for maximum accuracy potential. The Deluxe Carbide Expand and Decap Rod assembly can also be purchased individually to fit both Lyman and RCBS Rifle sizing dies.

Deluxe Neck Size Dies with Carbide Expander Button

Lyman's Neck Size Die with carbide expander button enhances the value of any manufacturer's standard die set and eliminates the need to full-length resize and overwork the brass. It will also provide better accuracy - ask any target shooter! Use the full length sizing only when you need to.

The Lyman Deluxe Neck Sizing Die features a precision machined and hardened die body along with a super hard and slick carbide expander button. The expander button also free floats on the rod to allow it to self-center in the case neck and the slick button easily passes through the case neck. The result is a die that will reduce case stretching, increase case life and provide enhanced accuracy for the reloader.

Lyman® Precision Die Sets

Reloaders want volumes of reloads which deliver consistent quality. When it comes to precision, smoothness and versatility, Lyman Precision Dies are unsurpassed. Each sizing die is vented, polished, heat treated for toughness and receives a final micro-finish polish for extra smoothness. Lyman pistol die sets feature only solid, premium Tungsten Carbide sizing rings. They also include a one piece solid decapping rod made from hardened, heat treated tool steel that will not crack, even when depriming cases with crimped primer pockets.

Remember, Lyman dies fit all popular presses using industry standard 7/8" x 14 threads, including RCBS, Lee, Hornady, Dillon, Redding and others. Whether 2-, 3- or 4-die sets, these dies deliver round after round of the high performance ammo serious shooters demand.

3-Die Carbide Pistol Die Sets

Lyman was the originator of the Tungsten Carbide (T-C) sizing die and "Multi" concept with the addition of extra seating screws for pistol die sets. Combined with another Lyman original - the two step neck expanding die, our Multi-Deluxe Die Sets offer these features: a one piece hardened steel decapping rod and extra seating screws for all popular bullet nose shapes, and all steel construction.

Premium Carbide 4-Die Sets

In addition to all the features of our three die sets, the Premium Carbide 4-Die Sets also include a separate taper crimp die. The 4-die set is perfect for those loading pistol calibers that headspace on the case mouth.

Rifle 2-Die Sets

Set consists of a full length resizing die with decapping stem and neck expanding button and a bullet seating die. These die sets are the reloader's best choice for loading jacketed bullets in bottlenecked rifle cases. For those who load cast bullets, we suggest the addition of a neck expanding die, available separately.

Rifle 3-Die Sets

Straight wall rifle cases require these three die sets consisting of a full length resizing die with decapping stem, a **two step neck expanding (M) die** (described on pg 20) and a bullet seating die. These sets are ideal for loading cast bullets due to the inclusion of the neck expanding die.

Decapping Rods and Assemblies

Pistol rods are available in two styles; our original (threaded) rod unit with replaceable decapping pins and our one piece system. This decapping rod is a stronger one piece design with a hardened pin. All pistol dies are currently equipped with this rod. Rifle dies have an improved centering system requiring two different decapping rod lengths, 3.5" or 4.25", depending on caliber of the die. When ordering decapping assemblies, please indicate length or style required.

Pistol

- Decapping Rod Unit (with Replaceable Pin)(#7129001) . . \$5.50
- One Piece Decapping Rod(#7990524) \$4.50

Rifle

- Decapping/Expanding Unit (state caliber) Call for pricing
- Rod Only 3 1/2" (#7126011) \$3.50
- Rod Only 4 1/4" (#7126012) \$3.50

Universal Decapping Die Rod only

- (#7990528) \$4.50

Decapping Pins

- Package of 10 (#7837786) \$5.00

Special Die Accessories

Split-lock Ring 

- Popular steel split ring. Fits all 7/8" x 14 dies
- (#7631304) \$4.95

New Style -7/8" Hex Nut

- Works with Bench Wrench (#7990119P) \$3.15

Die Boxes

- Durable plastic box with snap lock hinged cover
- For Die Set (#7980399) \$3.25

J to X Shell holder Adapter

- For use with Lyman's older presses which used the older J-Type shell holders.
- Converts press to use current X-Type shell holders
- (#7095762) \$17.50

Special T Priming Punch

- Required when using J to X shellholder adapter to seat primers in older style presses. Includes both large and small punches and sleeves.
- (#7095763) \$11.00

7/8 x 14 Adapter

- For use in converting 310 dies for use in current 7/8 x 14 presses. Also mounts Model 55 Powder Measure to press.
- (#7392036) \$9.50

Shellholder Set

We have selected the 12 most used shellholders which fit the most popular pistol and rifle calibers and place them into a handy compartmented storage box. This set includes shellholders #1, 2, 6, 7, 11, 12, 13, 14B, 15, 17, 22 and 26 which fit well over 75 different calibers. (See reference chart for calibers). Best of all, this will save 60% over buying individual shells.

Shellholder Set with Box (#7712110) \$48.95

12 piece Shellholder Set

Best Value!
Save 50% Over individual Purchases

AR Reloading Handbook

The first reloading handbook dedicated exclusively to the most popular modern semi auto rifle and it's many variants. This comprehensive handbook provides the AR shooter with reloading data for nearly all AR based calibers. In addition the standard .223, also covered are: 6.8 Rem, 300 AAC, 7.62x39, 450 Bushmaster, 50 Beowulf and more.

Interesting articles by well known and popular firearms journalists are also included. These cover such areas as "Reloading for Suppressors" and "Cartridge Interchangeability". Finally all this AR data is presented in a full size, easy-to-use 8½" x 11" format. This is required reading for any AR shooter.
AR Reloading Handbook (#9816045) \$17.00

Cast Bullet Handbook, 4th Edition

The first new cast bullet data manual in 30 years contains data using the latest and most available components for bullet casters. In addition to data for Lyman's entire line of rifle and pistol moulds, the Cast Bullet Handbook includes data for selected moulds from other manufacturers. Like Lyman's other popular handbooks, this large edition covers valuable "how-to" editorial as well as important articles by acknowledged authorities in the field.
Cast Bullet Handbook (#9817004) \$30.50

Lyman Black Powder Handbook, 2nd Ed.

Edited by Sam Fadala, this is the most comprehensive black powder manual available. It includes thousands of pressure tested loads, along with a large assortment of round balls, conicals and sabots. Down range velocities and energies are also given for each load. Topics also covered include: choosing your muzzleloader, building the best loads, propellants, ignition, maintenance and black powder cartridges. There are also hundreds of pressure tested black powder cartridge loads for larger calibers.
Black Powder Handbook (#9827100) \$24.50

Lyman Pistol & Revolver Handbook, 3rd Ed.

The most complete handgun reloading data, encompassing all major brands of bullets, powders and primers. More than just data charts, this handbook also contains a number of captivating feature articles by well-known writers covering such popular subjects as: Cowboy Action shooting, loading for big bore revolvers and handgun varmint hunting.
Pistol & Revolver, 3rd Ed. (#9816500) \$24.50

The Lyman Shotshell Handbook, 5th Ed.

This is the most complete and up-to-date shotshell reloading manual available. It covers cases, wads, and primers currently offered by all leading manufacturers in all gauges from .410 to 10 gauge. Non-Toxic Data Section covers steel, bismuth and Hevi-Shot, plus complete how-to load instruction. Slug and Buckshot Loads are covered too, plus a how-to-load section.
Shotshell Reloading Handbook (#9827111) \$26.50

Lyman Reloading Data Log

The Lyman Reloading Data Log is a must for shooters who reload. The large, easy-to-use format has plenty of room to enter all important data such as bullet, powder, primer, case, firearm used, plus size, velocity, conditions and several lines for comments on your reloads. Large 8 1/2" x 11" size. 50 pages per log.
Reloading Data Log (#9847261) \$7.95

Reloading and Cast Bullet Users Guide

This booklet is filled with complete information on getting started in Reloading and Bullet Casting. It also includes detailed product instructions and parts drawings for Lyman presses, trimmers, scales, powder measure and tumblers.
Users Guide (#9837283) No charge

Lyman Load Data Series

Lyman's load data is now available by caliber or category in handy books. The Load Data Books are ideal for the reloader who only wants to reload for select calibers. Like all Lyman Handbooks, these cover all popular brands of powder, primers and bullets, even cast bullets. They are the perfect way to survey which components and loads to select before reloading a new cartridge. Lyman Load Data Booklets include:

- 12 Gauge (#9780000)** \$6.95
12 ga. 2¾" Target & Field Loads
- 20, 28, 410 Gauge (#9780002)** \$6.95
20ga. 2¾", 28ga 2¾", 410 Bore 3", 410 Bore 2½"
Lead Shot Data
- Semi-Auto Pistol (#9780004)** \$6.95
380 Auto, 9mm Luger, 40 S&W, 45 ACP
- Popular Revolver (#9780006)** \$6.95
38 Spec, 357 Mag, 44 Mag, 45 Colt
- Popular Varmint Calibers (#9780008)** \$6.95

- 338, 8mm Calibers (#9780018)** \$6.95
325 WSM, 338 Fed, 338 Win Mag, 338 Lapua
- Big Bore Rifle Calibers (#9780022)** \$6.95
375 H&H Mag, 416 Rigby, 416 Wea, 458 Win, 460 Wea.

Lyman 50th Edition Reloading Handbook

For more than a century, the Ideal and then Lyman handbooks have been the reloaders' core resource for proven reloading data. Lyman pioneered the concept of delivering a wide range of components to use in generating safe, accurate loads. As reloading has grown, so have Lyman handbooks, with each edition eclipsing its predecessor, growing in size and quantity of data and becoming an important addition to every serious reloader's library.

Lyman's 50th Anniversary Edition continues our heritage as being the proven source for reloading data. Lyman handbooks have always used the widest selection of cartridges, bullets and powder from all the major manufacturers. This 50th Edition continues our tradition of being the only data source using multiple brands throughout our data.

- New Cartridges Included: 17 Hornet, 6.5 Grendel, 6.5 Creedmoor, 6.5-284, 26 Nosler, 28 Nosler, 300 Blackout, 300 RCM, 338 RCM, 450 Bushmaster, 458 SOCOM, 50 Beowulf
- Largest Selection of Bullets: Barnes, Hornady, Remington, Sierra, Speer, Swift and Winchester plus full selection of Cast Bullets
- Wide Range of Popular Powders: Accurate, Alliant, Hodgdon, IMR, Ramshot, VihtaVuori and Winchester
- Feature Articles by Top Gun Writers and Firearm Industry Experts
 - "Barrels – Looking into the Unknown" by Ryan Newport
 - "Advanced Case Preparation Techniques" by John Haviland
 - "What is a Ballistic Coefficient and How Do You Use It?" by Dave Emary and Lane Pearce
 - "The History of Modern Lyman Handbooks" by Ed Matunas, Ken Ramage and Tom Griffin
- New Full Color Edition - The 50th Anniversary edition is our first reloading handbook produced in full color

50th Reloading Handbook Hardcover (#9816050) \$41.98
 50th Reloading Handbook Soft cover (#9816051) \$31.98

Long Range Precision Rifle Reloading Handbook

One of the fastest growing shooting sports in the country is precision long range rifle shooting. The Precision Rifle Series and Extended Long Range matches are being held all over the country and industry leaders are producing numerous rifles, scopes, bi-pods, and other accessories for this exciting sport. One area that has been lacking however is reliable reloading data, until now!

- Specific data for precision long range cartridges including: 223 Rem., 6mm Dasher, 6x47 Lapua, 6XC, 6mm Creedmoor, 243 Win., 6.5x47 Lapua, 6.5 Creedmoor, 260 Rem., 6.5-284 Norma, 308 Win., 300 Win Mag, 300 Norma Mag and 338 Lapua.
- Target bullets from Berger, Lapua, Sierra and Hornady
- Includes pressure and velocity data
- Articles by top PRS shooters and industry experts
- Printed in full color format

Cyclone™ Rotary Tumbler

The Cyclone Rotary Tumbler takes brass cleaning to a whole new level. The rotary tumbling action combined with the stainless steel media and liquid cleaning solution gets brass cleaner on the outside than vibratory tumbling methods. The small stainless pins easily slip inside cases and into primer pockets to provide superior cleaning action in these areas. Something that a vibratory tumbler will not do! The large capacity drum holds up to 1000 pieces of .223 brass and features a rubber lining to protect brass and greatly reduce noise during operation. A built in timer in the base can be set to run from 0 to 3 hours, shutting off automatically. The drum features a large end cap to allow easy loading and unloading.

In addition, the tumbler comes with a pair of unique sifter pans which makes separating pins from the cases a breeze! Simply empty the tumbler into the stacked pans. The first pan catches the brass, while the second fine screen pan catches the pins. Five pounds of stainless media pins and a sample packet of Brass Cleaning Solution are also included.

- Cyclone Rotary Tumbler 115V (#7631550) \$259.95
- Cyclone Rotary Tumbler 230V (#7631551) \$300.00

The following items are INCLUDED with the Lyman Cyclone™ Rotary tumbler, but also available separately for use with other tumblers.

- Dual Sifter Set (#7631314) \$31.95
- Stainless Steel Cleaning Media 5lbs (#7631375) \$53.50

The Cyclone™ Rotary Tumbler has everything you need to get started: it includes 5 pounds of stainless steel media pins and sample packet of cleaning solution, as well as the unique Dual Sifter System.

Stainless Steel Pin Magnet

Lyman's Stainless Steel Pin Transfer Magnet is the answer for separating your cases from the media pins in rotary tumblers. Simply pass the magnet over the mixture of cases and pins and the pins will be pulled out and grabbed by the magnet. To release the pins, just pull up on the handle. The large diameter, strong magnet will collect many pins in a single pass. Fast, convenient and simply to use! A perfect companion for the Lyman Cyclone Rotary Tumbler and other brands of rotary tumblers.

- Stainless Steel Pin Magnet(#7631370) \$18.95

Rotary Tumbler Cleaning Solutions

- Case Cleaning Solution 16oz (#7631705) \$18.50
- Case Cleaning Solution 32oz (#7631714) \$28.95

Lyman's Dual Sifter System separates pins from cases better than any other system. The first pan catches the brass, while the second pan catches the pins. Separate cases and media, all in one step!

Cyclone® Case Dryer

The perfect companion to any Ultrasonic or Rotary cleaning system. No longer will it be necessary to have to wait days for your brass to air dry! The forced heated air circulation of the Cyclone will dry your brass inside and out within an hour or two, with no unsightly water spots. The individual trays can keep your different caliber cases separate. Additionally, the dryer can also be used for gun parts that have been ultrasonically cleaned.

- Holds up to 1000 – 223 cases or 2000 – 9mm cases
- 3 hour timer
- Recessed handles on trays for easy loading and unloading
- Fast drying time
- 12" L x 9.5" W x 10.75" H (with 5 trays)
- Works with brass cases or gun parts
- Durable and long-lasting ABS trays
- Max temp 150 degrees Fahrenheit

Cyclone® Case Dryer 115V (#7631560) \$77.50
 Cyclone® Case Dryer 230V (#7631561) \$92.50

 Replacement or Extra Basket (#7631708) \$25.75

TurboSonic® Cleaning Solutions & Accessories

Cleaning with ultrasonics requires the correct solution for the specific cleaning application. Lyman has partnered with a renowned chemical research team to develop a broad line of superior solutions for use with any of today's new ultrasonic cleaners. Our TurboSonic Case Cleaning Solution is formulated to deliver superior results - inside and out.

Our Gun Parts Solution is the perfect choice for steel and stainless steel parts such as barrels, cylinders or other parts and tools.

For high volume gun cleaners, we have expanded our line of ultrasonic solutions with our new gallon size TurboSonic Steel Cleaner. Follow that up with Lyman Gun Lube, available in handy 1 gallon or even 5 gallon cans. The Steel Cleaning Solution and the Case Cleaning Solution are also available in 4oz, 16oz and 32oz bottles.

Ultrasonic cleaners are also great for cleaning jewelry! For the Sportsman who also wants to use a Lyman TurboSonic to clean fine jewelry or other valuable items, Lyman offers a special 16oz jewelry cleaning solution.

Model	Tank Size	Capacity	Timer	Heater	Drain Valve	Fits 9mm # Cases	Fits 223 # Cases	Fits 30-06 # Cases

*The Power Pro Accessory Lube Tank delivers ultrasonic lubrication
without draining the cleaning solution*

**TurboSonic®
Power Professional**

Designed for high volume cleaning or for larger than normal items, the TurboSonic Power Pro's 34.75" heated stainless steel tank can easily handle most barreled actions, upper receivers, as well as several handguns at a time. The powerful industrial transducers aggressively deep clean and degrease items, both inside and out. In fact, the Power Pro is such an effective cleaner that Lyman recommends that cleaned parts immediately be ultrasonically treated with Lyman's TurboSonic Gun Lube. Changing from cleaning to lubrication is easy with the built in drain system. Lyman now offers both cleaning concentrate and parts lubricant in gallon containers.

For complete control of the process, the Power Pro has both a timer and an adjustable heat control. Temperatures up to 175 degrees can be selected.

TurboSonic Power Pro (115V) (#7631734) . \$2195.00
Replacement or Extra Basket (#7631745) . . . \$154.50

Power Pro Accessory Lube Tank

Now, users of Lyman's industrial strength Power Pro ultrasonic cleaner can easily and completely lube parts without draining the cleaning solution from the unit. This rugged, stainless tank is designed to sit in the Power Pro's cleaning tank which remains filled with cleaner. The unit's powerful ultrasonic action is transmitted through the cleaning solution into the accessory tank filled with lube. No tank draining or cleaning needed. 2 gallon capacity.

- Allows firearms to be lubricated without draining cleaning solution
 - Side brackets support the accessory tank allowing it to sit in the cleaning solution, transferring the ultrasonic action to the lube
 - Tough, welded metal construction
 - Large handles make moving the tank easy
 - Huge time savings when cleaning multiple firearms
- Power Pro Accessory Lube Tank (#7631739) . . \$410.00

2200 Auto-Flo™ Tumbler
The Original Auto-Flo™

The 2200 features a high strength “Ultra-Thick” Roto Molded bowl which will last as long as you own your tumbler. The 1.5 gallon capacity is ideal for the large volume user and can clean 750 .38 Special cases in one cycle. The 2200 also features a clear see-thru lid for inspecting cases during cleaning. A media drain pan is also included.

- 2200 Auto-Flo 115V (#7631601) \$184.95
- 2200 Auto-Flo 230V (#7631611) \$205.00

2500 Pro Magnum Tumbler

Lyman’s Pro Magnum Tumbler is designed for the high volume reloader, and high volume reloaders are always looking for value. The two gallon capacity bowl is engineered to deliver powerful cleaning action even at full capacity. Handling up to 1000 .38 Special cases at a time, the heavy-duty motor and advanced drive system deliver fast cleaning and long life. For maximum convenience, Auto-Flo models are also available.

- 2500 Pro Magnum 115V (#7631692) \$112.00
- 2500 Pro Magnum Auto-Flo 115V (#7631697) . \$164.95

Flash Hole Cleaner

Designed to remove bits of media from flash holes and primer pockets.

Flash Hole Cleaner (#7777750) \$8.95

Brass Baggies

Allows you to keep different batches of cases separate during the cleaning process. Use inside Tumbler while cleaning.

Brass Baggies (12 pack) (#7631391)..... \$8.75

Turbo® Super Sifter

The new Turbo Super Sifter allows cases to be easily separated from media while positioned over 7, 5, 3 or 2 gallon pails. These commonly available pails make the perfect container for storing used media. The sifter is equipped with large handles to make it easy to use with large volumes of cases and media. The extra deep design prevents media from spilling over the edges when pouring case and media from a tumbler and when in use.

- Works with commonly available 7, 5, 3 and 2 gallon pails
 - Extra deep design keeps media inside the sifter and off the floor
 - Large handles make the sifter easy to use
- Turbo Sifter (#7631316) \$12.75

Turbo® Liquid Case Cleaner

Turbo® Case Cleaner is an excellent liquid pre-cleaner for extremely fouled cases. Also may be used as a wet media. Use manually or with a tumbler.

Case Cleaner (16 fl. oz.) (#7631340) \$2.95

Turbo® Brite Brass Polish

Turbo® Brite Brass Polish is ideal for use as an additive when using untreated Corncob or Nutshell. Works with treated media to bring brass to a high luster.

Brass Polish (5 oz. bottle) (#7631358) \$8.95
 Brass Polish (20 oz. bottle) (#7631361) \$24.95

Turbo® Charger Media Reactivator

Turbo® Charger Media Reactivator will restore previously used corncob media. Simply add as instructed directly to media.

Media Reactivator (4 oz. bottle) (#7631322) . . . \$8.50
 Media Reactivator (16 oz. bottle) (#7631324) . \$19.95

WARNING: This product can expose you to chemicals including Chromium oxide, which is are known to the State of California to cause cancer and/or birth defects or other reproductive harm. For more information go to www.p65warnings.ca.gov

WARNING: This product can expose you to chemicals including Hexavalent Chrome, which is are known to the State of California to cause cancer and/or birth defects or other reproductive harm. For more information go to www.p65warnings.ca.gov

Turbo® Case/Media Separator

Lyman puts a new “spin” on the media separator. Lyman engineers took a look at the media separators on the market and decided that they could do better. The result is a separator that incorporates many new features that makes the messy job of sifting media from cases much easier. The inner basket can be positioned to prevent it from moving as cases are poured in. The crank handle cover spins freely on the crank, making it much more comfortable to use. Improved latches provide a solid lock-up for the basket and the outer cover. The covers have interlocking edges to seal media and dust inside.

- Free spinning crank handle cover
 - Improved latches for a tight lock-up of the basket and cover
 - Can be used with either right or left hand
 - Tight seal to trap media and dust inside
- Media Separator (#7631326) \$41.95

! WARNING: This product can expose you to chemicals including Ethyl Benzene, which is are known to the State of California to cause cancer and/or birth defects or other reproductive harm. For more information go to www.p65warnings.ca.gov

Super Moly Finishing Accessory Set

The kit contains two heavy duty long lasting bowls, (which will fit the Lyman 600 and 1200 tumblers and most other brand tumblers,) six ounces (6oz) of Superfine Grade Moly, Moly plating media, and fine finishing media. This kit will coat many thousands of bullets. Coating instructions are included.
Accessory Set (#7631384) \$84.95

! WARNING: This product can expose you to chemicals including Crystalline Silica, which is are known to the State of California to cause cancer and/or birth defects or other reproductive harm. For more information go to www.p65warnings.ca.gov

Finishing Kit Replacement Medias

- (#7631381) Replacement Ceramic Media \$21.95
- (#7631392) Untreated Cob Media 6 lb Easy Pour \$17.95
- (#7631389) Untreated Cob Media 2 lb. \$9.95

A. Super Moly Bore Cream

This Superfine Moly bore cream is applied directly to the bore. Brushed into the pores of the rifling, it smooths and polishes the surface to a black, shiny friction-reducing finish. This reduces bore fouling and increases barrel life and accuracy.

Moly Bore Cream (#7631419) (3oz.) \$22.95

B. Super Moly Spray

Super Moly Spray coats bullets quickly and easily without the use of a tumbler. Simply spray on bullets and allow to dry for a few minutes. This thin spray coating can be used for Moly coating the bore and rifling of your firearm for total lubrication. It is also superb as a bullet mould release agent and rust preventative.

Moly Spray C. (#7631415) (13oz.) \$36.95

C. Super Moly “Superfine” Grade Moly Powder

This Superfine Grade Molybdenum Disulfide coats the bullets quickly with a bright, shiny finish that will not rub off on your hands. Coating instructions included.
Moly Powder (#7631412) (6oz.) \$42.95

Universal Trimmer®

Lyman's Universal Trimmer features the popular Universal Chuckhead which handles any case from .17 caliber to .458. No costly collets required! Features coarse and fine adjustments. Adjusting ring lets you "dial in to an approximate setting for quick repeatability". Includes 9 of the most popular pilots. Optional power adapter lets you upgrade to power in seconds. Universal Trimmer (#7862000) \$118.95

Universal Trimmer® Power Adapter

Quickly convert to power trimming. Replace the existing trimmer shaft with the power adapter shaft and attach your drill. You're ready to power trim over 250 cases an hour. The adapter shaft comes with its own cutter and stop collars so you can convert back and forth from power to hand operation. The power adapter only fits the Lyman Universal Trimmer. Power Adapter (#7862001) \$34.50

Universal Trimmer® Power Pack Combo

The Power Pack Combo combines Lyman's Power Adapter with Lyman's popular Universal Trimmer. This allows quick and simple conversion from hand to power trimming. All you need is a standard electric hand drill or power screwdriver. Simply unscrew the cutter head from the standard shaft and slide it out of the trimmer. Then slip the power adapter shaft in its place, screw on the cutter head and attach your drill. You're ready to power trim over 250 cases an hour. The adapter shaft comes with its own cutter and stop collars and includes 9 pilot multi-pack Power Pack Combo (#7862003) \$138.95

Best Buy!

AccuTrimmer™

Trims cases .17 through .458 Win. Mag. Uses standard shellholders to position cartridge and standard Lyman cutter heads and pilots. Includes our popular nine Pilot Multi-Pack. Purchase with shellholder set shown on page 25 and reloader has universal "trimability". AccuTrimmer Multi-Pack (#7862210) \$75.95

50 BMG AccuTrimmer™

An AccuTrimmer designed specifically for 50 BMG cartridges. The shell head fits into a special holder which centers the case with the cutting shaft. A special 50 BMG pilot is included for perfect alignment and easy trimming. 50 BMG (#7862130) \$89.95

Universal® Carbide Case Trimmer

This case trimmer adds the longer life and ultra-sharp cutting qualities of a carbide tool to Lyman's well-known Universal Trimmer. The Universal Carbide Case Trimmer takes advantage of the premium Carbide Cutter Head's fine grain and ultra-sharp cutting edge. This Carbide Head will hold its edge and dimensions longer, making this trimmer ideal for volume reloaders. Lyman's Universal Chuckhead handles any case from .17 caliber to .458 caliber with no collets or shell holders required and includes 9 of the most popular caliber pilots. E-ZEE Trim™ Hand Case Trimmer

The industry leader in trimming and case prep innovation, Lyman introduces a new case trimming system for the reloader interested in economy or preferring to have an individual precision hand system for each caliber. The E-ZEE TRIM case trimming system allows the user to trim cases by hand or with a power attachment (included) to precise pre-set length - no adjustment of measuring needed. The trimmer comes with a case locking device, cutter, trim-to length pilot, cutter head and both hand and power trimming adapters. The trimmer works with any standard shell holder including Lyman, Redding, RCBS, Hornady and Lee Precision. Assembles in seconds and you are ready to trim cases. The E-ZEE TRIM system comes in three practical variations to make it simple for the consumer and simpler for the trade to stock.

New improved drivetrain for quieter, smoother operation with greater torque. Smaller "footprint" takes up less bench space and a repositioned On/Off switch for easier access.

Case Prep Xpress™

Lyman, the industry innovator in case preparation for decades, provides the most complete electric case prep system ever developed. The Case Prep Express is the only "All-Inclusive" System offering all the most popular case prep accessories driven by a high torque gear motor. The Case Prep Xpress allows the user to simultaneously do 5 different case prep operations. Removable dump pan provides easy clean up of brass shavings. The best part is that all accessories are included from the start, no need to have to separately purchase expensive additional accessories. Included

Accessories:

- Inside Deburr (VLD) Tool
- Outside Deburr Tool
- Primer Pocket Uniformers (Small & Large)
- Primer Pocket Reamers (Small & Large)
- Primer Pocket Cleaners (Small & Large)
- Case Neck Brushes (25 Cal, 30 Cal, 38 Cal, 45 Cal)
- Case Neck Lube (Mica)
- Removable Brass Shavings Dump Pan
- Clean-up brush

Case Prep Xpress (115V) (#7810220) \$199.95
 Case Prep Xpress (230V) (#7810223) \$220.00

Ultimate Case Prep Kit

The Ultimate Case Prep Kit gives the reloader all of their necessary case prep tools in one handy organized storage case. The kit offers a great value compared to purchasing each item individually – a 40% savings! Everything is there to process cases after trimming as well as accuracy prep work for the most accurate reloads possible.

Kit Contains:

- E-ZEE Case Gauge™
- Magnum Inertia Bullet Puller with two collets (5.7 x 28FN - Largest Magnums)
- Extra Large Deburr Tool (Inside & Outside)
- Outside Chamfer Tool
- Flash Hole Uniformer
- VLD Chamfer Tool
- Small Primer Pocket Reamer
- Large Primer Pocket Reamer
- Small Primer Pocket Uniformer
- Large Primer Pocket Uniformer
- Small Primer Pocket Cleaner
- Large Primer Pocket Cleaner
- Nylon Case Neck Brushes: 25 Cal, 30 Cal, 38 Cal, 45 Cal plus handle for brushes
- Dry Case Neck Lube

Ultimate Case Prep Kit (#7810209) \$149.95

20mm Vulcan Case Prep Tool/Novelty Round

Lyman has machined the most unusual case prep tool available! Cut to the same dimensions as the 20mm round used in the famous Vulcan Rotary Cannon, the cartridge has a 8-32 thread in the base to accept case prep tools. It comes packed with large and small primer pocket reamers and cleaners. In addition, the round is hollow and can store the tools inside by unthreading the bullet from the case. When not in use, the round makes a great display piece and conversation starter! CNC machined from solid aluminum and anodized to resemble the real thing!

- Dimensioned the same as 20mm Vulcan ammo
- Doubles as a case prep tool
- Includes large and small primer pocket reamers and cleaners
- Bullet unthreads from the case to store case prep tools inside
- CNC machined from solid aluminum

20mm Vulcan Case Prep Tool (#777820) . . . \$31.95

A. Primer Pocket Reamers

Remove military crimps and rough metal edges from a primer pocket. Available in large and small sizes.
 Reamer Large (#7777785) \$11.95
 Reamer Small (#7777784) \$11.95

B. Primer Pocket Cleaners

Clean out fouling of primer pocket bottoms. Available in large and small sizes.
 Cleaner Large (#7777790) \$11.95
 Cleaner Small (#7777791) \$11.95

C. Primer Pocket Uniformers

This precision tool allows reloaders to assure uniform primer depth which produces consistent ignition and improves accuracy. Uniforming tool has a pre-set stop collar set to SAAMI specs. Reloader simply inserts and turns. Available in large and small sizes. (Large for rifle cases only, Small for rifle or pistol cases)
 Uniformer Large (#7810215) \$24.95
 Uniformer Small (#7810218) \$24.95

Large Pistol Primer Pocket Uniformer

The Large Pistol Primer Pocket Uniformer is designed to cut primer pockets to a uniform depth that can produce more consistent ignition and lead to greater accuracy. The Primer Pocket Uniformer cuts to a uniform depth and at the same time squares the seating surface for the anvil of the primer.
 Large Pistol Uniformer (#7810219) \$24.95

Universal Case Prep Accessory Set

This handy kit is the perfect accessory to your Universal Case Trimmer. It contains everything you need to properly complete case preparation, all in a durable storage case. Save over 30% versus individual purchases.

- Set includes:
- Large & Small Primer Pocket Cleaners
 - Large & Small Primer Pocket Reamers
 - Large & Small Primer Pocket Uniformers
 - Outside Deburring Tool
 - Inside Deburring Tool VLD

Case Prep Accessory Set (#7810212) \$78.50

D. Lyman VLD (Very Low Drag) Chamfer/Reamer

Lyman's VLD Chamfer/ Reamer eliminates damage to bullets caused by the sharp edges of the cartridge case neck. The long boat tail on VLD bullets are cut by the case mouth when chamfered with a standard 45 degree reamer. The sharp 22 degrees on the VLD reamer allows all bullets to slip easily into the case ensuring the best accuracy. Recommended for Sierra VLD and other manufacturer's VLD bullets.
 Chamfer/Reamer (#7777789) \$14.95

E. Outside Chamfer Tool

Bevels and removes burrs from the outside of the case mouth. Precision machined and hardened, fits all cases from .17 to .45 caliber.
 Outside Deburring Tool (#7810222) \$14.95

Carbide VLD (Very Low Drag) Chamfer/Reamer

For many years, the Lyman VLD Chamfer Tool has been extremely popular with reloaders due to its gentle 22 degree cutting angle. It cuts much easier than standard 45 degree angle reamers and works great for any long boat tail (very low drag) bullet designs. Now this popular tool is available in long lasting, super sharp carbide. The precision ground carbide tool will last a lifetime without showing any signs of wear, perfect for the high volume loader. The Carbide VLD Chamfer/Reamer will be available on our comfortable handle for hand held use or by itself for use in our Case Prep Express or other brands of case prep machines..

Carbide VLD Chamfer Reamer with handle (#7777792) \$48.95
 Carbide VLD Chamfer Reamer tool head only (#7777794) \$44.50

Ream/Clean Accessory Set

A set of threaded accessories for Lyman trimmers or utility crank. Includes L&S primer pocket reamers and cleaners plus adapters.
 Accessory Set (3 oz.) (#7777795) \$19.00

A. Quick Slick™ Pump Case Lube 
 Lyman's popular "Quick Slick" spray case lube is now available in a large and economical 16oz pump spray. The large ergonomic spray bottle allows you to spray an entire loading block of cases in seconds. Dries quickly to a light, clear film, and eliminates messy lube pads.
 Quick Slick Pump Spray Lube 16oz. (#7631298) . \$22.75

B. Lyman Loading Block
 Essential accessory for organization and speed, twin loading block holds 50 rifle or pistol cases. .22 through .45 caliber. Molded of heavy duty plastic.
 Loading Block (7 oz.) (#7728054) \$7.75

C. Case Neck Dipper
 Prolongs case life and makes resizing easier by cleaning and lubricating the interior of bottleneck cases. After cleaning with brushes, dip the case mouths into dry lube to reduce friction from sizing die expander button. Includes 3 brushes and dry lube for cleaning all cases from .17 to .45 caliber.
 Case Neck Dipper complete (2 oz.) (#7631360) . \$12.50
 Replacement. Lube Refill (3.4a) (#7991415) \$5.95

D. Quick Slick™ Case Lube 
 This petroleum based lube in a can allows you to spray an entire loading block of cases in seconds. Super slick lube helps prevent case dents.
 Spray Lube 5.5oz. (#7631296) \$9.95

E. Extra-Large Caliber Deburring Tool
(extra large calibers up to .60)
 This tool was designed for inside and outside deburring of cartridge cases from .17 caliber to 60 caliber. Ideal for black powder cartridge shooters. A must for 50 BMG reloading. The 30 degree angle cutter bevels inside the mouth of the case, allowing the bullets to slide in without deforming.
 Extra-Large (#7810206) \$34.95

F. Deburring Tool
 Bevels and removes burrs from both inside and outside of case mouth. Precision machined and hardened, fits all cases from .17 to .45 caliber.
 Deburring Tool (2 oz.) (#7810199) \$23.00

G. Primer Tray
 Flips primers anvil-side-up for easier loading. Spread on specially grooved surface, replace lid and shake. Made of durable plastic for safety.
 Primer Tray (2 oz.) (#7728053) \$5.75

 **WARNING:** This product can expose you to chemicals including Propylene Glycol T-Butyl Ether or Toluene, which are known to the State of California to cause cancer and/or birth defects or other reproductive harm. For more information go to www.p65warnings.ca.gov

Case Lube Kit
 Everything needed to clean and lube cases, inside and out, in one package. Large cloth lubricating pad in plastic case dispenses lube evenly. Includes 2 oz. of Lyman Case Lube, 3 interchangeable neck brushes and a cushioned plastic handle.
 Case Lube Kit Complete (1 lb.) (#7631300) . . \$24.50
 Case Lube (2 oz.) (#7631301) \$6.95
 Lube Pad Only (9 oz.) (#7631302) \$10.25

Ultra-Fine Dry Case Neck Lube
 Many uses for this specialty lube. Dip case neck into lube before sizing to reduce friction from sizing die expander button. Also works great on keys that stick in locks.
 Ultra-fine Lube (3.4a) (#7991415) \$5.95

H. Lyman Case Care Kit
 The utility crank accepts most Lyman accessories and any tool with an 8-32 thread. Kit includes both Large & Small Primer Pocket Reamers, Cleaners, & Uniformers, as well as Inside and Outside Deburring Tools.
 Case Care Kit (1 lb.) (#7777793) \$53.95

I. Lyman Magnum Inertia Bullet Puller
 Safely strips loaded rounds in seconds without damage to bullet or case. Features newly engineered head design that allows use on full range of calibers from tiny 5.7 X 28FN to the largest Magnums. New "full size" ergonomic molded handle with rubber insert for comfort and sure grip.
 Bullet Puller (#7810216) \$24.95

J. Flash Hole Cleaner
 Designed to remove bits of media from flash holes and primer pockets.
 Flash Hole Cleaner (#7777750) \$8.95

K. Flash Hole Uniformer
 This handy tool removes internal flash hole burrs. Features a tool steel cutter which is inserted into the flash hole through the case neck. Adjustable stop collar allows use with any size case. Burrs are removed with a clockwise turn. Fits .22 to .45 Calibers.
 Flash Hole Uniformer (4 oz.) (#7777760) \$17.95

A. E-ZEE Case Gauge™

This full-size version measures the case length of over 70 popular rifle and pistol cases. Many new cartridges are included like the Winchester Short Mags, 204 Ruger, 500 S&W and others. Precisely made, this rugged metal gauge makes sorting cases quick, easy and accurate.

E-ZEE Case Gauge (#7832215) \$26.95

B. Pistol E-ZEE Case Gauge™

Here's Lyman's popular E-ZEE Case Gauge in a smaller, more convenient size yet covering virtually any pistol case. The precise metal "no-go" gauge makes judging case length fast, easy and accurate.

E-ZEE Case Gauge (#7832217) \$17.95

E-ZEE™ Case Gauges

Lyman's E-ZEE Case Gauges have proven to be a real time saver for reloaders, and are available for most common calibers. The precisely machined metal "No-Go" gauge is cut to SAAMI maximum allowable case length. If a case fails to pass through the gauge, it needs to be trimmed. For 2019, Lyman is now offering two specialized E-ZEE Case Gauges designed for Cowboy Action shooters and those reloading for the wide range of MSR calibers. These convenient gauges are offered for the following calibers:

C. Cowboy Action: 32 H&R Mag, 32-20, 38 Long Colt, 38 Special, 38-40/44-40, 44 Russian, 44 Colt/45 Schofield, 44 Spec, 45 Colt
E-ZEE Case Gauge - Cowboy(#7832227) \$17.95

D. MSR: 223/5.56, 224 Valkyrie, 6.5 Grendel, 6.5 Creedmoor, 6.8 SPC, 300 Blackout, 308 Win/7.62, 7.62x39, 9mm, 450 Bushmaster, 458SOCOM, 50 Beowulf plus 2.260" max. cartridge OAL
E-ZEE Case Gauge - MSR(#7832225) \$17.95

F. Case Prep Multi-Tool™

Lyman's Unique New Case Prep Multi-Tool provides the reloader with all the essential Case Prep Accessories in one compact, Double-ended Storage Tool. Unique knurled handle un-threads in the middle to store all parts. Both ends of the handle are threaded to allow two tool heads to be mounted simultaneously. Includes:

- Outside Deburring Tool
- VLD Inside Deburring Tool
- Large & Small Primer Pocket Cleaners
- Large & Small Primer Pocket Reamers

Case Prep Multi-Tool (#7777800) \$31.50

G. 50 BMG Case Prep Multi-Tool™

Reloaders of the Big 50 no longer have to make do with undersized standard or makeshift tools to prep their 50 BMG cases. Lyman has engineered full-sized .50 caliber tools and put them together in a handy double ended storage handle - always ready and all in one place. The unique knurled handle un-threads in the middle to store all the parts. Both ends of the handle are threaded to allow a tool head to be mounted on each end. In addition to the double ended, storage handle the set includes:

- .50 Cal. Outside Deburring Tool
- .50 Cal. VLD Inside Deburring Tool
- .50 BMG Primer Pocket Reamer, Cleaner, Uniformer

E. Case Preparation Kit

Perfect accessory to your tumbler or case trimmer. It contains everything you need to properly complete case preparation: large and small primer pocket reamer for military brass, large and small primer pocket cleaner, 2 cushioned plastic handles, 3 case neck brushes and a case deburring tool. All in a handy storage pouch and box. Save 25% versus individual purchases.

Case Preparation Kit (11 oz.) (#7777796) \$47.21

WARNING: Cancer and Reproductive Harm

Lyman Bleacher Blocks® For Handgun Calibers

Once reloaders began using our popular Bleacher Blocks for rifle cases, we quickly had requests for handgun size Bleacher Blocks. Our new Bleacher Blocks answer this request. The handgun blocks follow the same proven stepped design of the rifle blocks, however with shallower holes suitable for handgun cases. Just like the rifle blocks, the stepped design allows you to easily grip a single case without jamming your fingers down into a group of cases like in traditional loading blocks. The stepped design also produces a smaller footprint so they take up less valuable bench space. Made of tough, durable polymer, the handgun size Bleacher Blocks come in two sizes to fit most popular handgun calibers and hold 50 cases.

Price \$7.95

- Molded to closely fit specific case sizes, .445", & .565"
- Made of tough, durable polymer
- Unique stepped design makes it easy to add or remove cases, even when full
- Takes up less bench space than traditional blocks

• **.445" hole size fits:** 380 Auto, 9mm Luger, 38 Super, 357 Sig, 38 Special, 357 Mag, 40 S&W, 10mmAuto

• **.565" hole size fits:** 44 Mag, 45 ACP, 45 GAP, 45 Colt, 454 Casull, 460 S&W, 500 S&W

.445 Handgun Bleacher Blocks (#7728088)
 .565 Handgun Bleacher Blocks (#7728089)

Lyman Bleacher Blocks® for Rifle Calibers

Lyman has taken a "step up" in loading block design with our new Bleacher Blocks. Just as bleachers allow people to see over those in front of them, our new loading blocks allow for easier handling of cases in and out of the loading block. Our stepped design allows you to easily grip a single case without jamming your fingers down into a group of cases like in traditional loading blocks, and allows for a smaller "footprint" on your bench. Made of tough, durable polymer, the Bleacher Blocks are molded in three sizes to closely fit a variety of rifle cases. One size fits 223 size case heads, another fits 308 size case heads and the third fits belted magnum size cases. All hold 50 rounds.

- Molded to closely fit specific case sizes, .388", .485", & .565"
- Made of tough, durable polymer
- Unique stepped design makes it easy to add or remove cases, even when full
- Takes up less bench space than traditional blocks

- Price \$6.25

Lyman Deluxe Anodized Aluminum Loading Blocks

Lyman's Deluxe Anodized Aluminum Loading Blocks are made for precision reloaders who want their equipment to be as high quality as the ammunition that they produce. The blocks are CNC milled from a solid billet of 6061-T6 aluminum to tight tolerances for a close fit to specific cartridges, unlike the common one-size-fits-all plastic blocks. The blocks are made in three sizes to fit most common rifle head sizes, and will hold 50 rounds. Blocks come with stick-on rubber non-slip feet to keep them from sliding on your bench.

- **.388" hole size – fits:** 17 Rem., 17 Rem. Fireball, 204 Ruger, 222 Rem., 222 Rem. Mag., 223 Rem., 300 AAC

Rifle Case Length Headspace Gauges

To achieve the highest degree of safety and accuracy, Lyman recommends that all bottleneck rifle cases be inspected after resizing to ensure that the proper headspace dimension is maintained. Simply insert the case into the gauge to insure that it does not exceed the maximum or fall below the minimum allowable headspace. In addition, the gauge will identify a case which exceeds the maximum allowable case length.

Caution: Cases found with excessive headspace should be destroyed immediately.

Electronic Caliper (#7832218) \$39.95

Ammo Checkers™

Check the quality and consistency of both reloaded rounds and purchased ammo. A must for any auto shooter for easy and consistent feed. You can't afford mis-feeds, so get the easiest "go" gauge available today!

Lyman's Ammo Checkers are gauges that allow a reloader to quickly confirm that their ammunition will fit in their chamber. Machined from solid blocks of 6061 T6 aircraft grade aluminum and cut with custom tooling to SAAMI minimum chamber dimensions, Ammo Checkers are available in three designs covering most common handgun and rifle calibers. One gauge will work with a variety of calibers. (See photo.) Just drop your loaded rounds in the ammo checker, and if the round fits into the gauge, it will fit in the gun's chamber. Each caliber is clearly engraved on the gauge. Bright orange anodizing makes them easy to find on your reloading bench.

Handgun gauge works with 380 Auto, 9mm Luger, 38 Super, 40 S&W, 45 ACP, 38/357, 44 Mag/Spl, and 45 Colt

Small Rifle gauge works with 204 Ruger, 22 Hornet, 223 Rem, 22-250, 300 AAC Blackout and 7.62x39mm

Large Rifle gauge works with 243 Win, 270 Win, 30-30 Win, 308 Win, 30-06 and 300 WSM

- Handgun Ammo Checker (#7833000) \$38.50
- Small Rifle Ammo Checker (#7833001) \$47.95
- Large Rifle Ammo Checker (#7833002) \$47.95

MSR Ammo Checker Block

Lyman MSR Ammo Checkers are machined from solid blocks of 6061 T6 aircraft grade aluminum and cut with custom tooling to minimum chamber dimensions. Their black anodized finish matches your favorite "black" rifle. Check the quality and consistency of both loaded rounds and purchased ammo. A must for any AR shooter. You can't afford mis-feeds, so get the easiest "Go" gauge available for modern sporting rifle calibers.

- Covers 223/5.56, 6.5 Grendel, 6.8 Rem. SPC, 7.62x39, 300AAC Blackout, 450 Bushmaster, 458 SOCOM and 50 Beowulf
- CNC machined to minimum chamber specs
- Confirm ammo will chamber smoothly

MSR Ammo Checker Block (#7833003) \$47.95

Multiple Blocks

Lyman's multi-caliber Ammo Checkers have been extremely popular with reloaders. Now based on demand from our customers, Lyman is adding gauges having 8 chambers with all being of the same caliber. Blocks will be available in 9mm, 45 ACP and 223 Rem. These gauges allow reloaders to take multiple cartridges right off the press and check them as they go. If they fit, they will chamber in your gun.

- Ammo Checker Multiple Block 9mm (#7833032)
- Ammo Checker Multiple Block 45ACP . . (#7833033)
- Ammo Checker Multiple Block .223 Rem. (#7833034)

Price \$38.50

Single Caliber Model Ammo Checkers™

Lyman's multi-caliber Ammo Checkers have proven to be extremely popular with reloaders since their introduction last year. Ammo Checkers are gauges that verify the quality and consistency of both reloaded and factory ammo. They are machined from solid aluminum and cut with custom tooling to SAAMI minimum chamber tolerances. Just drop your cartridge into the gauge and if it fits, it will chamber in your gun.

Lyman has expanded their line of Ammo Checkers into other calibers that are not included in the multi-caliber blocks. Each gauge is clearly marked for caliber and is anodized in a bright orange color so that they will be easy to spot on your reloading bench.

Mag 25 Digital Melting Furnace

Lyman has introduced their largest and most precise lead melting furnace yet: The Mag 25. The twenty five pound capacity is five pounds greater than Lyman's popular Mag 20. In addition, this new furnace is the first to offer an advanced digital thermal management system with key pad controls

Designed for the high volume bullet caster, the Mag 25 offers an array of features not found on any other furnace. With 850 watts of power, the furnace is quick to heat up, even with the increased capacity. In addition, the digital display on the front panel shows both the actual lead temperature as well as the desired temperature setting. Precise furnace operation is enhanced by the simple keypad controls.

For casting versatility, the furnace is equipped with a universal mould guide which can adjust for most popular mould blocks from Lyman, RCBS, Redding/Saeco & Lee. Lyman's proven bottom pour valve system and mould block preheating plate assure maximum casting volume.

The Mag 25 sits on a large, stable base with two, front-loading storage compartments for handy access to needed tools. This advanced furnace is offered in both 115 Volt and 230 Volt models.

- Advanced digital thermostat control with simple to use key pad
- Separate digital displays for temp. setting and actual lead temp.
- Larger 25 pound capacity
- Universal mould guide accepts most Lyman, RCBS, Redding/Saeco and Lee moulds
- Built-in storage compartment
- Powerful 850 watt heating system for fast warm-up
- Warming shelf for pre-heating mould blocks
- Reliable bottom pour valve system for increased bullet production

Mag 25 Digital Furnace 115V(#2800382) \$460.00
 Mag 25 Digital Furnace 230V(#2800386) \$475.00

**Largest Capacity,
 Digital Accuracy
 and Control**

**Mag 25 is designed
 to work with Lyman,
 RCBS, Redding, and
 Lee Mould Blocks.**

WARNING: Melting lead and casting lead objects will expose you and others in the area to lead, which is known to cause birth defects, other reproductive harm and cancer. See Instructions on Reducing Exposure supplied with product.

Lyman's "Master Casting Kit"

The Best Way to Get Started in Bullet Casting.

The kit's low price includes Lyman's popular improved 4500 Bullet Sizer/Lubricator. Simply add the right top punch and sizing die and the 4500 will smoothly size down your bullet to the correct diameter while it evenly applies the provided Super Moly Lubricant.

Kit Includes:

- Big Dipper
- 4500 Sizer/Lubricator
- Long handled casting dipper
- Ingot mould
- Super Moly Bullet Lube
- Lyman Cast Bullet Handbook

All this for less than the price of most casting furnaces.

Master Casting Kit 115V(#2712000)..... \$314.95

WARNING: Cancer and Reproductive Harm
www.p65warnings.ca.gov

4500 Lube Sizer

The 4500 Lube Sizer features solid one piece bottom casting, heating elements to fit both 115 volt and 230 volt, and a longer ball knob handle for more leverage for sizing and lubricating the largest bullets. Includes gas check seater and Super Moly Lube.

No Heater(#2745880) \$264.95
 With Heater 115V(#2745892) . . . \$269.95
 Heating Element 115V(#2745896) . \$53.00

Available with or without built-in heater

Gas Check Seater

This ingenious, unique device allows consistent, square seating of gas checks. Works on all Lyman #450, 4500 Sizer/Lubricators and RCBS Lube-A-Matic. Seater (4 oz.)(#2745881) \$12.75

Universal Lube Heater Accessory

Designed for today's high temperature lubes, this heats the Lube/Sizer to the right temperature for smooth, effortless bullet lubrication. The mounting plate is drilled and tapped for Lyman 450, RCBS, Saeco and Star Lube/Sizers. Plugs into standard 110 volt outlet (comes complete with mounting hardware). Note: Do not confuse with 4500 heating element.

115V(#2745885) \$74.95

Orange Magic™ Premium Bullet Lube

This hard lubricant is guaranteed to provide higher velocities with cast pistol and rifle bullets without leading. It will not melt out of loaded ammunition at high temperatures. (Recommended for use with the Lyman Lube Heater.) Orange Magic Lube: (#2857286) \$5.95

Super Moly Bullet Lube

The Molybdenum Disulfide in this lube coats the barrel for increased velocity and improved accuracy. In addition, it virtually eliminates leading and it flows through lube sizers without heat, yet won't melt at 130°. Super Moly Lube: (#2857272) \$5.95

All Lyman stick lubricants are in a tube, fit the 4500 Sizer/ Lubricator and similar Sizing/Lubricating tools, including RCBS.

WARNING: Cancer and Reproductive Harm
www.p65warnings.ca.gov

Digital Lead Thermometer

The Lyman Digital Thermometer is a fast and accurate way to check the temperature of your casting alloy. The long 6" probe will work with the largest casting furnaces and keeps your hand away from molten lead. The large, easy to read display can be set for Fahrenheit or Celsius and also features a hold button to lock a reading on the display.

- Fast and Accurate
- 6" Long Probe to Work with Large Furnaces
- Easy to Read Display
- Fahrenheit or Celsius

Digital Lead Thermometer (#2867797)
 Price: \$31.95

Black Powder Gold™ Lube

Formulated for long range black powder shooting. It keeps fouling soft and flows through lube sizers. It can be applied by hand to muzzleloading bullets. Black Powder Gold Lube: (#2857266) \$5.95

Lyman Alox Lube

This is the original NRA formula developed for increased cast bullet velocities. Alox Lube (1 1/4 oz stick) (#2857277) \$5.95

Lyman Ideal Lube

A great all-purpose lube. Ideal Lube (1 1/4 oz stick)(#2857275) \$5.95

“Big Dipper” Electric Casting Furnace

This economical electric casting furnace has more than 10 lb. Capacity. Features fast heat-up time with heat control to +/- 10 degrees. Easy “on-off” temperature dial. Compact size with wide mouth for easy ladling. Heavy duty aluminum construction with stable non-tip design. (115 Volt)
 Big Dipper Electric Casting Furnace 115V (#2800350)\$79.95
 Big Dipper Electric Casting Furnace 230V (#2800355)\$82.50

**Includes
Cast Bullet
Handbook**

“Big Dipper” Casting Starter Kit

Features all the items needed to get started in casting bullets economically and efficiently. Includes “Big Dipper” electric casting furnace with 10+ lbs capacity, Lyman Casting Dipper, Ingot Mold for storing excess lead, Super Moly Bullet Lube, Orange Magic Bullet Lube, Alox Bullet Lube, and the Lyman Reloading and Cast Bullet Guide. Big Dipper Casting Kit 115V (#2800375) \$144.95

10lb. Cast Iron Lead Pot

10lb. capacity, made of cast iron with convenient pour spout. Lyman’s lead pot allows the bullet caster to use any source of heat for melting his lead alloy. Nominal pot capacity is ten pounds of alloy. Flat bottom prevents tipping.
 10lb. Cast Iron Lead Pot (#2867795)\$25.95

A. Casting Ingot Mould

Useful when melting down scrap lead, emptying your furnace, or when blending alloys. Each mould forms four, easy-to-use ingots that stack easily and will weigh approximately 1 lb. Sides of mould have 30° draft for easy ejection of lead ingots.
 Ingot Mould (1 lb.) (#2837794)\$31.50

B. Casting Dipper

Our dipper with cast iron head is shaped for easy, accurate pouring and prevents air pockets in the finished bullet. The long stem dipper can also be used for stirring molten lead alloys. Wooden handle stays cool in use. Can be set up for right- or left-hand use.
 Casting Dipper (6 oz.) (#2867790)\$30.50

C. Casting Thermometer

This stainless steel thermometer will measure a temperature range from 200°F to 1000°F and has a six inch stem for use with even the deepest furnaces.
 Casting Thermometer (4 oz.) (#2867793)\$56.95

Dipper can be assembled for either right- or left-hand use!

Sizing Dies

Lyman improved sizing dies now have 90° hole spacing. It's now easy to lubricate bullets even with today's hard lubricants. Lyman sizing dies also feature a tapered mouth and hardened interior ensuring alignment for perfect cylindrical shape. Interior dimensions correspond to suggested diameters for all popular rifle and pistol calibers. Refer to the chart below for proper size. Lyman Top Punches are precisely machined to fit bullet nose shape exactly. This eliminates nose deformation. Refer to Lyman's bullet mould listing for suggested top punch number. (These are interchangeable with RCBS)

Price.....\$37.00

New Pistol Moulds

#358439 – Lyman returns a famous Elmer Keith design to our mould line. Mould #358439 is Keith's extremely popular #358429 but in a hollow point version. The lighter weight hollow point bullet provided Keith with more velocity and expansion.

NOTE: All standard rifle and pistol moulds use handles #2735793, and four-cavity moulds use handle #2735794. Bullet weights listed are nominal and may well vary from bullets dropped from a given mould. Variations between listed nominal weights and actual as-cast weights have absolutely no effect on accuracy. These bullet illustrations are artists' renderings. They are for general reference only and are not intended to be precise representation.

★ Indicates single cavity.

Rifle Moulds

Lyman rifle moulds are the standard by which all other rifle moulds are judged. The designs shown below picture gas checks where appropriate. All Lyman rifle moulds are available in double cavity only, except those moulds where the size of the bullet necessitates a single cavity (indicated below by a ★). All rifle moulds shown below require double cavity handles, regardless of the number of cavities indicated. Hollow point designs are noted above bullet.

WARNING: Melting lead and casting lead objects will expose you and others in the area to lead, which is known to cause birth defects, other reproductive harm and cancer. See Instructions on Reducing Exposure supplied with product.

MODEL of 1878

*Lyman & Pedersoli
combine forces
on a truly
unique rifle.*

Lyman® “Model of 1878” Sharps Rifle

The Ultimate Refinement of the Side-Hammer Sharps

As the buffalo era was ending, Sharps refined their renowned rifle to create the rare 1877 Model. It was often referred to as the “English Model” not just due to its refined styling but for its high quality English-made barrels. This would be their last side-hammer model. More streamlined, the ‘77 was more of a hunting/target rifle and less of a heavy buffalo gun. It was the most advanced single shot of the day. A year later William Lyman introduced his now famous Tang Sight.

Reproduced for today’s single shot enthusiast, Sharps’ final iconic side-hammer design and Lyman’s sights combine to create Lyman’s “Model of 1878”. Pains-takenly crafted to Lyman’s specifications by Pedersoli of Italy, this rare model has only been reproduced as an expensive, custom-made gun, until now. Lyman has changed that with a rifle that’s packed with features that assure tack-driving performance.

First and foremost, Pedersoli’s renowned craftsmanship and premium quality 45/70 barrel work in conjunction with the double set triggers and Lyman’s tang and globe sights for a complete accuracy system. The butt stock has the faster mounting and more comfortable “shotgun-style” butt and the forend is finished with a premium ebony tip. Both carry tasteful, functional checkering patterns. Period style, laser engraving adds additional elegance to the receiver and lockplate. Overall, Lyman’s Model of 1878 is a unique and desirable addition to any single shot enthusiast’s collection.

Cannot be sold without an FFL.

Model of 1878 (#6001878) \$2395.00

Great Plains™ Rifle

Originally designed and built by such famous makers as Hawken, Gemmer and Demick, Great Plains rifles were the best and most reliable designs and finest workmanship available. No other factory assembled rifle or kit offers the authentic style and design of Lyman's Great Plains Rifle. This classic muzzleloader offers such high quality features as a 32" barrel with 1 in 60" twist for patched ball and hunting loads, double set triggers, Hawken style percussion "snail" with clean out screw, separate ramrod entry thimble and nose cap, and reliable coil spring lock with correct lock plate. Available in .50 and .54 caliber flint or percussion. Factory assembled or kit form.

Attention All Great Plains™ Rifle Owners:

Get the most out of your Great Plains rifle with a "Hunter" Barrel (1 in 32" twist) that converts your rifle to shoot today's modern conical and sabot bullets. If you own a Great Plains Rifle, with a Classic 1 in 60" twist, just install an optional Hunter Barrel and you're ready for hunting season. A fitted tang for easy change over is included, along with original gun's factory installed sights.

Lyman® Trade Rifle

The Lyman Trade Rifle is patterned after the sturdy and functional guns developed for the early Indian fur trade. Designed by such companies as Henry and Leman, these original guns were much sought after by trappers, Indians and other rugged wilderness survivors. Drop in barrels are also available.

Deerstalker Rifle

Lyman's Deerstalker Rifle has quickly earned the reputation as one of America's most reliable, accurate and affordable hunting muzzleloaders. All Deerstalkers have "Guaranteed" performance features such as a quiet single trigger, reliable coil mainspring and high quality Lyman fiber optic sights. The 24" barrel with 1 in 48" twist is ideal for roundball or maxi hunting bullets. Parts are blackened to avoid glare and a black rubber recoil pad mounted on the Deerstalker's handsome hardwood stock, makes for comfortable shooting in either .50 or .54 caliber. Drop in barrels available.

Lyman® Plains Pistol

Lyman Plains Pistol recreates the trapper's pistol of the mid-1800's while incorporating the best of modern steels and technology. It's the perfect companion to a Lyman black powder rifle. This percussion pistol is loaded with quality features. The richly stained walnut stock complements blackened iron furniture, polished brass trigger guard and ramrod tips. The hooked patent breech takes down quickly and easily for cleaning. Just like the originals, the thimble is recessed into the rib and a detachable belt hook provides an alternative to a holster. A spring-loaded trigger and fast 1 in 30" twist make it amazingly accurate.

PRODUCT SAFETY WARNING AND RECALL NOTICE

Lyman Products Corp. has voluntarily recalled black powder rifles and pistols due to the potential of separation in the breech plug. Lyman maintains a safety-first approach, so despite finding only a few firearms affected and no reported injuries, we are offering a recall program to have the issue corrected. Lyman regrets the inconvenience but remains committed to the safety of our customers.

This recall includes black powder rifles and pistols regardless of caliber (including Deerstalker, Great Plains, Great Plains Hunter, Trade Rifle, Plains Pistol, Black Powder Kits, and replacement barrels; excluding Percussion Left Hand Great Plains and Left Hand Great Plains Hunter models) manufactured from March 1, 2017 to December 22, 2017. Barrels with the serial number in the range of A595960-A599026 are subject to this recall.

To check your serial number, please go to:

<https://www.lymanproducts.com/recall>

or contact customer service at 860-632-2020

WARNING: Cancer and Reproductive Harm

Henry Level Action Rifle No. 2 Tang Sight

Lyman is proud to announce the addition of a #2 Tang Sight for the popular Henry line of lever action rifles. Like our other folding tang sights, this new Henry model will feature all steel construction, elevation locking sleeves, and both hunting and target style apertures. The Henry #2 Tang Sight fits these models:

- H006 – Big Boy, Big Boy Carbine, Big Boy Silver
- H009 – All-Weather 30-30
- H010 – All-Weather 45-70
- H012 – Big Boy All Weather, Big Boy Steel
- H018 – Lever Action 410 Shotgun

Henry Level Action Rifle No. 2 Tang Sight \$104.95
 (#3902095)

Upgrade Your Muzzleloader with Lyman® Black Powder Sights

Fiber Optic Hunting Sights

Fits Most European Imported Muzzleloaders

Now, black powder hunters can update their rifle sights with state-of-the-art fiber optic technology. These Lyman sights let hunters take advantage of every minute in the field. They are especially helpful in dawn and dusk periods when game is most active. Designed to fit the Lyman Great Plains™, Trade and Deerstalker Rifles; these bright, light-gathering sights will also fit most other European-made black powder rifles.

Fiber Optic Sights (#3090145) \$49.97

16AML and 37ML Hunting Sights

Tired of the same old traditional blade and buckhorn sights found on most muzzleloaders? These quality Lyman hunting sights will help an old gun shoot straight and true. Both have special .360 dovetail cuts that fit most European imports. The 16AML folding leaf sight is fully adjustable for elevation. The 37ML white bead front sight stands out in low light conditions.

#16AML (Ht. 400-500) (#3090117) \$20.50
 #37ML (Ht. 445) (#3090118) \$14.50
 Special Value: Combination Set (#3090106) \$29.95

'73 Uberti No. 2 Tang Sights

This No. 2 Sight is all steel construction and features height index marks on the aperture post, with a maximum elevation of .800 for long range shooting. It includes both a .093 quick sighting hunting aperture and a .040 Large Disk Target Aperture. Mounting screws and instructions are included. (Note: some rifles may require the drilling and tapping of the forward mounting screw.)

No. 2 Tang Sight (Model '73) (#3902109) \$104.95

1894 No. 2 Tang Sight

This model fits most new and old 94 models plus these other historic Winchester Models: 1892 and 1894. The No. 2 will also fit other models when adjusted to full height. (Note: does not fit new rifles with Tang safety).

(Win. 94 Pre 2003) (#3902094) \$104.95

1886 No. 2 Tang Sight

This legendary tang sight is also available for the Winchester 1886 lever action rifle. For original Winchester model 1886 and Browning replicas, it features height index marks on the aperture post and an .800 maximum elevation adjustment. Also included is a .093 x 1/2" quick-sighting aperture and .040 x 5/8" target disk. Mounting screws and instructions are included. (Note: does not fit new rifles with Tang safety).

(Winchester '86) (#3902105) \$104.95

No. 2 Marlin Tang Sight

In 1995, Lyman introduced a new version of the No. 2 Tang for Marlin Models 336, 1894, 1895 and 30 series lever action rifles. The Marlin version features a special adapter base which allows mounting on the sight on the tang without damaging the serial number. All steel, this model has the same features and aperture discs as the 1886 model above. Mounting screws and instructions are included. (Marlin) (#3902100) \$104.95

Lyman® 57SML & 57GPR Receiver Sights

The most popular black powder receiver sight offers an immediate improvement in accuracy for the target shooter or hunter. Features 1/4 minute micrometer click adjustments for elevation and windage, quick release slide. 57SML fits perfectly on Lyman Deerstalker or Trade Rifle. Other models may require minor drilling and tapping depending on manufacturer. 57GPR fits Great Plains™ supplied with adapter.

The Auto Advance® Remote Controlled Target Stand

The Auto Advance Target Stand will advance your targets with the use of a hand-held remote control at distances of up to 200 yards. No more walking down-range to replace targets, or waiting for a cease-fire to be called. Advance to the next target without getting up from your shooting bench!

The Auto Advance system is battery operated, so there is no need for access to power outlets, plus it disassembles easily for transportation back and forth to the range. The Auto Advance system has protection plates that are rated for use with all rimfire calibers.

The Auto Advance system comes with a roll of standard bullseye targets. Additional 50 foot target rolls are available with bullseye, animal and silhouette designs.

- Auto Advance Target System (#4320051) \$149.95

Pachmayr Slide Rack Assist

The Pachmayr Slide Rack Assist is the answer for those who want extra assistance when racking the slide of semi auto handguns. Shooters with small hands, those with arthritis, and others with limited hand strength often struggle working the slide on many pistols. This innovative product fits over the slide and muzzle of your handgun, and provides a greatly increased gripping surface and significantly reduces the effort needed to rack a slide. The Slide Rack Assist is adjustable and fit most common semi-auto handguns, with the exception of CZ handguns, micro size handguns, and handguns with flared barrel muzzles greater than .660" in diameter.

Slide Rack Assist (Black) (#03890) \$19.98

Lyman Bag Jack™

How often do you set-up shooting rests at the range, only to find that your rifle isn't at the proper height; or the seat is too high for the bench? Lyman's Bag Jack is designed to make it easy to adjust the elevation of your rifle and bring it into line with your target, while also allowing you to maintain a comfortable shooting position. Compact, stable, and infinitely adjustable, the Bag Jack is the perfect platform to set up your shooting rest at the range. Create the optimal shooting position under any shooting conditions. The Bag Jack corrects the height with a simple turn of the adjustment knob. The lift is made from sturdy aluminum and steel components and has a non-slip textured platform. The lift is 10" x 10" so it can accommodate the largest size rests, and collapses for unmatched portability.

Bag Jack (#7837810) \$66.98

Lyman Shooting Bags

Lyman is proud to introduce a whole line of shooting bags to help create a stable shooting platform in almost any situation. All of our Shooting Bags are made from heavy duty, abrasion resistant 600D nylon with micro-suede padding on rifle contact points. They are also equipped with a non-slip rubberized base to keep them stable and in place during use. The bags are supplied filled with a ground plastic material which holds its shape well and is light enough for easy carrying. Filling can be adjusted for optimal volume.

The Match Shooting Bag is shaped to tightly squeeze your rifle and give you a stable and secure shooting platform. The bag is equipped with a sturdy carry strap and an adjustable tensioning strap to adjust elevation. Dimensions: 8"W x 10"D x 6 1/2"H

The Wedge Shooting Bag is used to raise or lower the buttstock of your rifle to correct your aim point. Simply slide the bag forward or back to correct your elevation and aim point. Slight adjustments can be made by gently squeezing the bag. Dimensions: 4"W x 6 1/2"D x 4"H

The Crosshair Front Bag provides a stable front rest for any rifle. Dimensions: 6"W x 4 1/2"D x 7 1/2"H

The Crosshair Rear Bag features a notched design which holds the rifle stock in place. Dimensions: 5 1/2"W x 5"D x 5"H

The Crosshair Combo Set includes both the Front and Rear Bags that work perfectly together to create a customized shooting platform to meet your needs. The front and rear bags can also be clipped together for easy transportation.

Flippin' Critter™ Walking Targets

Flippin' Critters Walking Targets keeps your rimfire plinking sessions fun and interesting, while sharpening your shooting skills at the same time. Flippin' Critters have a unique "tri-pod" shape that causes the target to flip and walk away from you each time the target is hit. Each time the target flips it moves both backwards and at an angle, so you always have a new challenge for each shot. The targets are made from solid steel, so they hold up to year after year of plinking action. Available in round and prairie dog shapes and their bright color makes them easy to see.

Flippin' Critter Prairie Dog (#4321221) \$19.98
 Flippin' Critter Round Target (#4321220) \$19.98

Tac-Mat™ Long Range Shooting Mats

Lyman's Long Range Shooting Mats are perfect for long range shooting, target or tactical shooting, and varmint hunting. They offer a large footprint that will work well for even the tallest shooter, yet they roll up to a compact, easy to transport size. These comfortable mats will protect you from dirt, rocks, wet surfaces, insects, hot truck beds, gravel or pavement. 6' x 3' (Tail adds 6")

Mats will be offered in two versions, a basic design in either black or FDE; or a heavy-duty (HD) version in black. The basic model features 600D construction, with a carry handle and shoulder strap. The shoulder strap can also be used as a bipod stop. The HD version features 1000D construction, elbow pads and a built-in bipod stop, as well as a carry handle and shoulder strap.

AccuSight

Lyman's new AccuSight Pistol Sight Tool sets the standard by which all others will be judged! Proudly made right here in our Middletown CT plant, the AccuSight tool is CNC machined from billet aluminum. It can adjust, install or remove front or rear dovetail pistol sights, and has a machined pocket for 1911 slides. The AccuSight features 4 horizontal and 1 vertical slide clamps, full range height adjustment, and 1/32" increment windage adjustment scale on the sight pusher. The large sight pusher handle provides plenty of torque to move even the most stubborn sights. The AccuSight Pistol Sight Tool is a must for gunsmiths, competition shooters, or anyone who wants to properly work on pistol sights.

- Adjusts, install or remove dovetail pistol sights
- CNC machined aluminum body
- 4 horizontal and 1 vertical slide clamps
- Includes straight and angled sight pusher blocks
- 1/32" increment adjustment scale
- Large sight pusher handle allows moving stubborn sights
- Works with most pistols with front or rear dovetailed sights

AccuSight: Pistol Sight Installation Tool (#7031287) \$129.95

Pro Drive Torque Wrench

The Lyman Torque Wrench is a must for accuracy minded shooters and gunsmiths. The Lyman Torque Wrench will allow you to safely and correctly attach scope bases, scope rings, action screws and other fasteners to firearms. Correct screw torque prevents damage to screw threads, screw heads, threaded surfaces and optics. Consistent screw torque will also help get the best accuracy from your firearm.

- Includes straight blade, hex, and 6-lobe bits, plus 1/2" socket and socket adapter
- Padded storage case
- Adjustable up to 80 inlb.

Pro Drive Torque Wrench (#7031300) \$94.97

Electronic Digital Trigger Pull Gauge

Lyman's revolutionary Digital Trigger Pull Gauge is designed to be the fastest and most accurate trigger pull gauge available. The state-of-the-art strain gauge technology allows for accuracy of 1/10 ounce/2 grams. The gauge will read to a maximum 12lb/5.4kg and features a large, easy-to-read LCD display. To operate, simply press the ready button, hook the roller around the trigger of your firearm and pull until the trigger releases. (Make sure firearm is not loaded.) The gauge will display and hold the exact trigger pull weight. For a new reading, just press the ready button and repeat. The gauge will also give you an average of up to the last 10 readings. Switch from ounces to grams with the push of a button. The fully adjustable rod works on any firearm. This is the perfect tool for target shooters, silhouette shooters, gunsmiths, hunters, or anyone who wants to adjust their trigger pull weight accurately and easily. Works with two included AAA batteries.

- Fully Adjustable Trigger Pull Rod allows use with all firearms
- Accurate up to 1/10 ounce/ 2 grams
- Ergonomic Design
- Roller "Self-Centers" on Face of Trigger
- Memory for Averaging up to 10 pulls
- Easy to read LCD Display reads in (pounds/ounces) or Metric (kilograms/grams)
- Ensures safe and accurate trigger adjustments

BORECAM™ Digital Borescope

Borecam™ Pro Wireless Borescope

Lyman's new Borecam Pro borescope takes barrel inspection to a whole new level! The wireless Borecam Pro produces its own WiFi signal which sends super clean and detailed images directly to your phone. No wires or monitors to get in the way during use. Carefully inspect your bores for wear, throat erosion, tool marks and other rifling damage, as well as copper or lead fouling. The Borecam Pro will fit 20 caliber and larger barrels and is now equipped with a longer 24" rod. In addition to taking photos, the Borecam Pro now takes sharp, clear videos. The Borecam Pro's easy-to-use app makes storing and retrieving photos and video simple. Apps are available for iOS and Android phones and tablets.

- Wireless WiFi operation
- 720P Resolution for a clean, sharp image
- Fits 20 caliber and larger barrels
- 24" long rod
- Can take photos and video
- Easy to use apps for iOS and Android phones or tablets

Borecam Pro (#04059) \$339.95

Miniature digital camera technology and bright lighting combine to provide crisp clear images.

Unit charges via a USB cable and adapter.

Borecam® Digital Borescope with Monitor

Lyman's Borescope provides active shooters with the means to carefully inspect the bores of their firearms for wear, throat erosion, tool marks, and other rifling or chamber damage, as well as for checking for fouling. The scope will fit 20 caliber and larger barrels and works with miniature camera technology. The display will show a clear image of the inside of the barrel and also allows you to take a photo of the bore. The image will be stored on a standard SD card and can later be viewed on a computer or lap top.

Digital Borescope with Monitor (#04055) \$324.95

Images can be captured from the display and saved to a memory card.

Gun Cleaning Solutions

At Lyman Products, we know how important gun cleaning is, and we also know that you'd rather spend your time shooting than cleaning, so we've taken all the essential items you need and assembled them into handy kits to make gun cleaning quick and easy. Whether it's a Qwik Draw to give your firearm a speedy clean on the range, or the pistol cleaning kit to handle your handguns, or the All-in-One to cover all of your firearms, we've got you covered. We even took our years of muzzleloading experience and put together a kit just for black powder shooters.

QwikDraw™ Barrel Cleaning Rope 

The Lyman QwikDraw™ Barrel Cleaning Rope is a fast, all-in-one cleaning tool that reduces your cleaning time to a fraction of what it would be with a traditional cleaning rod. The QwikDraw™ combines a traditional bronze brush with the scrubbing action of a long bore cleaning rope to quickly clean the dirtiest bore. Simply apply some of your favorite cleaning solution to the rope, drop the weighted end of the pull cord into your chamber and let it slide out of the barrel; then pull the brush and rope through the bore for an easy, fast cleaning.

Available for: 22, 243/6mm, 270/7mm, 30, 338, 9mm/38/357, 40, 44/45, 12 ga. and 20 ga.

QwikDraw™ 12 Gauge (#04068)	\$12.98
QwikDraw™ 20 gauge (#04069)	\$12.98

Universal Bore Guide Set 

Lyman's Universal Bore Guide Set directs and centers your cleaning rod and jag through the chamber. This protects both the chamber and the bore from abrasion by the cleaning rod during regular cleaning. "Universal" means that this set will fit most bolt actions and even includes a special adapter sleeve for the AR-15.

Precision machined from durable, anodized aluminum, the set comes with interchangeable tips that cover bore sizes from .17 up to .416 and the thread-on nozzles prevent the guide's sticking in the chamber. The guide's specially machined port makes applying solvent to the inserted cleaning patch easier and neater than trying to push a wet patch into the open end of the guide. The Universal Bore Guide Set works with most cleaning rods like Lyman's new Universal Cleaning Rod System and Jag and Brush Set. Universal Bore Guide Set (.17 to .416)(#04045) . \$21.50

Multi Caliber Cleaning Pistol Cleaning Kit

Covers 380 Auto, 9mm Luger, 38 Magnum, 40 S&W, 45 ACP and 45 Colt calibers. The handle features a rotating attachment point for the rod, which allows the rod to rotate and follow the rifling in your barrel. All the components are packed in a convenient plastic carrying case.

- 3 – bronze brushes
- 3 – mops
- 1 – cleaning rod handle
- 1 – bag of patches
- 2 – brass cleaning rods: 5 1/2" rod and 2" extension
- 3 – brass jags 
- 1 – slotted patch holder
- 1 – rod centering guide
- 1 – bottle of gun oil

Pistol Cleaning Kit (#04036) \$25.98

**Lyman's Pick & Brush Set
Makes a Handy Cleaning Set
for Many Applications**

Lyman's Pick and Brush Set 

Allows you to clean out all those hard to reach grooves and corners that can't be reached with patches. The picks come in a variety of shapes so that you'll have just the right size to fit into those tight spots. A nylon utility brush is also included for scrubbing away tough powder residue. A "must have" for your cleaning supplies and range bags.

Pick and Brush Set (#04038) \$4.50

A. The Original Butch's® Bore Shine

Designed by well known bench rest competitor Butch Fisher, this non-abrasive chemical solvent is specifically designed to remove all forms of bore fouling including copper with an absolute minimum of effort and no damage. It will quickly remove carbon build-up, even in difficult to clean areas like the chamber throat. It also removes lead, wax and even plastic shotgun wad build up.

A significant improvement over conventional solvents, Butch's can also control the copper fouling by pushing a few patches soaked with Butch's prior to shooting. Butch's is safe to use on normal and stainless barrels. It is a true "All in One" Cleaner. Try it and you will never use anything else!

- Butch's Bore Shine 3.75 oz (#02937) \$11.50
- Butch's Bore Shine 8 oz (#02953) \$16.25
- Butch's Bore Shine 16 oz (#02941) \$28.95

WARNING: This product can expose you to chemicals including 1,2,4 Trimethylbenzene, which is known to the State of California to cause cancer and/or birth defects or other reproductive harm. For more information go to www.p65warnings.ca.gov

B. Butch's® Black Powder Bore Shine - Benchrest clean for black powder guns

Butch's New Black Powder Bore Shine was developed specifically for the Black Powder Shooter who asked for a Better, faster way to clean their Rifles. Butch's Black Powder Bore Shine comes from a special cleaning solvent used by the U.S. Military. This New Black Powder bore cleaner, like the original Bore Shine does it all. Removes Powder, Lead and Plastic Fouling faster than any other cleaner. Best of all it is odorless, non-toxic, non-flammable, biodegradable and protects against rust and corrosion. You can't find a better cleaner for black powder anywhere. Butch's Black Powder Bore Shine 8oz. (#02949).....\$10.50

WARNING: This product can expose you to chemicals including Methyl Pyrrolidone, which is known to the State of California to cause cancer and/or birth defects or other reproductive harm. For more information go to www.p65warnings.ca.gov

C. Butch's® "Triple Twill"™ Patches

Like Butch's bore shine, these patches offer superior performance. They hold more liquid and remove fouling faster than ordinary cotton flannel patches. A special fabric used in laboratories and cleanrooms, Triple Twill's special weave has hundreds of tiny "ridges and drop zones" which scrub and capture fouling residues far better than other patches. Butch's Triple Twill patches don't shed lint and have been specially treated for maximum absorbency.

D. Butch's® Gun Oil U.S. Military proven formula

Butch's Gun Oil is an ideal bore protectant and conditioner, especially when used with Butch's solvent. It is a proprietary blend of natural oils that withstands the intense heat, friction and pressures produced in a firearm's chamber and bore. The product's rust inhibitor provides the absolute maximum in corrosion protection for both regular and stainless steel firearms. Butch's Gun Oil 4oz (#02948)..... \$8.75

E. The Essential Gun Maintenance Mats

Protect your gun and your workbench. Work like a pro on your Lyman Gun Mat. The firm, yet cushioned surface is perfect for assembling and disassembling firearms (or lots of other hobbies!) for cleaning or maintenance and repair. The molded compartments contain spills and keep small parts out of the way of the main work area but still handy and organized. The mats are chemical resistant and clean easily with soap and water. Handgun mat measures 15.75" x 10". Rifle Mat measures 10" x 36".

- Chemical Resistant
 - Made from synthetic rubber for a non-slip surface
 - Protects your gun's finish and your bench's finish
 - Molded-in storage compartments keep parts secured & organized
- Essential Gun Mat (#04050)..... \$16.98
 - Essential Rifle Mat (#04051) \$37.50

45pc. & 68pc. Lyman Master Gunsmith Tool Kits

Pachmayr's screwdriver sets provide all the bits needed by gunsmiths and all those who work on firearms. These complete sets come with bits for slotted screws, hex screws, 6-lobe screws, and Phillips screws; in addition to an assortment of specialty bits. The specialty bits include a Weaver scope ring bit, Glock front sight bit, 1911 grip bushing bit, as well as .062", .093" and .118" pin punches. The sets also include a ratchet wrench so the maximum torque can be applied to those tough-to-remove screws. The bits for slotted screws are hollow ground, so they properly fit screw slots and prevent cam-out which creates ugly, damaged screw slots. The sets are packed in compact, convenient storage cases.

45 Piece Set Contains

- 12 – hollow ground bits for slotted screws
- 15 – hex bits in standard and metric sizes
- 6 – Phillips bits, including two long bits
- 3 – 6-lobe bits
- 6 – specialty bits
- 1 – extension
- 1 – ratchet wrench
- 1 – handle

68 Piece Set Contains

- 32 – hollow ground bits for slotted screws
- 17 – hex bits in standard and metric sizes
- 6 – Phillips bits, including two long bits
- 4 – 6-lobe bits
- 6 – specialty bits
- 1 – extension
- 1 – ratchet wrench
- 1 – handle

Lyman Tool Kit 45 pieces (#7991360) \$44.98
 Lyman Tool Kit 68 Pieces (#7991361) \$59.98

A. Deluxe Hammer & Punch Set 

The perfect companion for the home gunsmith or handyman. Each set features our complete selection of quality Gunsmith Punches plus the popular Brass Tapper Hammer. This unique set comes in a custom hardwood storage case which separates each punch by size for quick access.

Deluxe Set (3 lbs.) (#7031298) \$60.98
 Replacement Steel Cap (#7991272)..... \$1.10
 Replacement Nylon Cap (#7991271)..... \$1.16
 Replacement Brass Cap (#7991273)..... \$3.48

B. Gunsmith's Punch Set 

A good selection of properly made and correctly sized punches is no longer hard to find. Now they're available from Lyman. The Gunsmith's Punch Set offers a complete selection of quality steel punches with hardened steel punch tips including 1/16", 3/32", 1/8", 5/32", 3/16", 1/8" center punch and a brass drift punch. Deluxe Set including the interchangeable head "Brass Tapper" hammer is also available. (see above)

Gunsmith Punch Set (12 oz.) (#7031273)..... \$33.95

C. Lyman "Brass Tapper" Hammer 

For gunsmithing and other delicate jobs, this hammer has three interchangeable heads including nylon, brass and steel. For delicate tapping, a knurled brass drift pin stores inside the handle.

Brass Tapper (11 oz.) (#7031290)..... \$23.95

D. Roll Pin Punch Set 

Ideal tools for removing hollow, split roll pins. Special round nose design allows proper alignment of punch in roll pin to prevent damage to fine mechanisms such as trigger group parts. Roll Pin Punches come in 1/16, 3/32, 1/8, 5/32 sizes.

Punch Set(10 oz.) (#7031277)..... \$21.95

E. Pistol Punch Set 

For the specialized needs of pistol work, Lyman has put together a more economical assortment of punches. This basic set utilizes the same universal handle as the Gunsmith's Set with the following punches: 1/16", 3/32", 1/8", 5/32" and brass drift punch.

Pistol Punch Set (8 oz.) (#7031271) \$21.00

X-Block Gunsmith Bench Block

Having the right tool for the job makes any gunsmithing project so much easier! Without the right tool, you may damage fine finishes or break parts. The X-Block is the right tool for anyone driving pins out of firearms. It has all the features to get the job done smoothly and professionally. The X-Block has both a "V" slot and a rounded slot running across the face of the block to support a variety of barrels and slides. The block is made of a tough, non-marring, polymer, and edged with a softer non-slip outer overmold. The block has multiple holes to take on most any project, as well as a molded in magnet on the back side of the block to catch pins and other small parts as they drop out. Its large 5" diameter provides a stable base with plenty of support.

- Large 5" diameter
- Magnet molded into base to catch pins or small parts
- Made of tough, non-marring polymer
- "V" slot and rounded slot run across the block face to fit most every need such as pistol barrels, slides and frames
- Soft, non-slip sidewalls for improved grip

X-Block Gunsmith Bench Block (#04078) \$17.95

"Essential" Tool

Having the right tool for the job is important, but sometimes its also important to have a "fun" tool for the job!

Impress your friends with this 50 Caliber Bottle Opener.

Precision CNC machined from solid aluminum and hard anodized, this bottle opener is sure to turn heads at your next event.

50 Cal Bottle Opener (#11460).....\$9.98

Gunsmith 31 Piece Tool Kit

Our 31 piece gunsmith screwdriver set contains the best selection of bits for working on all firearms. Gunsmith slotted bits for action screws, hex bits to fit scope mounting screws and Phillips bits including special long Phillips bits for butt plate and recoil pad removal. A must for the serious shooter.

(#03047) \$20.50

Master Gunsmith™ Hex Head Ring & Base Screw Kit

Contains 10 each of 14 premium 3/32" hex style scope ring and base screws. These difficult to find screws are favored non-slip replacements for slotted screws. Packaged in a handy storage box with individual compartments for each size screw. Includes tweezers and a thread size gauge, which also doubles as a shortening jig used to grind a screw to a shorter length. (Hex Size: 3/32)

KIT CONTAINS:

XLT "Ultra Soft" Magnum Trap

After years of research and testing, Pachmayr engineers developed a trap pad that's almost 50% softer than the legendary Pachmayr Decelerator®. Even better, the super soft formula has the smooth grinding and installation characteristics of our popular Decelerator® pads.

Color: Black - Black base only

Find the Pachmayr® pad that meets your needs.

Pachmayr has a pad that will fit the needs of almost every shooter. The following suggestions will help you pinpoint your choices and find the pad for you. Template samples are available on our website to help you select the right size pad to fit your stock.

1. Select the Shape

What do you want the pad to do? How will you be using the rifle or shotgun? This will determine the face shape for optimum control.

Skeet

A convex pad design to make mounting the gun smooth without snagging. The skeet face is the best choice for wing shooting, skeet, or sporting clays.

Field

A combination of convex and concave shapes designed as a compromise for fast mounting and positive control.

Trap

A concave pad designed to provide a positive "hugging" grip on the shoulder. Specifically designed for Trap and Rifle shooting.

How much recoil absorption do you need? Pachmayr pads are available for all ranges of applications, from light to heavy recoil.

2. Consider the Core Design

Side Core

A side core design with the exposed XXXX configuration is the ultimate in recoil absorption because of the "shock absorbing" effect offered by the compressing "X" pattern. These pads have a solid base and are the best choice for those who may prefer a soft sided pad.

Bottom Core

A bottom core design is softer in the middle and has firmer sides to absorb the sharpest recoil. A classic appearance and availability in Decelerator® material makes this design the most popular and most copied Pachmayr design.

Stock Spacers

Need to add some length to your stock? Pachmayr spacers add approximately 1/4" each. Available in black and White Line® styles. Add up to four when installing a new pad or adding between existing pad and stock. White Line® accent spacers are available in 1/16".

- Easily add length to stock
 - White Line® and Black base styles
 - Add up to 1" in length
 - Gunsmith required
- Black Spacer(#02455) \$9.98
 White Spacer(#03472) \$9.70

3. Pick the Face Texture

How much control do you require in your shoulder? Will you be quick mounting or secure in your position for careful sighting? Face Texture will also play a role in your selection. Pachmayr offers several textures to optimize your shooting.

Leather Ribbed Line Checkered Stippled Basket weave Grooved Pigeon

Light Face Texture

Leather and ribbed faces are "light" face textures. These will maximize your speed when mounting.

Medium Face Texture

Line Checkered and stipple are "medium" face textures; best for use in field applications.

Heavy Face Texture

Basketweave and grooved are "heavy" face textures; best for precision shooting and big bore rifles. Our ultimate heavy design is pigeon, used ideally in live bird shoots and trap.

4. Find the Right Size Pad

Note: Pad and insert dimensions can vary for pad models.

1. It is best to measure your stock with the butt plate or old pad removed.
2. Always choose the pad size that is larger than your stock width and longer than the stock length to allow for toe angle.
3. Pads with inserts cannot be trimmed under the minimum width noted.
4. Keep in mind, it is not necessary for the pad holes to match your stock, since new holes should be drilled.
5. Complete size dimensions for each pad are printed on packaging.
6. Each pad comes with complete instructions.

Shock Shield

The Shock Shield is the simple solution to reducing recoil in a variety of rifles and shotguns. No need for different size pads, as its one size design stretches and contours to a variety of stock shapes and dimensions. Filled with a pocket of soft gel, felt recoil is greatly reduced. Easy on and easy off. Simply stretch it over the butt of your firearm. Keep one in your range bag so you always have it handy!

- Soft gel pad for greatly reduced recoil
- One size stretches to fit most rifles and shotguns
- Easy on and easy off
- Won't harm stocks
- Non-slip pad face texture

Shock Shield (#04428)..... \$19.98

Renegade® Slip-On Recoil Pads

Comfort doesn't have to cost you an arm (or a shoulder)!! Pachmayr has been the number one source for recoil pads for many years. We are proud to introduce a new line of slip-on pads that offers excellent recoil absorption, a clean modern appearance, and 1" of additional length of pull, all at a great price. The pads will be offered in black and brown, and be available in small, medium and large sizes. Comfort and performance doesn't have to be expensive.

Small Black (#04420)..... \$12.98
 Medium Black (#04421)..... \$12.98

Decelerator® Slip-On Recoil Pads

Combining the advanced recoil control of the popular Decelerator® internal design and material with Pachmayr's unique insert, this great looking slip-on recoil pad is unmatched by any other hunting pad. In addition, the pad's material and design make installation easier than ever. A Pachmayr original design, the Speed-Mount insert gives hunters and target competitors alike the benefit of smooth, snag-free mounting while delivering maximum recoil reduction. Price \$23.98

No other slip on has the unique Pachmayr Speed-Mount insert.

Brown	Fits Stocks	Part #
Small	1-1/2" to 1-5/8" wide x 4-3/4" to 4-7/8" long	#04418

LET YOUR GRIPS SHOW YOUR STYLE!

NEW FOR 2020

1911 Diamond Pro Grip

Building on the success of our popular Diamond Pro revolver grips, Pachmayr is proud to announce the addition of the 1911 Diamond Pro grip. Our first Diamond Pro semi-auto pistol grip is made from Pachmayr's proprietary blended rubber compound designed for enhanced shooting comfort and control. It has an aggressive, yet comfortable texture allowing for optimum recoil control and is equipped with low profile finger grooves which provide fast, positive hand placement. If desired, the front strap finger groove section could also be trimmed away to allow for use as grip panels.

This new pistol grip sets the standard for comfort and control, along with a stylish appearance.

Fits all standard full size 1911 frames with standard or ambidextrous safeties.

- Sets the standard for comfort and control
- Low profile finger grooves for fast, positive hand placement
- Proprietary rubber compound blend
- Sleek, modern appearance
- Fits ambidextrous safeties

Diamond Pro Grip 1911 (#02470) \$26.98

Custom Series Pearl Pistol Grips

Pachmayr's Brilliant Pearl grips add the ultimate custom look to your 1911. Our Brilliant Pearl grips replicate the appearance and feel of actual mother of pearl but at a much lower cost. Brilliant Pearl grips are strong and weather-resistant, as well as offering a smooth gripping surface which will not snag on clothing for concealed carry. Brilliant Pearl grips are available in both Black and White colors and have a recess cut for 1911's with ambidextrous safeties.

- 1911 Black Pearl Smooth (#62000) \$29.50
- 1911 White Pearl Smooth (#62001) \$29.50
- 1911 Copper Pearl Smooth (#62003) \$29.50
- 1911 Emerald Pearl Smooth (#62003) \$29.50
- 1911 Cherry Blossom Pearl Smooth (#62003) \$29.50

Custom Series Carbon Fiber Pistol Grips

Pachmayr's Carbon Fiber 1911 G10 grips provide the toughness and strength of carbon fiber, while also adding to the appearance of your pistol. The carbon fiber weave offers a truly unique high tech look to your 1911, while also providing a strong, weatherproof set of grips. The grips are constructed with a tough G10 base, covered with a carbon fiber weaver. The smooth outer grip surface will not snag on clothing, making them perfect for concealed carry. Pachmayr carbon fiber 1911 grips have a recess cut for models with ambidextrous safeties.

1911 Carbon Fiber G10 (#62020) \$115.20

Custom Series Aluminum Pistol Grips

Pachmayr's Custom Series Aluminum grips are a stylish, tough and lightweight addition to your 1911 or Sig 938 pistol. The double-diamond checkering pattern adds classic good looks, while providing a non-slip grip surface. The black anodized aluminum grips are strong and impervious to weather or chemicals, and will also work on models with ambidextrous safeties.

- 1911 Aluminum Black Checkered (#62050) \$29.50
- Sig 938 Aluminum Black Checkered (#62060) \$29.50

G10 Tactical® Pistol Grips

G-10 material is a fiber glass based epoxy resin laminate. It is an extremely tough and durable material that is impervious to moisture, weather or chemicals, making it a perfect material for handgun grips. The multiple layered construction allows the use of different colors to be added to the grips, which create attractive patterns as it is machined. Our Pachmayr G10 Tactical pistol grips are available in two textures, our coarse Grappler pattern or checkered, and two color patterns, green/black and gray/black. Pachmayr G10 Tactical grips are the toughest, most durable and best looking grips available. Available to fit 1911's, Sig 238's and 938's, Ruger Mk III, 22/45's, Beretta 92's, and CZ 75's

Renegade™ Wood Laminate Pistol Grips

Pachmayr's deluxe wood laminate pistol grips are the ultimate in style and function. The wood laminate panels are highly polished and checkered, and available in two colors, Rosewood and Charcoal Silvertone. The Rosewood laminate provides classic good looks, while the Charcoal Silvertone perfectly accents stainless steel frames. The precision CNC cut checkering patterns provide a secure grip while maintaining the grip's attractive appearance. Available to fit 1911's, Ruger Mk III and 22/45's, Beretta 92's, CZ 75's and Sig 238's and 938's

TACTICAL GRIP GLOVES™

These "Stretch-to-fit" Grip Gloves are custom molded for each top-selling pistol model. This makes them ideal for the popular polymer frame handguns which have no replacement grips available. In addition, Pachmayr Decelerator® material delivers proven recoil reduction and enhanced control that no other slip-on can match. They also have the right shape and flexi-

bility to make installation "a snap" – no trimming, tearing or hard work - just a perfect fit.

Finally, the distinctive ventilated side panels and custom fit provide more instinctive gun orientation, enhanced control and they look more professional than the old, one-size-fits-all rubber band models. Tactical Grip Gloves are the only ones that "fit like a glove."

Tactical Grip Glove™ for Mossberg Shockwave & Remington Tac-14

The Mossberg Shockwave and Remington Tac-14's have become two of the most popular weapons to be introduced in recent years. Their 14" barrels and unique birds head style pistol grip makes them fast and maneuverable, however they do also pack quite a kick. With this in mind, Pachmayr now introduces a new Tactical Grip Glove, developed specifically for these firearms. This slip-on grip is easy to install and offers much better control as well as reducing recoil of the Shockwave and Tac-14. The grip features a single finger positioning groove, non-slip texturing and a thicker padded area to give the palm of your hand better protection from recoil.

Tactical Grip Glove for Moss Shockwave & Rem Tac 14 (#05103) \$12.50

Ruger Mk III Signature

Signature™ Grips With Backstraps 

Pachmayr Signature Grips feature our unique full wrap-around design and are made from rubber specially formulated for use on semi-automatic pistols. This rubber compound gives them a feel that is unmistakably Pachmayr. Built-in steel inserts ensure they maintain their shape. Signature Grips are the overwhelming choice of competitive shooters and law enforcement personnel alike. Available in the widest variety of models for most of the popular semi-automatic pistols. Each is designed for a specific pistol and its anticipated use. (See chart below.)

Signature™ Grips Without Backstraps 

These models of Pachmayr Signature Grips also feature our unique full wrap-around design, are also made from rubber specially formulated for use on semi-automatic pistols, but are supplied without backstraps so they can be used on pistols such as the Government .45 models that utilize grip safety mechanisms. They are offered in the same styles as the Pachmayr Full Signature Grips; Checkered, Thumb Reduction Combat, Sculptured Thumb Reduction Combat and Combat Plus finger groove. (See Chart below.)

American Legend™ Grip Series for S&W Revolvers 

By popular demand, Pachmayr brings back – and improves – their American Legend Grips for Smith & Wesson "J", "K & L" and "N" Frame Round Butt models. The grips have updated and improved contours to evenly distribute and disperse recoil by better filling the hand.

The wraparound rubber panels that are the hallmark of these classic grips fit the wood panels with tighter tolerances than earlier designs. In addition, the grips are now offered in both traditional Rosewood and new Charcoal laminates for great looks on either blued or stainless models.

Gripper Universal Slip-On

Gripper™ Slip-On Grip

Pachmayr's Gripper Slip-On Grip has a unique design and contour, allowing it to fit a large variety of popular medium to full size pistols. The Gripper Slip-On features an attractive non-slip texture along with palm swells for great fit and control. Molded in trim lines also allow you to custom fit the grip to your pistol. Perfect for Glock and other polymer frame pistols.

- Optimal size to fit a large variety of pistols.
- Gripper Slip-On Grip can be trimmed for a customized fit and feature molded trim lines to provide a clean, even cut.
- Comfortable finger grooves offer increased control.
- Backside of finger grooves are recessed to allow use on pistols with or without finger grooves, perfect for all generations of Glock's.
- Non-slip texture and palm swells for great fit and control.
- Made from a tough rubber compound, the Gripper Slip-On is impervious to weather, sweat, oils and solvents.
- Perfect for Glock and other polymer frame pistols.

This grip will fit the following pistols (some models may require trimming):

- Glock 19, 23, 25, 32, 38
- Glock 17, 20, 21, 22, 31, 34, 35, 37
- S&W M&P Full Size & Compact
- S&W M&P Full Size & Compact
- S&W M&P M2.0 Full Size & Compact
- S&W Sigma, SD, SD VE

- TC Contender Forend w/ Adapter (#03373) \$85.00
- TC Contender Adapter for Forend Only (#03381) \$47.58

The Original Widget™

Tool for easy assembly/disassembly of 1911's. Widget (#03471) \$5.98

GuardianGrip

Pachmayr's new GuardianGrip is a revolutionary and innovative design made for popular concealed carry revolvers. What makes the GuardianGrip so unique is its patented finger extension. With the simple press of a button, the spring loaded finger extension drops down out of the grip, converting a two finger compact grip into a controllable three finger grip. This is the first grip which allows the concealment of a compact grip with the shooting control of a full size grip.

- Carries like a compact, shoots like a full size grip
- Convert from a 2 finger grip to a 3 finger grip with the press of a button
- Contoured for use with Speedloaders
- Impervious to moisture, weather or chemicals
- Open backstrap design with checkered grip panels

GuardianGrip S&W J Frame (#02605) \$49.98
 GuardianGrip Ruger LCR (#02607) \$49.98
 GuardianGrip Taurus 85/856 (#02608) \$49.98

Aluminum Competition Speedloaders

Pachmayr's new revolver Speedloaders will set the standard for quality and performance. Unlike competitive models which are made of plastic, Pachmayr's Speedloaders are precision CNC machined from solid aluminum. The Speedloader bodies are cut in a polygon shape which produces the smallest possible outside dimensions and allows them to easily fit compact revolvers. The Speedloaders are also equipped with a rattle eliminating o-ring which contacts the cartridge bases and firmly holds the rounds in place. Cartridges are released with a simple twist of the large knurled knob. Speedloaders are available for the S&W "J" frame/Ruger LCR, as well as S&W "K" and S&W "L" frame revolvers.

- Available for .38/357 S&W "J" frame/Ruger LCR, as well as S&W "K" and S&W "L" frame revolvers (These Speedloaders will also fit other popular models. See package for details.)
- CNC machined from solid aluminum
- Polygon shape for the smallest outside dimensions
- Cartridges are held firmly with no rattle
- Simple twist knob cartridge release

J Frame .38/357 5-Shot (#02650) \$23.98

G10 fiberglass-based laminate is tough and durable

G10 Tactical™ Revolver Grips

Pachmayr's Deluxe Revolver Grips are the ultimate in style and function.

Now available in G10 designs.

G-10 material is a fiberglass-based epoxy resin laminate. It is an extremely tough and durable material that is impervious to moisture, weather or chemicals, making it a perfect material for handgun grips. The multiple layered construction allows the use of different colors to be added to the grips, which create attractive patterns as it is machined.

- J Frame G10 Gray/Black Checkered (#61161)
- Ruger SP101 G10 Gray/Black Checkered (#61221)
- Ruger LCR G10 Gray/Black Checkered (#61232)
- Ruger LCR G10 Red/Black Checkered (#61242)

- Renegade Wood Laminate Revolver Grips \$46.95

Polished laminate wood with tasteful checkering or smooth finish

1911 Diamond Pro Grip

Building on the success of our popular Diamond Pro revolver grips, Pachmayr is proud to announce the addition of the 1911 Diamond Pro grip. Our first Diamond Pro semi-auto pistol grip is made from Pachmayr's proprietary blended rubber compound designed for enhanced shooting comfort and control. It has an aggressive, yet comfortable texture allowing for optimum recoil control and is equipped with low profile finger grooves which provide fast, positive hand placement. If desired, the front strap finger groove section could also be trimmed away to allow for use as grip panels.

This new pistol grip sets the standard for comfort and control, along with a stylish appearance.

Fits all standard full size 1911 frames with standard or ambidextrous safeties.

- Sets the standard for comfort and control
- Low profile finger grooves for fast, positive hand placement
- Proprietary rubber compound blend
- Sleek, modern appearance
- Fits ambidextrous safeties

Diamond Pro Grip 1911 (#02470) \$26.98

**The softest,
best fitting,
best feeling
handgun grips
ever!**

Diamond Pro Revolver Grips

Pachmayr's Diamond Pro™ Series revolver grips have taken the revolver-shooting community by storm! These "Diamond Plate" textured, one-piece grips transform popular revolvers. The soft grips replace standard factory models by easily slipping over and fully wrapping around the revolver's grip frame – with no gaps or seams.

This new line of revolver grips has set a new standard with a modern look, and the extreme comfort and con-

trol shooters have come to expect from Pachmayr.

These grips fill the hand comfortably, with a natural feel and point. The unique shape is covered with our "Diamond Plate" texture, which gives you rugged good looks and absolute control of your revolver, even under the heaviest recoil. Pachmayr's proprietary blended rubber grip compound is formulated to give you the long lasting soft feel you expect and the best in recoil reduction you deserve.

The Diamond Pro™ series offers models to fit the popular line of Ruger Revolvers, including the Ruger LCR, the SP101 and the GP100, as well as Taurus Revolvers, including the Judge, Raging Bull, Tracker and Public Defender (standard and polymer frames), and the Smith & Wesson "J", "K&L", and "N" Frame Round Butt models.

Diamond Pro Grips \$26.98

- S&W "N" Frame Round Butt (#02480)
- S&W "K&L" Frame Round Butt (#02479)
- S&W "J" Frame Round Butt (#02478)

- Ruger GP100 (#02484)
- Ruger SP101 (#02483)
- Ruger LCR (#02482)

- Taurus XL Frame (#02472)
Fits Models 444, 416 & 454 (Raging Bull)
- Taurus Compact Public Defender (#02474)
- Taurus Compact Public Defender (Polymer) (#02475)

Presentation Grips

The first grip design developed by Frank Pachmayr. This popular grip has been the mainstay of our line since the beginning and it remains popular. Pachmayr Presentation Grips feature our unique design, classic styling, and a magnificent finish with deep checkering for control and a superb shiny finish.

Price \$41.98 - 43.00

Decelerator® Grips

All guns recoil, and recoil affects your accuracy, control, and overall shooting enjoyment. For those shooters who want the most out of their shooting experience, Pachmayr offers the Decelerator® Grips — 50% softer than a regular grip. The Finger Groove Decelerator® Grip is designed to control the recoil produced by a powerful revolver. Combined with recoil absorbing air cushions along the backstrap, this grip is ideal for shooters that require the ultimate control and shooting comfort.

Price \$46.98

Compac™ Grips

Pachmayr Compac Grips are made from a specially formulated black rubber compound and are designed to maintain concealability. Although compact in design, Compac Grips still give a shooter total control, Compac Grips provide a secure, non-slip finish. That's why they are the plainclothes officer's preferred way to a more positive grip without compromising concealability.

Price \$41.98

Gripper™ Grips

Pachmayr Gripper Grips for revolvers are made from a specially formulated rubber compound optimized for control and recoil absorption. The finger groove style is popular for combat shooting and hunting. A slight palm swell fills the hand but is not so large as to be uncomfortable. Gripper Grips are fully checkered for appearance as well as for control. Designed for correct hand position.

Price \$41.98

Gripper™ Professional Grips

These are smaller versions of our Gripper models. The design has an open back-strap and the overall shape has been downsized. This design makes it possible for shooters with small hands or shorter fingers to better reach the trigger and obtain the advantages of a reliable combat-style Pachmayr grip.

Price \$41.98

Compac™ Professional Grips

These are smaller versions of our Compac models that provide an even greater degree of concealability. The design has an open back strap and the overall shape has been downsized. Like the Gripper Pro series, this design makes it possible for shooters with small hands or a shorter finger to better reach the trigger and obtain the advantages of a reliable Pachmayr grip. Available in models to fit many popular revolvers.

Price \$41.98

Pachmayr® Grip Extenders

Pachmayr's Grip Extenders will greatly increase your control and shooting comfort when added to popular compact and sub-compact handguns. The extensions perfectly match the shape and texture of the handgun, so they look like they are part of the pistol, rather than an add-on. Extenders are easy to install and are made of tough, high strength polymer that stands up to the roughest handling. In addition, the Extenders come in a pack of two for a price similar to others on the market that only contain one. Price \$10.50

Available models that improve comfort & control without increasing magazine capacity:

- 03881 - Glock 26, 27, 33, 39
- 03884 - Glock 26, 27, 33, 39

INCREASE THE CAPACITY OF YOUR HANDGUN USING A PACHMAYR MAG SLEEVE.

Pachmayr® Mag Sleeves

Many popular compact handgun models will accept magazines used in the full size version of the same model, thus increasing your magazine capacity. These longer magazines will extend down below the grip frame however, making the grip uncomfortable and unsightly. The Pachmayr Mag Sleeve fills this void, providing an enhanced grip and making the longer magazine look like it belongs! The Mag Sleeve simply slides over the magazine and is secured with a set screw. Available for most popular compact and sub-compact handguns.

Not Your Average "Lightweight"

**Carbon Fiber Technology:
Light weight with
Unbeatable Strength**

More Strength / Less Weight

Carbon Fiber AR-15 Handguards with Sight Rail

TacStar's New Carbon Fiber Handguards are a rugged, highly functional addition to your AR. Carbon fiber offers an unbeatable strength to weight ratio, offering durability and toughness to go along with their light weight and good looks. Unlike Handguards made of aluminum and other materials, carbon fiber Handguards stay cool to the touch even with extensive firing. The fully free floating octagon Handguards are equipped with multiple cooling slots and accessory mounting points. The mounting points will accept any M-LOK® style mounting hardware used with accessories such as slings, bi-pods, lights or vertical grips. Additionally the Handguards are equipped with a forward mounted Picatinny rail to attach sights. The Handguard attaches to the rifle using an innovative aluminum mounting sleeve. The sleeve simply clamps over the existing barrel nut meaning no special tools are needed for installation. Handguards are available in Carbine (10"), Mid (12") and Rifle (15") lengths to cover any standard gas port location.

- Made of durable, tough and light weigh carbon fiber
- Free floating design
- Stays cool to the touch, even with extensive firing
- Multiple cooling slots and mounting points
- Accepts M-LOK® equipped mounting hardware
- Three lengths available, 10", 12" and 15"
- Equipped with Picatinny rail for sight mounting
- Easy installation. Barrel nut does not need to be removed

Made of durable, tough and light weigh carbon fiber

Accepts M-LOK® equipped mounting hardware

Three lengths available, 10", 12" and 15"

Carbon Fiber Magazine Extensions

TacStar® continues their position as a leader in top quality, high tech shotgun accessories with the introduction of Carbon Fiber magazine extensions. Carbon fiber offers an unbeatable strength to weight ratio. These extensions are about 4 times lighter than traditional steel tubes, however they are much stronger. The carbon fiber offers durability and toughness to go along with light weight, making it the perfect material for extension tubes. As an example, with the 10 shot extension, you save nearly a half a pound using the carbon fiber tube compared to a steel tube.

In addition, we also include a high visibility follower which is machined out of solid aluminum and is designed to improve feeding; as well as a barrel magazine clamp.

The extensions are available in 7 shot, 8 shot and 10 shot capacities. The 7 shot extension adds 2 rounds, the 8 shot adds 3 rounds and the 10 shot adds 5 rounds to your shotguns' total capacity.

Shotgun Model	Mag. Ext.	Part No	
Benelli Nova, Beretta 1301	7 shot	(#1081500)	\$64.95

TacStar® Steel Magazine Extensions

Machined from solid steel*, popular TacStar Magazine Extensions are easy to install. No gunsmithing is needed and most can be removed to return the gun to the original configuration. The seven-shot extension allows for two extra rounds, the eight-shot adds three and the ten-shot adds five more rounds to the shotgun's capacity. Ten-shot extensions include a Barrel/Magazine Clamp. All extensions include a specially calibrated new spring. (*Note: Benelli M4 tube is aluminum.)

Carbon Fiber Technology: Light weight with Unbeatable Strength

Brass Catchers

TacStar's Brass Catchers are the perfect accessory for shooters who reload. No more walking around bent over trying to find where your brass flew! The Brass Catcher with Rail Mount simply clamps to the Picatinny rail of flat top AR's. The mounting bracket is adjustable and low profile, so it can be positioned to clear optics or scopes. The heat resistant catch bag can hold up to (120) .223 cases. When you are ready to empty the bag, simply pull it off of the mounting rail and dump out the shells! The bag also can be un-snapped from its aluminum deflector plate for thorough cleaning.

Our new Universal Brass Catcher has velcro straps that wrap securely around the stock of any rifle. No firearm modifications are needed. Adjustable and low profile, to clear optics or scopes. Heat resistant catch bag can hold up to (60) 223 cases. To empty, simply unzip the bottom of the bag and dump out the shells.

- Brass Catcher with Rail Mount clamps to Picatinny rails on flat top AR's
- Universal Brass Catcher has Velcro straps that wrap around the stock of any rifle
- No Modifications needed
- Shell bag empties easily
- Low profile and adjustable
- Rail Mount Brasscatcher holds up to 120 .223 cases
- Universal Brasscatcher holds up to 60 .223 cases
- Heat resistant bag

Brass Catcher with Rail Mount (#1081240) \$37.50
 Universal Brass Catcher(#1081245) \$29.98

Shotgun Rail Mount with SideSaddle®

Here's a simple and effective tactical upgrade for 12 gauge Remington 870, 1100 and 11-87 shotguns and now also for Mossberg 500, 590 and 930 shotguns and Benelli M2 and M4 shotguns – no gunsmith needed. Ultra-rigid, this innovative lightweight aluminum unit straddles both sides of the receiver and is crafted with a non-glare anodized finish. The top Picatinny rail can mount a variety of accessories, yet is designed to sit just high enough to allow continued use of the shotgun's bead sight. Keeping six shells in readiness, the low profile design SideSaddle incorporates TacStar's proprietary material for durability and secure shell retention.

Remington (#1081035)	\$99.98
Mossberg 500, 590 (#1081029)	\$99.98
Benelli M2 (#1081021)	\$99.98
Benelli M4 (#1081022)	\$99.98
Mossberg 930 (#1081030)	\$99.98

The Original SideSaddle® Shotgun Carrier

The unique TacStar® SideSaddle mounts extra rounds on your shotgun in a convenient and accessible location for fast reloading. The Hytrel® polymer shell carrier is attached to an aluminum mounting plate that installs directly on the shotgun receiver. All mounting screws are included, no gunsmithing required. Installation is easy, and in most cases requires no alterations to the shotgun. Note: some field grade shotguns may require a modification to the shotgun's forend. Shotguns using the TacStar pistol grip forend do not require modification. The 4-round SideSaddle will also work smoothly with all models without modification. Works great as a separate Shotshell Storage Caddy for Duck Blind, Boat or Hunting Cabin!

6-Shot SideSaddle®

When combined with the TacStar® M-4 magazine extension, this 6-round delivers an awesome 13 round capacity that travels with the shotgun.

REQUESTED BY LAW ENFORCEMENT

Exposed Serial Number 4-Round SideSaddle® for the Remington 870 & 11-87 Requested by LE Professionals.

Armors and law enforcement agencies use serial numbers to track their firearms for maintenance, inventory and record keeping. The SideSaddle's convenient serial number port is the perfect answer.

Rem. 4-Shot Side Saddle (#1081166)

TacStar 4-Shot SideSaddle®

TacStar's 4 round SideSaddle Shotgun Carrier is the perfect accessory for all your hunting shotguns. It mounts easily to the side of the receiver and requires no modifications to the shotgun. Each SideSaddle is designed to provide clearance for long forends, such as the Benelli Nova model, and come with all mounting hardware. SideSaddles keep extra shells securely in place and in the perfect location for reloading. No more digging in pockets for extra shells.

Slimline SideSaddle®

Our SideSaddle line has gained a large following because of their convenient placement of shells right where you need them for a fast reload. We have now taken the SideSaddle to the next level with our streamlined version. We use a non-glare, anodized aluminum backing plate material and we have contoured the plate so that it takes up less space on the receiver and has fewer areas that could potentially snag. Additionally we have changed the shell carrier itself to our proprietary flexible synthetic rubber material, which offers durability and weather resistance as well as secure shell retention. Like the backing plate, the shell carrier also is smaller in size than our traditional SideSaddle, adding to its sleek appearance.

- Sleek, streamlined appearance
- Strong, rigid, non-glare, anodized aluminum backing plate
- Durable, flexible synthetic rubber shell carrier with secure shell retention
- Reduced size and streamlined shape reduce chances of snagging
- Available for Remington 870/1100/11-87 and Mossberg 500/590

Tactical Shotgun Grips

TacStar® took a long, hard look at tactical shotgun grips, and then re-engineered them totally. The result is the most rugged front and rear pistol grips TacStar has ever offered. These tough, one piece, reinforced polymer models also incorporate an advanced, finger groove, ergonomic design. By better fitting both of the shooters hands, these grips enhance control, operation and recoil reduction. Made in the USA, TacStar's Tactical Shotgun Grips are easy to install – the Mossberg/Maverick model even includes integral action bars. Available for 12 ga. models only listed below: Remington 870, Mossberg 500/590/600, Maverick 88.

 Battery Life: Up to 6 hours continuous
 Construction: 6061 T6 Aluminum
 Finish: Black Anodized
 Weapons Light System 2000 (#1081025) \$99.95

Tactical Shotgun Rail Mounts

The TacStar® Shotgun Rail Mount is designed to fit standard 1" diameter magazine extensions and allows for easy mounting of tactical lights and/or lasers. The mount has three standard Picatinny rails positioned 90 degrees apart which allows for plenty of options when mounting accessories to the shotgun. The mount uses an easy to install clamping system which will not mar extensions, yet is strong and secure. Picatinny rails will accept most scope/light/laser mounting rings.

The shotgun rail mount is available in two lengths. Choose the length that best fits your extension length and accessories. Keep in mind space for a barrel/magazine clamp if used. The short mount is approximately 1.8" and the long mount is 4.1".

Note: Some semi-automatic shotguns are weight sensitive and accessories adding weight may cause short cycling with some ammunition. It is recommended that you function test the shotgun after installation.

- Tactical Shotgun Rail Mount Short (#1081100) . . \$36.00
- Tactical Shotgun Rail Mount Long (#1081104) . . \$47.00

Tactical Grip Glove™ for Mossberg Shockwave & Remington Tac-14

The Mossberg Shockwave and Remington Tac-14's have become two of the most popular weapons to be introduced in recent years. Their 14" barrels and unique birds head style pistol grip makes them fast and maneuverable, however they do also pack quite a kick. With this in mind, Pachmayr now introduces a new Tactical Grip Glove, developed specifically for these firearms. This slip-on grip is easy to install and offers much better control as well as reducing recoil of the Shockwave and Tac-14. The grip features a single finger positioning groove, non-slip texturing and a thicker padded area to give the palm of your hand better protection from recoil.

Tactical Grip Glove for Moss Shockwave & Rem Tac 14(#05103) \$12.50

**NEW FOR
2020**

Saddle Sights - Ghost Ring Shotgun Sights

TacStar's Saddle Sights are the answer for those looking to equip their shotgun with ghost ring style sights, but don't want the hassle of drilling and tapping. These easy to install sights simply slide over the receiver and attach using the existing trigger assembly pin holes. The front sight slides over the muzzle and is locked in place using a non-marring clamping block. The sights install in a matter of minutes and are just as easily removed if you want to return your shotgun to its original set-up. The sights are made of tough, durable polymer and are adjustable for both windage and elevation. The front sight band is dimensioned to allow clearance for magazine extensions or other accessories, and fits barrels with bead or bead/pedestal base sights. The Saddle Sights are the perfect addition to a 3-Gun, home defense, or deer hunting shotgun.

- Easy to Install – No Gunsmithing Required!
- Adjustable for elevation and windage
- Tough, durable polymer construction
- Fast acquisition ghost ring style sights
- Front sight band is dimensioned for magazine extension clearance

Ghost Ring Sights Remington 870 (#1081216) \$44.98

BMC-U (#1081173) \$14.98
 M1,M2, Rem 1100/11-87 & Moss 500/600

The TacStar® High Visibility Follower makes it easy to confirm that a shotgun magazine is empty. Its bright orange color will be easily spotted at the load port, confirming that the magazine is empty. The shape of the follower also provides improved functioning compared to factory followers and it is machined from solid aluminum for durability.

High Visibility Follower (#1081200) \$9.40

Our Universal Barrel Shroud fits most 12 gauge pump shotguns. It is machined from all-steel with a black oxide finish. It is 13 3/4" in length and designed with a circular friction-fit bracket at the rear and a locking clamp at the front for a recoil resistant fit on the barrel.

Universal Barrel Shroud (UBS) (#1081171) .. \$47.98

THE FULL RANGE OF TARGET ADJUSTMENTS IN ONE AR-15 STOCK

AR-15 AMRS Adjustable Match Rifle Stock

TacStar's new AR-15 Adjustable Match Rifle Stock offers a full range of adjustments and features that can give any AR-15 (with A2 tube) a precisely adjustable match-grade buttstock. Both comb height and length of pull can be adjusted to provide a match-grade, custom fit for any shooter. Built with the TacStar quality that shooters rely on, the AR-15 AMRS also carries other important features like a hidden Picatinny rail for a stabilizing monopod. In addition, there are several sling mounting points including ports for push button quick release swivels (swivels not included) and fixed sling loops. The AR-15 AMRS is the easiest, most practical final upgrade for any AR.

- Comb height adjustable by .75"
- Adjustable butt plate adjusts length of pull by 1"
- Hidden Picatinny rail accepts monopods
- Push button quick release swivel ports, plus sling loops

AR-15 AMRS (#1081123) \$159.95

AR-15 Rear Grip

Through the years, Pachmayr has listened to what our customers and MSR shooters have been looking for in an AR15 Grip. We then took this input and designed our new AR15 Grip. It has all of the features that have been asked for, including a hand-filling yet slim shape, shallow finger grooves for fast grip acquisition, and proper hand location for easy trigger reach and control. The grip has a synthetic rubber over-mold construction, along with a good looking yet non-slip texture. The grip is impervious to gun oils or solvents and will stand up to rough use.

AR Rear Grip (#02466) \$28.50

AR-15 Recoil Pad

Pachmayr's new AR15 Slip-On Pad is the answer for those looking for an easy to install, non-slip pad for their standard M4 stocks. The pad simply slips over the edges of the M4 buttstock to secure it in place. The non-slip texture keeps the rifle firmly against your shoulder, yet looks good and makes the pad appear to be part of the rifle. The pad also features an internal cushioning section to reduce recoil. Fits most M4 style stocks with butts approximately 5 1/4" long and 1 9/16" wide.

AR 15 Recoil Pad (#20225) \$15.98

WARNING: Cancer and Reproductive Harm

TacStar® Collapsible AR Stock

TacStar's Collapsible AR Stock is a tough, versatile, feature packed replacement stock for AR carbines. The stock is made of super strong, glass reinforced polymer and has a unique "A" frame shape to protect the length adjustment lever. Multiple sling attachment options are provided, which include QD sling attachment ports on both sides as well as a sling slot. A removable rubber butt pad comes with the stock which provides secure, non-slip mounting and reduces felt recoil. The stock offers a precise fit to mil-spec (1.146" diameter) buffer tubes for smooth length adjustment.

AR15 Collapsible Stock Mil-Spec Diameter (#1081118) \$34.98

TacStar® Stock Adapters

TacStar's Stock Adapters are designed to allow the use of any AR-15 type telescoping stocks and pistols grips on your shotgun. Unlike some competitive polymer adapters, TacStar's are made of a tough die cast metal alloy which not only provides greater strength, but also additional weight to reduce felt recoil. Designed to perfectly match the factory receiver contours and mount up seamlessly. The adapters are designed for proper drop to use bead or ghost ring sights. The adapters will accept any standard AR-15 grip without a beavertail, or one having a flexible rubber beavertail, such as Pachmayr's, Ergo's and some Hogues. The adapter also features QD sling attachment ports on both sides. Available for Mossberg 500/590 and Remington 870 shotguns. (Does not include buffer tube or stock.)
 Tactical Stock Adapter, Mossberg 500 (#1081230) \$41.98
 Tactical Stock Adapter, Remington 870 (#1081231) \$41.98

TacStar® Collapsible Stock Kit

TacStar's Collapsible Stock kit is a complete, versatile, feature packed collapsible stock kit designed for Mossberg 500/590 and Remington 870 shotguns. This bolt-on upgrade kit will significantly increase your firearm's ergonomics and versatility. Length of pull adjusts from 11 to 14 1/4" allowing the user to correctly fit the shotgun to their body or situation. The stock is made of super strong, glass reinforced polymer and has a unique "A" frame shape to protect the length adjustment lever. Multiple sling attachment options are provided, which include QD sling attachment ports on both sides of the stock and also on both sides of the adapter, as well as a sling slot on the stock. A removable rubber butt pad comes with the stock which provides secure, non-slip mounting and reduces felt recoil. The stock is designed for the proper drop to use bead or ghost ring sights. Unlike some competitive models, TacStar's stock adapters are made of a tough die cast metal alloy which not only provides greater strength, but also additional weight to reduce felt recoil. The package comes with Pachmayr's AR15 Grip, which features a hand-filling yet slim shape, shallow finger grooves for fast grip acquisition, and proper hand location for easy trigger reach and control. These easy to install kits are available for Mossberg 500/590 and Remington 870 shotguns.

**92S The Original TRIUS® Trap
Built for the Serious Shooter!**

For more than 60 years the Original Trius Trap has been the trap that others have been judged by. The trap can be adjusted to throw beyond regulation distance. In addition, it throws doubles including piggyback doubles. Held in place with foot or mounted to a tire (bolt furnished), the trap features a High Angle Target Retainer for those challenging high angle targets. Large adjustment knobs make the TRIUS trap fully adjustable without tools.

92S Trius Trap (#10205) \$94.95

**TRIOUS® Birdshooter 2™
TRIOUS Quality Priced for the Recreational Shooter!**

The TRIUS Birdshooter has many of the fine features of our original foot trap but priced for the occasional shooter. Don't let the low price fool you, this trap has TRIUS quality and performance. A bit lighter weight than the original TRIUS Trap, this trap will out perform other traps in its price range. Regulation singles and piggyback doubles make this an excellent choice for the beginner and/or experienced shooter. Can be held with foot or tire mount (bolt furnished). Aluminum arm plus oil impregnated bushings give years of trouble-free shooting. A High Angle Target Retainer is included for adding variety to your shooting. Fully adjustable without tools.

Birdshooter 2 (#10220) \$64.98

The TRIUS® 1-Step™
A Trius Original 
One easy step cocks & releases target, almost effortlessly.

One person can throw and shoot! The most popular member of the TRIUS line, the One Step has become our best seller, whether you enjoy shooting alone or with a group. The TRIUS One Step is almost effortless to use. Arm is set and targets are placed on arm without tension. Step on pedal to put tension on the arm and release targets in one motion. Aluminum arm plus oil impregnated bushings deliver years of trouble-free shooting. Throw regulation singles plus piggyback doubles. High Angle Target Clip Included. Large knobs for adjusting tension and vertical angle make the TRIUS One Step trap fully adjustable without tools.

Trius 1-Step (21 lbs.) (#10201) \$129.95

Eyepal®
Perfect Vision for Hunting or Target Shooting

PATENTED

- This amazing product instantly improves eye focus for any shooter.
- Eliminates target fuzzing and distortion.
 - Applies directly to your eyeglass lens.
 - Won't scratch or harm your glasses, removes easily when not in use.
 - Works with any prescription or safety glasses.
 - Available in models for Bow Hunting, Handgun and Rifle Shooting
 - CMP Approved for National Trophy Pistol and Rifle Match Competition

Are you frustrated because you can no longer make out your sights AND the target when aiming a rifle, handgun, or bow? Simply apply the EyePal to your glasses, and you'll be back on the range and shooting better than you have in years! The EyePal provides a small image where everything is in focus. This is particularly useful to shooters who have limited near vision but have good far vision.

The EyePal is a modern adaptation of the century-old peep sight. The EyePal enables you to simultaneously see the target, your front and rear sights — all in focus. And since its made out of a static cling material, it can be easily placed on and off of reading, prescription and safety glasses — without marring the surface or leaving any residue. Compact, lightweight and virtually indestructible, the EyePal is the ultimate addition to any shooter's kit.

StrikerCaps

Our extremely popular A-Zoom Snap Caps are the best choice for safety training, function testing and dry firing practice. Their rugged design has proven to withstand thousands of dry fires while still protecting the firing pin. One drawback with dry firing snap caps however is when they are used in striker fire type pistols. These firearms require that the slide be drawn back to cock the pistol, which then extracts and ejects the snap cap from the pistol. Our new StrikerCaps solve this problem. StrikerCaps are made without a rim and are equipped with a centering o-ring which grips the chamber walls and keeps the snap cap in place in the chamber. Once it is chambered, simply rack the slide to cock the pistol. StrikerCaps will absorb the firing pin hit just like standard A-Zooms, however will stay in place for quicker, easier dry fire practice. StrikerCaps will be available for 380 Auto, 9mm, 40 S&W and 45 ACP.

StrikerCap 380 Auto 2/pk(#17101)	\$8.98
StrikerCap 9mm 2/pk(#17102)	\$8.98
StrikerCap 40 S&W 2/pk(#17103)	\$8.98
StrikerCap 45ACP 2/pk(#17104)	\$8.98

For safety training, function testing or safely decocking without damaging the firing pin, A-Zoom training rounds are much more than conventional snap-caps. They are precision CNC machined from solid aluminum to precise cartridge dimensions, then hard anodized for ultra-smooth functioning and long life.

In addition, each round has A-Zoom's remarkably durable "Dead Cap" proven to withstand over three thousand dry fires while protecting the firing pin. A-Zoom Snap Caps last over 30 times longer than conventional plastic examples and are available in over 120 sizes from .22 Hornet to the .50BMG.
